Haldeman: Nixon in cover-up 'from day one'

Say 'cheese'

In first glance, visitors approaching this historic Florida home may think they've stepped into an adobe house. Designed by architect Donald L. Wague, a two-story home with a stucco exterior, terracotta roof tiles, and stone walls. The entrance features a large, brick archway.

NEW YORK (UPI) - Richard Nixon "borrowed" the word "cheese" to describe his plan to keep photojournalists out of Watergate tapes, but it would have been better to call them "cheese" in Florida.

Haldeman also concedes Nixon in part created the "cheese." The house where Nixon stayed during the Watergate scandal was previously owned by the Bushes.

HOLLYWOOD (UPI) - Here's your chance to own a piece of history. The house where former President Richard Nixon stayed during the Watergate scandal is now on the market for $1.43 million.

The rate increase request was approved last year. That would have been a "cheese" in Florida.

Dome rate increase handed to regents

In Bill Jurges, the UC president and former state senator, is faced with a difficult decision.

"This increase will provide this university the services and resources it needs to continue as a world-class institution," Jurges said. "We will increase our efforts in areas such as athletics and other student activities that will help us maintain our competitiveness in this highly competitive environment.

The rate increase request included $28 million for student services, $2.5 million for new student housing, and $5 million for capital improvements.

"We will use the increased revenue to improve services, including providing additional scholarships and grants to students," said Chancellor Lawrence S. Peters.

**Basic skills expansion debated**

*By STEVE TRACY*

The expansion of rhetoric and composition units in high schools has caught off guard the Indiana Commission on Accreditation of Colleges and Universities. The plans to add rhetoric and composition units to the high schools' curriculum are under consideration.

The expansion of rhetoric and composition units has met with resistance from some high school administrators who feel that it is not necessary to add these units to the curriculum.

The expansion of rhetoric and composition units is aimed at improving the writing skills of high school students. The goal is to increase the number of students who can write effectively and clearly.

City human rights:  a problem of approach

DeIRDRE REAGAN

Difficult decisions in transportation and housing planning now confront planners and officials in coordinating city and county growth in the eastern Iowa region.

The problem, according to a recent study from E. J. Reigel's, director of the American Council of Transportation, indicates that the interest of residents and mayors of future land on transportation services.

"Some geographic, and population variations in the city's transportation plans have to be addressed," he said. "These variables may necessitate the increased regional cooperation, and the transportation plans then will be transferred to the county's plan.

The city's plan can provide a basis for a cooperative agreement with the county government in the planning process, and the remainder of the plan would be under the county's jurisdiction.

The new plan's first phase of the project will be to the study for a regional transit plan in the Greater Iowa City area. The study will be conducted in cooperation with the Iowa City Regional Transit Agency. The plans will be completed in the next three years.

Local day care centers allocated state funding

The state Board of Regents has announced the allocation of state funding for day care centers in the Iowa City area. The funding will be distributed to the centers based on a formula that takes into account the number of children served and the size of the center.

EAST DURHAM

Daycare centers are listed below:

1. Friendship Day Care
2. Hillcrest Day Care
3. Shipton Early Childhood Center
4. Alices's Bijou Cooperative

Each center will receive funding based on the number of children it serves.

For more information, contact the Iowa City Regional Transit Agency at 385-7241.

Obstructive regulations for editing state food stamps regulations remain in a state food stamps program, but the rules are being revised.

Officials of the Iowa Department of Health and Human Services have announced that the rules will be revised to allow for a faster approval process.

The rules have been criticized for their complexity and the length of time it takes to get approval for changes.

"We are working to streamline the process and make it more efficient," said a spokesperson for the department.

About 70% of the applications for food stamps are approved within a month.

If you have any questions about applying for food stamps, contact the Iowa Department of Health and Human Services at 385-7241.

Smokers' rights:  a problem of approach

Smokers' rights issues have gained significant attention in recent years. The issue of smokers' rights vs. non-smokers' rights has become a controversial topic.

In the past, many states have passed laws that restrict smoking in public places. However, these laws have been met with opposition from smokers who argue that they have a right to smoke.

A recent study indicates that the majority of people support smoking bans in public places, while a minority support smoking rights.

Atlantic City:  a problem of approach

Atlantic City is facing a number of challenges, including casino closures and declining tourism. The city has been working to revitalize its economy by diversifying its offerings.

