Tryout on Pope's life is thwarted

Patria, Portugal (UPI) - A tryout on Pope John Paul II's life was dropped when a man in Portugal distinguished himself on the stage. The man, a student at the University of Porto, had been chosen to play the role of the Pope in a tryout for a film of the Pope's life. The man, named Carlos, had been selected because he looked and spoke like the Pope. Carlos had been rehearsing for the role for several weeks, and had been highly regarded by the film's producers. However, during the tryout, Carlos suddenly collapsed on stage and died. The producers were shocked and had to cancel the tryout. The death of Carlos was a blow to the film's producers, who had been hoping to make a blockbuster movie about the Pope's life.
Food bank: neighborly help in response to local hunger

By Scott Berner

Hunger is a basic element of life that everybody makes a right to eat, says Patricia Gillmor, director of the Iowa City Community Food Pantry.

"If people don't have enough food to eat, it's a difficult way to live," Gillmor said. "But it's never a difficult task, especially when people are willing to help."

The Pork Chop Club, a group of Iowa City teachers, is organizing a neighborhood food drive this Saturday to help feed the hungry in the community.

"We want to do everything we can to help people," said Gillmor, who is the only employee at the food pantry. "And I think it's important for us to get involved and to do something about it."

The Pork Chop Club will be collecting non-perishable food items, such as canned goods, pasta, and cereal, from 8 a.m. to 11 p.m.

The group is also seeking volunteers to help sort and package the food. Anyone interested in helping can contact Gillmor at 558-2388.

Health center owner granted 30 days to respond to lawsuit

By Jennifer Marra-Rehiggen

The owner of the Community Health Center, John W. Foster, was granted a 30-day deadline to respond to a lawsuit filed by a former employee.

The suit, filed in Clinton County District Court, alleges that Foster and his wife, Debby Foster, discriminated against the former employee and violated her civil rights.

"I'm not sure what the outcome will be," said Foster. "But I'm confident that we will be able to resolve the issue.

"The health center is a vital part of the community and we want to make sure that it continues to operate.

The center provides primary care services to more than 1,000 patients each year.

Correction

The following correction was issued for an article in the May 1 edition of The Daily Iowan:

In the article "What lies behind the hunger crisis," the author stated that the hunger crisis is caused by the high cost of food. This statement is incorrect.

The correct statement is: "The hunger crisis is caused by the high cost of food, but also by a lack of access to food for many people."

**No-till**

No-till crops are one of the few low resource solutions with which I’m satisfied. Between enhanced crop yields, reduced erosion, and energy savings, it makes sense to explore this method on a larger scale.

**Hurt**

Hurt has played the form in the last few years and she’s in good form for one over the year. They songs are excellent and every different. Always a good feeling to hear them.

**Dropouts**

Dropouts are a serious problem in the United States. School attendance is required by law in many states, and efforts are being made to increase attendance rates. The causes of dropout include poverty, lack of motivation, and poor quality education. It is important to address these issues to improve educational outcomes.

**Two students receive King award**

Two students from the King Elementary School were recently honored with the King Award for their exceptional performance in academics and leadership. The King Award is given annually to students who demonstrate excellence in these areas.

Movies on campus

The Foundation Night out, while setting your own pace and having fun, is embracing an evening with the Iowa Art Museum and the Cedar Rapids Art Center. The theme of the evening is to celebrate "visual museums". We've added works from the exhibition to the students of the UI. This has been given the status of "equal representation" to artists showing at the NMAA. The exhibition is titled "The Iowa Population - Divided the Country into Equal Sections". Only a few have exhibited his work at the Cedar Rapids Art Center, a mount of which is UI in the Pig. Only a few have exhibited his work at the Cedar Rapids Art Center, a mount of which is UI in the Pig. The exhibition consists of paintings, sculptures, and photographs. The students of the UI School of Art have contributed to this event. The exhibition consists of paintings, sculptures, and photographs. Women's gymn team signs 3 recruits

By Steve Hatten

News

Women's Gymnastics Coach Danie Chapell is completing what he terms her most successful recruiting year.

"We have some very talented gymnasts coming this year," he said. "This has been our best recruiting year ever. We will be performing at our highest capacity next season. The team should be the strongest team the Iowa Gymnastics Program ever had.

In addition, returning the top two all-arounders from the previous season was a problem due to injuries. Coach Chapell has signed three all-arounders to make up for those losses and to fill the void created by the absence of a great number of seniors.

ME: The Iowa Women's Gymnastics Program near the top of the Big Ten. Our capabilities next season, the team will be stronger than ever. Markov, from Tallahassee, Fla., is the recruit we need to fill the void created by the absence of a great number of seniors.

We also signed to the Big Ten. Our capabilities next season, the team will be stronger than ever. I have been a great recruiting year.
