Venezuela has ordered Gulf Oil to declare within the specified time if its shares would be sold or not. If the company fails to declare within the specified time, the government will be entitled to reside in the company's shares. This, however, Wednesday night said that if the company's shares were sold, the government's officials or politicians would declare that the company's shares would be sold. The American Petroleum Institute released a statement Thursday indicating that the Venezuelan government's action was an effort to increase the country's petroleum production.

CARACAS, Venezuela - Venezuela's president, Carlos Andres Perez, is telling Gulf Oil to declare within 10 days whether it intends to sell its shares in that country's oil industry. The company has been given until Saturday to declare its plans for the shares, according to the president.

Agency is not a social service, employees say

Changes that the financial executive proposes of the John
County Department of social Services is understood to be
unanticipated, "crucial, and determined against an
employee benefit," were present in a letter to the Iowa City
Council. Other city officials said it is a direct action.

The department alluded on all financial staff employees.
According to the employee's letter, all employees must to
the assembly of assistant to clients — and the ability
to the federal government towards Iowa's Department of
Social Services.

"This is a very important change," said the director.
"It sends a lot of work and the ability.
We believe that a person's discipline is very
important to that person's professional
position to "dinner, "Larry Gelfand, professor
of leadership, expressed concern about the
change and proposed that the proposed
change be discussed in a public forum.
Additionally, several members
agreed with Duke, some stated an
opposition to the proposed change.

A change that would have shown the
potential of a "reasonable system," however,
was struck from initial model presentation.

Addins said he had talked with Mayor
Fredrickson, who president of academia,
and had told him the ad
would never again appear.

"I suggest they come up with a better
plan," said the mayor. "We need to
get something specific to this department.

City Council approved a contract
with KPCW for the $15,000 grant

Retailers From the Dorm Surplus?

Has the dorm retail industry reached its zenith? In the past, the dorm retail business has been a reliable source of revenue for universities. However, with the increasing demand for student amenities and services, the dorm retail sector may be facing a downturn. The question is whether dorm retail will continue to thrive as a profitable venture for universities in the future.

International Women's Year

Two days earlier, U.S. Senator Barbara Mikulski of Maryland introduced a Senate resolution to set up an International Women's Year forum modelled on a similar one established by the United Nations. Women's rights advocates价全 have been trying to draw more attention to women's issues.

A year ago, the women's movement was given a strong boost when Spain's socialist prime minister, Felipe Gonzalez, adopted a women's policy. A year ago, during the election campaign, he called on the Spanish as a whole to support the plan for the forum.

The high spot will be the International Summit on Women's Issues at United Nations headquarters in New York from July 1 to July 5. The Mexican government, which has been a leading supporter of the forum, has already begun preparations for the event.

The summit will be attended by delegates from all over the world, including representatives of government and non-governmental organizations. The aim is to bring together women from different parts of the world to discuss their experiences and share information on how to address the challenges they face.

The summit will also include a series of workshops and panel discussions on a wide range of topics, such as education, health, and human rights. The aim is to provide platforms for women to share their experiences and learn from each other.

By attending the summit, women will be able to network and establish connections with other women from different cultures and backgrounds. They will also be able to learn from each other and gain new ideas on how to address the challenges they face.

The summit will be a historic opportunity to bring together women from all over the world to discuss their experiences and share information on how to address the challenges they face.

Well, of course, there are questions about the forum. Why are some women not included in the forum? Why are some women not represented? Why are some women not receiving equal treatment? Why are some women not given equal opportunities? Why are some women not given equal pay?

**January: Watergate trial brings penral revolving door**

By TIM DRAKE

American News Editor

The verdict was read in thousands of Americans watched the Super Bowl and turned away from the previous night's "New Year celebration," even in the most modest of homes, the trial that led to the resignation of President Richard Nixon. And it was the conclusion of a long and difficult Watergate investigation.

Three years ago the Watergate cover-up trial began, however, the trial to bring about the resignation of President Richard Nixon. The trial lasted for almost two years.

The trial centered around the Watergate scandal, a political scandal that began in 1972 with the break-in of the Democratic National Committee headquarters in the Watergate complex in Washington, D.C.

The trial was presided over by Judge John Sirica, and featured testimony from numerous witnesses, including former White House aide John Dean, former Committee counsel John Ferraro, and former CIA operative Richard M. Helms.

The trial ended with the conviction of several defendants, including former Attorney General John Mitchell and former Secretary of State Henry Kissinger.

The trial was a major victory for the American people, who had long awaited justice for the Watergate scandal. It was also a major victory for the American legal system, which had been tarnished by the scandal.

The trial ended with a verdict of "guilty" for all defendants. The defendants were fined and sentenced to prison for their roles in the Watergate scandal.

The trial was a major turning point in American history, and it is remembered as one of the most important trials in American legal history.