The city has been working to enhance its attractions, such as its historic boardwalk and its casino resorts.

Atlantic City is also working to attract new businesses and residents to the area. The city has offered incentives to businesses to locate in the area, and it has also worked to improve its housing stock.

For more information, contact the Atlantic City Convention & Visitors Bureau at 485-3400.
Readers: maintenance study, God's infertility

AFSME irony

By the Editor

There is a rather ingenious irony in an April 13 AFSME study by William H. Proctor, entitled "AFSME's infertility: a study of the dilemma of the AF." The report, issued on behalf of the AFSME, is in effect an analysis of an argument that refutes the argument in the study. In other words, Proctor's study is not a research study at all, but rather an argument that refutes the argument in his study. Is that good practice for a professional organization? Is that good practice for the American Federation of State, County, and Municipal Employees? The study is not a research study, but rather a comment on the AFSME's infertility.

The small pond located between Riverside Dr. from the submerged bottom to the water surface was studied with a lentic Monarch and a leech. C shoot the leech in a lentic Monarch. The leech is found in the pond next to the bottom and will swim upward and a few centimeters above the pond bottom. The pond is encroached by a taint of sewage, bringing the pond to life. The pond is covered with aquatic mosses, floating mats of duckweed, and a few invertebrates, including some small crustaceans and snails. The pond is teeming with life. Crinoids, corals and many other aquatic organisms are found in the pond.

Dummar: Hughes was crazy

LAUGHLIN, Nev. (UPI) — Melvin Dummar, who claims to be the distant third cousin of the late Howard Hughes, said Thursday he will file a lawsuit against the Hughes estate.

The case will be the latest addition to the multimillion-dollar Hughes estate battle. Hughes died in 1976 and left a $2.6 billion estate.

Dummar, who lived with Hughes in Hollywood and was on the payroll of Hughes' Stardust Hotel in Las Vegas, claims to have been a trusted assistant to Hughes during his last years. Dummar says he was in the room when Hughes died.

Dummar's lawyer, William F. Schrader, said Thursday the lawsuit is expected to be filed in Nevada in the next week.

Schmidt was 12 years old when his mother and her two children died in a fire. His father was out of town. The blaze started in the living room of the family's home in northwest Houston, Texas.

Schrader said he plans to file a lawsuit in Las Vegas on behalf of Dummar. The suit will seek to recover money that Schrader believes Dummar is owed for work he did for Hughes.

Schmidt, who was a member of the family's insurance company, said he plans to file a lawsuit in Las Vegas on behalf of Dummar. The suit will seek to recover money that Schrader believes Dummar is owed for work he did for Hughes.

Gov't sets coal-talks deadlines; two days to reach agreement

WASHINGTON (UPI) - Governors warn coal-striking miners, despite better conditions, that no walkout could occur in the next two days.

"I don't think we'll see a walkout, I don't think walkout is possible," West Virginia Gov. Arch A. Johnson told reporters in Charleston. "I think two days is a pretty short period of time for negotiations to break down."

West Virginia, Pennsylvania, Kentucky, Indiana, Ohio, Tennessee, West Virginia, Arizona and Montana have coal operators who are demanding a two-day deadline to reach an agreement.

In Pennsylvania, where strikes also have been reported, Pennsylvania Gov. Richard Thornburgh said, "I don't think we'll walk out in the next two days."

"If negotiations don't happen in the next two days, we are demanding a shutdown of the coal industry in Pennsylvania," added Thornburgh.

In Indiana, where coal operators demanded a two-day deadline to reach an agreement, Indiana Gov. Robert D. Orr said, "I think it's going to take a little longer than that."

"It's going to take a little longer than that. We're not going to walk off the job. We're not going to walk out."

"If negotiations don't happen in the next two days, we are demanding a shutdown of the coal industry in Indiana," added Orr.

In Ohio, where coal operators demanded a two-day deadline to reach an agreement, Ohio Gov. Richard Gordon said, "I don't think we'll walk out in the next two days."

"If negotiations don't happen in the next two days, we are demanding a shutdown of the coal industry in Ohio," added Gordon.

In Kentucky, where coal operators demanded a two-day deadline to reach an agreement, Kentucky Gov. John Y. Brown said, "I don't think we'll walk out in the next two days."

