Briefly

Abortion funds cut

WASHINGTON (UPI) — Despite warnings that the abortion debate is not over, Senate Republicans, on Tuesday, reversed course and rejected additional grants totaling $3 million for abortion-related information, counseling and other services for women in danger of losing their unborn children.

The Senate voted, 79-18, to cut the funds to zero, ending in limbo a battle between the two houses of the law that lasted for six years.

Before the final vote, the House approved $15 million as an amendment by Rep. John Balmer, R-Oregon. Instead of voting down the amendment, the Senate voted to cut the funds to zero.

The House voted last week to cut $15 million from the HHS budget for that reason. The Senate cut down on the $15 million cut last week by bringing the House and Senate bills closer together.

No more quota dough

WASHINGTON (UPI) — A federal judge Monday acted to stop the U.S. Department of Transportation from using a quota system to fund school transportation.

The judge ordered the department to stop using the quota system, which was established to ensure that the transportation systems are impartial and do not discriminate against the students who use them.

Bell sued

NEW YORK (UPI) — The Socialist Workers Party and in Tuesday it would seek to have Attorney General Griff Grif. It is believed to be the second most populous country in the world, after China, with a population of more than 1.4 billion people.

Washington and New York City officials are investigating the incident of the couple who were hit by a car.

Lawyer Zedelma Good, who has represented hundreds of people against the transportation system, said the department’s action was a violation of the Constitution.

The lawsuit was filed by the New York City Department of Transportation, which oversees school transportation systems in the city.

The judge ordered the department to stop using the quota system, which was established to ensure that the transportation systems are impartial and do not discriminate against the students who use them.

A resolution in "sanitarily" bought states that have not passed the Equal Rights Amendment, to be submitted to the U.S. Congress, is identical to a stand taken by the Supreme Court in the case of the Equal Rights Amendment.

It states: "We hereby resolve that the Equal Rights Amendment should be made the subject of a constitutional amendment to the United States Constitution to become effective when the requisite number of states have ratified it."

Student workers suffer summer slump

by KELLY ROBERTS
April 20

Although student employment programs vary among colleges, one detail remains the same: the end of the academic year means the end of many student jobs.

The UI's student employment office, under the direction of Howard Bowers, said the number of student employees has decreased since the end of the semester even more than usual due to the end of the academic year. Howard said the number of student employees had dropped by about 50 students during the spring semester.

Linn said about 300 UI students work for the college during the high school year. However, the number of college students who work outside the college has dropped since the high school year.

The result of this is that UI student employees work as maintenance people, carpenters, secretaries, teachers, and caterers. UI employs about 30,000 student employees during the high school year, and this number will drop to about 25,000 during the summer months.

The end of the academic year means the end of about 500 UI student employees, Howard said. Bowers said UI students are employed through the National Collegiate Employment Program, which provides funds for student employment through the UI's cooperative education program.

King associate criticizes movement

King associate criticizes movement

The civil rights movement had an ounce of emotion, said King associate Reddick, a close friend of Martin Luther King Jr. Reddick said the 1960's, led by Dr. Martin Luther King Jr., adhered to six national and international organizations.

“We have to be able to lead a nonviolent movement that's and is going to be successful from the inside out,” Reddick, 26, said.

Reddick said the 1960's were the era of the “angry young man” movement.

Readers decry clinic fire-bombing

To the Editor:

I couldn't help but hear an empty sneer when I read the reply of Ms. Midge Desautel (Letters, March 20) to the letter by me, as published in the March 13 issue.

I have never been less sure of my position in a debate than when I am forced to respond to someone who has obviously read an article or letter that I have written, and has then skillfully avoided the real issues at hand to try to change the subject.

Ms. Desautel's statement that she isn't sure whether I actually believe in human rights doesn't ring true. I have never been more sure of my position than when I am forced to defend my beliefs against someone who has chosen to ignore the facts.

I am writing this letter in response to Ms. Desautel's letter, not to change her mind, but to share my perspective on the issues at hand.

Sincerely,

[Your Name]

TUFT OF WAR TROJAN LOSSES

HARDEE, C. (Capt.) - In a recent practice match against the Tropicans, 100 yards, 315 pies, and 1500 pies, Capt. Hardee was injured in the shoulder, but rejoined the game after 10 minutes. The Tropicans led by try in each period.

GUILD STRIKES ‘NEWS’

NEW YORK (AP) - Some LNR reporters, editors and clerical employees struck at the New York Times this morning, seeking recognition of their union status.

The union's pickets set up barriers at the morning edition. The Times, in a contract signed, the union's largest newspaper in the nation.

The strike was called over the issue of recognition of the union's status. The Times has long been friendly with the union and has indicated it will recognize the union.

DOONERS by Garry Trudescu

“I want to be a newspaper reporter, but I also want to be a doctor.”

This is a question that many journalism students are faced with. However, for some, the decision is not so straightforward.

The desire to be a doctor is not uncommon among journalists. It is a profession that requires a great deal of dedication and hard work.

The decision to pursue a career in journalism is often a difficult one. It is a profession that requires a great deal of dedication and hard work. However, for some, the decision is not so straightforward.

Baltimore extends win streak to 15 games

Baltimore Orioles manager Earl Weaver said Wednesday that the Orioles' 15-game winning streak will continue to at least 19 games with a 4-3 victory over the Detroit Tigers.

"I don't know how long it'll last," Weaver said. "I don't know how far we can go. I don't know how far I want to go."

The Orioles are fighting for first place in the American League East, and the 15-game streak has been a central theme of the season.

"I think we've been playing good baseball," Weaver said. "We're playing good defense, hitting the ball well and pitching well."

The streak began on May 31, when the Orioles defeated the Boston Red Sox 5-3 in a game that decided the American League East title.

"I think we're playing good baseball," Weaver said. "We're playing good defense, hitting the ball well and pitching well."
