No guts is good news

Governing is a tough business. The mayor of New York City is among the few who do it well. If you don't have enough guts, you don't have the guts to run for re-election. If you do have enough guts, you have the guts to run for re-election and win.

CIA subversion

How many initiations of "CIA revelation of the month" are we going to get? We've now had one a month for the last ten months. Yes, it's a good idea to get in front of the public and tell them all your dirty business, but don't expect any sympathy. It's not as if we didn't know these things already. And, of course, you can always blame the public for not being properly informed. It's all a matter of control, isn't it? The only people who are really interested in this stuff are those who support you. The rest of us are just noise.

Walljasper's slanted opinions. Speaking as an former athlete and an avid supporter of athletes, I think it's time for the UI to get its priorities straight. Last year the wrestling team was a joke, and now they're saying they're going to make a comeback? Bull. The only thing the wrestling team is good at is turning a profit. They don't care about the students; they care about the money. And the UI is just as bad as them. They're just trying to make a profit off of us.

Dissolutions

What theory of social change, the Big Deal or Theory of History and the Civil Rights Law. These are just empty words that are no better than the past. The people who are used to their privileges are the ones who are going to benefit from these changes. The UI should be proud of its wrestling squad; it's a great way to turn a profit. Remember, the UI is all about profit, not about us.

No big deal to me!

I received a mixing of words from Mr. O'Connell's letter (5/3). I don't want to begin the discussion of the writers' clinic with this, but I think it's important to acknowledge that the writers' clinic is a valuable resource for students. It's a place where they can get feedback on their work and develop their writing skills. I support Mr. O'Connell's effort to encourage people to submit their work to the writers' clinic. It's important to support the arts and give students the opportunity to get feedback on their work.

Who cares?

I think that the whole idea of homosexuality and the low wages being paid to homosexuals is a ridiculous notion. Most homosexuals are not interested in their sexuality; they just want to be able to work and earn a living like anyone else. Most of us are just like everyone else in terms of our interests and concerns. And I don't think that homosexuals should be discriminated against just because of their sexuality. Everyone should be treated fairly and equally, regardless of their sexual orientation.

Insult response

To The Editor: Yesterday's letter from Mr. O'Connell's letter (5/3) was quite offensive. I think it's important to remember that everyone has the right to express their opinions, and that we should respect everyone's right to speak their mind. However, I don't think that Mr. O'Connell's letter was respectful or constructive. It was just a personal attack on me and my sexual orientation. I think that it's important to treat everyone with respect, regardless of their sexual orientation.

GOP: It. governor hopes fulfills eye top spot

By JIM McFADDEN

Republican candidates for the lieutenant governorship are well aware of the possibility that the state's top legislative leader could resign to open a seat in 1980.

That would make the winner of this fall's election a virtual lock to succeed Woodrow W. Ray, who is not seeking renomination.

"It's a much more serious race than we thought it would be," said one Democratic candidate. "The three candidates are trying to impress the electorate with their qualifications.

Although the three candidates in the June 8 Republican primary are on the same page regarding tax reform, it's not clear how they would handle the following issues:

1. Education - a major issue in a state with a large college population.
2. Crime - a concern in a state with high crime rates.
3. Tax reform - a major issue in this state with high taxes.
4. Health care - a major issue in a state with an aging population.
5. Energy - a major issue in a state with high energy costs.

"It's a tough race," said one Democratic candidate. "The three candidates are trying to impress the electorate with their qualifications."
African guerrillas desert talks

The Red Brigades compile "hit list"

The Western powers and the guerrillas hoped for an agreement with SWAPO. SWAPO has been pressured into the list of the United Nations as a "proponent of terrorism" by the United States and the United Kingdom.

"We will continue to use our effort to this end," said David Brighty, spokesman of the British Ministry to the United States.

SWAPO said that because of both altruism and personal reasons, the present "hit list" might be considered as a "radical political" document. It was compiled under the leadership of Rene Diderit, the top guerrilla leader.

"We will continue to use our effort to this end," said David Brighty, spokesman of the British Ministry to the United States.

"The guerrillas leader left New York Monday and flew to the Western countries to meet with officials of the United Nations and other Western governments." The Western powers placed "Hit" targets on the lower level.

"We welcome SWAPO's attempt to use our efforts to this end," Brighty said.

In Washington, South African Government spokesmen asked the United States to "keep the bloody business quiet."

The Western powers have been negotiating with both the Indian and South African governments separately for the past four years in order to reach a plan acceptable to both sides, for U.N. approval and independence for Namibia.

The guerrilla leader said he hoped the guerrillas would sign a peace agreement in the near future.
Berkowitz enters guilty plea

NEW YORK (AP) - David Berkowitz, the maniacal serial killer known as Son of Sam, entered a guilty plea Monday to 10 charges for the 1977 deaths of New York City construction workers and their families, the first time he has faced a guilty verdict for the crimes.

Berkowitz, 57, pleaded guilty to four counts of first-degree murder, two counts of second-degree murder, two counts of manslaughter, one count of attempted murder and one count of criminal possession of a firearm. The plea comes after a two-year trial that ended in November.

Berkowitz had been convicted of seven counts of first-degree murder and one count of attempted murder in the 1977 slayings of six construction workers and their families in New York City. The trial was the first of its kind in the United States and set the stage for the modern-day criminal justice system.

The case began in 1977 when a series of unsolved murders of construction workers and their families were linked to a serial killer known as Son of Sam. The killer was eventually identified as David Berkowitz, a former postal worker, who had been living in the area at the time of the killings. Berkowitz was arrested in 1976 and has since been held in a state prison.

**Senate passes amateur sports bill**

WASHINGTON (UPI) — The Senate Tuesday passed a bill that would establish a national amateur sports federation to succeed the Olympic rings and the Amateur Athletic Union. The bill, which has been approved by both the House and Senate, would give the United States a way to compete in the Olympics and other international sports events.

**Yaz paces Red Sox**

BOSTON (UPI) — Carl Yastrzemski, the star of the Boston Red Sox, passed his 12th birthday in style, hitting a home run and leading off the game with a singles triple. Yastrzemski, who is batting .342, is the Sox’ leading hitter and has been named to the American League All-Star team.

**WHAT’S REALLY GETTING HIGH HERE IS THE COST OF HEALTH CARE.**

Nobody in the world over-indulges like we Americans do. We drink too much. We smoke too much. We work too hard. And we hardly ever relax or exercise enough.

Doing unhealthy things to ourselves.

We figure doctors and hospitals will fix us up in no time if we get sick.

But don’t figure it is how much behavior is costing all of us in rise of health care.

NATURALLY, high care costs not just the individual’s fault.

Inflation is also a big factor.

And so is the fact that health care is just plain better.

Unfortunately, high costs have driven many people away from medical care. The Senate has ended its session by passing a bill that will allow citizens to buy health insurance policies in other states. This could help to lower the costs for people in need of medical care.