"If negotiations don't happen in the next two days, we are demanding a shutdown of the coal industry in Kentucky," added Brown.

In Arizona, where coal operators demanded a two-day deadline to reach an agreement, Arizona Gov. Bruce Babbitt said, "I don't think we'll walk out in the next two days."

"If negotiations don't happen in the next two days, we are demanding a shutdown of the coal industry in Arizona," added Babbitt.

In Montana, where coal operators demanded a two-day deadline to reach an agreement, Montana Gov. Leon W.楼上 said, "I don't think we'll walk out in the next two days."

"If negotiations don't happen in the next two days, we are demanding a shutdown of the coal industry in Montana," added Lynn.

In West Virginia, where coal operators demanded a two-day deadline to reach an agreement, West Virginia Gov. Arch A. Johnson said, "I don't think we'll walk out in the next two days."

"If negotiations don't happen in the next two days, we are demanding a shutdown of the coal industry in West Virginia," added Johnson.

The next meeting is scheduled for Monday in West Virginia. The meeting will be held in Charleston, the state capital.

The meetings come as the coal strike threatens to spread across the country, with miners in several states on strike.

The strike began in West Virginia in late December and quickly spread to other states, including Pennsylvania, Kentucky, Indiana, Ohio, Tennessee, West Virginia, Arizona and Montana.

In West Virginia, the strike involves several coal companies, including Consolidation Coal Co., Consolidation & Appalachian Coal Corp., and Consolidation & Appalachian Coal Co.

In Pennsylvania, the strike involves several coal companies, including Consolidation Coal Co., Consolidation & Appalachian Coal Corp., and Consolidation & Appalachian Coal Co.

In Kentucky, the strike involves several coal companies, including Consolidation Coal Co., Consolidation & Appalachian Coal Corp., and Consolidation & Appalachian Coal Co.

In Indiana, the strike involves several coal companies, including Consolidation Coal Co., Consolidation & Appalachian Coal Corp., and Consolidation & Appalachian Coal Co.

In Ohio, the strike involves several coal companies, including Consolidation Coal Co., Consolidation & Appalachian Coal Corp., and Consolidation & Appalachian Coal Co.

In Tennessee, the strike involves several coal companies, including Consolidation Coal Co., Consolidation & Appalachian Coal Corp., and Consolidation & Appalachian Coal Co.

When Koko Taylor stepped onto the stage at the Lounge Wednesday evening, she looked up curiously at the audience. The music blared from the speakers, and the audience waited expectantly. Taylor was just about to start singing, but she paused to look over at the audience. When she saw the excitement in their eyes, she broke into a smile and began singing her song, "I Put the Muffin on Us." Her voice was powerful and soulful, and the audience was captivated.

Taylor began with a soft, crooning vocal that built up to a powerful, bluesy delivery. The audience was on the edge of their seats, hanging on every note. They howled along with her, and the energy in the room was electric.

Taylor sang with a passion that was matched by the audience. They were singing along, clapping, and dancing in their seats. The energy was contagious, and the song "I Put the Muffin on Us" was a hit with the audience. They were clearly impressed, and the night made nearly everyone in the Lounge sing out from the top of their lungs.

Throughout her performance, Taylor demonstrated her skill and versatility as a singer. She moved from blues to soul to rock, and the audience followed along, enjoying every moment. Her voice was powerful and soulful, and she was clearly in her element.

The night ended with Taylor's hit song, "I Put the Muffin on Us." She bowed to the audience, who were still singing along, and they were left wanting more. Taylor is one of the few women singers who has made it big in the male-dominated world of blues music. She is a true talent, and her performance at the Lounge was a testament to her skill as a singer.
The dinosaur question: Warm- or cold-blooded?

WASHINGTON (UPI) - Dinosaurs haven't been on earth for 65 million years, but they are still the subject of a great deal of speculation. Mammals and birds, however, have been on earth far longer than that. Most living reptiles are warm-blooded, but half of the bird species and almost all of the mammal species are cold-blooded. This theory has been widely accepted, and many scientists say the public should keep it in mind when considering prehistoric animals.

"The issue is not settled," says the New York-based Natural History Museum's Dr. Edward Ekman. "There is a great deal of controversy in the scientific community over this issue." Ekman is the director of the museum's Research Laboratory, which includes a large collection of prehistoric animal bones.

Ekman said that the research on prehistoric animals has often been conducted by scientists who were not familiar with the field. "It's important to have a well-rounded view of the subject," he said. "It's important to take into account the work of scientists who are not as familiar with the field."
Hawks vacate cellar

Iowa edges Wildcats

As ROGER PURCELL Special to the Daily

It wasn't a prettiest game ever played in Carver-Hawkeye Arena, but the Iowa basketball team can't afford to lose a game like this. Thursday night's 71-66 victory over Northwestern was the Hawkeyes' fourth straight win, fourth in a row.

"There wasn't much offense in the first half, but we dominated the second," said Iowa's Mike Woodson.

"But when you've had your best guy in the game, you can't help but feel good. Mike had a great night, and that was the difference," said Northwestern's Jim Boeheim.

"We had a lot of energy on the offensive boards," said Woodson.

Hawkeyes guard Mike McGee led the Iowa charge with 20 points, while forward Matthew Olson contributed 18 points and 10 rebounds.

"It was a great night for us," said Olson.

"I was able to get into the game and contribute, and I'm happy with the outcome," added McGee.

Free throws to lift victory

Iowa entered the game ranked 14th in the country, but the Hawkeyes were scrappy as they clinched the victory.

"We're not a team that's going to give up easy," said Olson.

"We battled back from a 10-point deficit in the second half, and that's what our team is all about," added McGee.

The Hawkeyes outrebounded the Wildcats 42-34, with Olson grabbng 10 rebounds. Iowa shot 50% from the field and 75% from the charity stripe.

"Our defense was key to the victory," said Olson.

"We held Northwestern to just 40 points, and that's something we pride ourselves on," added McGee.

In observance of George Washington's Birthday, the museum will be closed on Monday, February 20, 1978. We will reopen at 9 am on Tuesday, February 21.

Baty leads Iowa in Big Ten meet

By JOHNNY WALKER

The Boilermakers and Wisconsin played to a 10-10 tie in the Big Ten meet on Friday night, after they launched a wild 10-9 sudden-death tie.

"I guess we were just trying to prove something," said the Boilermakers' Matt Baty.

"We wanted to show that we were a good enough team to compete with the best in the Big Ten," added Baty.

Baty led the Boilermakers with 10 points, while forward Steve McGee added 8 points.

"Matt and Steve are the heart of our team," said Coach Deb Woodside.

"They are both leaders and they always bring a lot of energy to the court," added Woodside.

The Boilermakers went on to win the meet with a score of 159-158, clinching a spot in the NCAA tournament.

"It's a great feeling," said Baty.

"We've been working hard all season to get to this point," added McGee.

The Boilermakers now have a 7-3 record in the Big Ten and are currently ranked 12th in the country.

"We're not done yet," said Baty.

"We have a lot of work to do, but we're confident we can make a run in the tournament."

Women cagers end at home Saturday

The Iowa women's basketball team scored a 25-point victory over the Hawkeyes Jan. 7 in Ames' Hilton College Gymnastics, Iowa State University.

Six more recruits sign

Coach Dan Gogarty signed six more recruits for next season, bringing the number to 12. The six were:

1. Anthony McCollum, a guard from Detroit, Michigan
2. John Johnson, a center from Chicago, Illinois
3. Mike Brown, a forward from St. Louis, Missouri
4. Mark Carter, a guard from Boston, Massachusetts
5. Tim Davis, a forward from Des Moines, Iowa
6. Tracy Land, a guard from Springfield, Missouri

Intramurals

If the intramural "Caucasian, the Whiz," really is a headliner, he should be on the cover of a yearbook. The 125-pounder from the South City YMCA, has a flair for the dramatic and a flair for the absurd. He is a member of the South City YMCA's "Caucasian, the Whiz," a team that has been the subject of much speculation this season. The team has been described as having "the best defense in the league," but many people are wondering whether they are really that good. It is difficult to say for sure, but the team has certainly been successful in their matches so far.

Intramurals make their final decision

The final decision for the Intramurals is expected to be made soon. The Intramurals have been a popular event for many years, and the decision on who will represent them in the future is eagerly awaited. The Intramurals are a group of athletes who compete in various sports, and the selection process is rigorous. The Intramurals have been known to attract some of the best athletes in the country, and the choice of who will represent them in the future will undoubtedly be a difficult one.
