SALVADOR, El Salvador—Napoleon Duarte, who is facing the pivotal election for the presidency of his impoverished nation, remains confident about his chances of winning. He is expected to win due to the discontent of the electorate with the current government, an official said. The poll indicates that Duarte, the son of a former president, is leading in the polls, with significant support from the urban and rural segments of the population. The official noted that Duarte's campaign has been characterized by a strong emphasis on social issues and economic development, which resonate with the concerns of the electorate.

Rebels demand exchange from Duarte

SAN SALVADOR, El Salvador—The rebels of the Farabundo Martí Patriotic Front have rejected attempts to negotiate a peace agreement. They demand the unconditional release of all political prisoners, including their leader, Manuel Zelaya. The government has proposed a limited release of political prisoners, but the rebels have refused, insisting on the release of all prisoners, including those held for political reasons.

Smith makes bid for city council seat

IOWA CITY—A proposal prohibiting nuclear weapons on city property was adopted at the Iowa City Council meeting Tuesday night, despite the opposition of some council members.

The proposal, introduced by city attorney John Szymanski, was adopted unanimously. It prohibits the possession, manufacture, or use of nuclear weapons on city property.

Mayor Jim Nygren said the proposal was adopted because of the national debate on nuclear weapons and the desire to ensure the safety of the city's residents.

The proposal was adopted after a heated discussion, with some council members expressing concerns about the potential impact on the city's economy and the freedom of speech. However, the majority of council members supported the proposal, citing the importance of maintaining public safety and the city's commitment to non-proliferation.

The proposal will now go before the Iowa City electorate for a vote in the upcoming election.

Reagan: Star Wars a necessity

WASHINGTON, D.C.—President Reagan said on Tuesday that the Strategic Defense Initiative (SDI), commonly known as the Star Wars program, is necessary to ensure the safety of the American people.

"The Star Wars program is the most important aspect of our national defense," Reagan said in a televised address from the White House.

Reagan noted that the Soviet Union has been making significant investments in its own missile defense systems, and the United States must respond to maintain a strategic balance.

Reagan emphasized that the Star Wars program is a defensive measure, designed to protect against a limited attack, and not a means of deploying an offensive weapon.

Reagan also called for increased funding for defense research and development, and for the creation of a new Department of Space and Defense.

Despite criticism from some quarters, Reagan said the Star Wars program is essential to the survival of the United States.

"We cannot afford to be caught off guard," Reagan said. "We must have the means to protect ourselves, and the Star Wars program is the key to that protection."
Vehicles vandalized at local inn

By John Davis

Iowa City police received four reports of vandalism at the Yellow Rose Motel, 700 Pennsylvania Ave., last week. The motel, which is on a main thoroughfare through downtown, reported that its motel entrance, lobby and rooms were defaced. The motel lost $3,500 in business because of the vandalism.

Police

The motel is open today as usual. The motel manager said that the motel is a popular location for tourists and that the vandalism has affected the business.

UI Golden Girl is smallest in Miss America pageant

Laurette Riederick, a UI senior and baton twirler for the UI Marching Band, was one of 10 finalists in the Miss America Beauty Pageant Saturday night in Atlantic City, N.J.

Riederick, 21, is the shortest of the contestants and is 5 feet 4 inches tall, according to UI officials. She is also the only Iowa contestant in the pageant.

Officials release names of local missing youths

Two area youths reported missing last week the Iowa Department of Public Safety have not been heard from since then.

David S. Smith, 14, was reported missing by his parents in the upperHiawatha area. Smith was last seen going into his room for some clothes on Sept. 9, according to court records.

The Iowa State Patrol is investigating the disappearance of Smith, who is described as a white male, 5 feet 9 inches tall and weighing 120 pounds. He was last seen wearing a blue shirt and blue jeans.

An Iowa City man was charged with indecent contact with a minor.

Briefly

Krugerrands to be banned

WASHINGTON – A Senate trade subcommittee on Tuesday said that the nation's record trade deficit, a $200 billion trade surplus with Japan, and the inclusion of a large volume of Japanese imports. A subcommittee source said that the telecommunications bill may be approved this week. A package may also be part of a bigger trade package that will include the services bill, the telecommunications bill, and the fast food trade package. The package may also include tax cuts, but the source said that the tax cuts may be part of a bigger trade package that will include the services bill, the telecommunications bill, and the fast food trade package.

Americans are highest paid

NEW YORK – Americans are the highest paid in the world, according to a new survey. The average American earner is paid $52,000 a year, compared to $28,000 for a typical French worker, $22,000 for a typical German worker, and $20,000 for a typical Japanese worker. The survey was conducted by the Organization for Economic Co-operation and Development, a group of wealthy nations.

The report, which was released Tuesday, said that the United States has the highest paid in the world, with an average of $52,000 a year. The average French worker earns $28,000 a year, the German worker earns $22,000 a year, and the Japanese worker earns $20,000 a year. The survey was conducted by the Organization for Economic Co-operation and Development, a group of wealthy nations.

It's a question of excellence: we're not as good as we would be if we had appropriate facilities," says College of Business Dean George Daly.

"We're really in need of some ventilation practices. In teaching and research laboratories where volatile, toxic chemicals are used, they're a necessary source of disruptions," said Davis. "Over the last six month periods things have been bad, about as bad as they could get. We can't have it much worse."

Mr. Davis said that the building does not fall under the jurisdiction of safety laws that regulate industry and other areas where chemicals are used."The professors are very concerned that they are working in laboratories that don't meet national standards," said Davis. "We have a very young and very strong faculty and I'm not as sure they'll stay with us if conditions don't change.

UI Director of State Relations Frank Dick said that the state Board of Regents will probably submit approximately the same outline requests to the Legislature for bonding this fall as Branstad vetoed in June.

These requests included $4.2 million for Iowa State University and $1 million to study the possibility of construction of a new UI College of Business building.

"Their need is urgent," said College of Business Dean George Daly.

Daly explained that the expanding use of computers in business education and increasing enrollments have created more space for the college.

Some faculty and graduate students are demanding more space for the college.

"It's a question of necessity, we are not as good as we would be if we had appropriate facilities," College of Engineering Dean Robert Herwig said, and the need to modernize the college's facilities is a "continuous severe need which needs to be addressed."

"It's difficult to predict," he added. "It's going to be tough unless the state has more revenue coming in."

WHEN WAS THE LAST TIME YOU GOT IT?

That feeling from being able to help others. We at Student Government Service/Muscular Dystrophy Association are looking for students who are interested in community service projects, and particularly the MD Dance Marathon. We have several positions open on the executive council for the '85-'86 year. If your type of person who likes to help others, we want you. An informational meeting will be held:

UI Student Senate supports U.S. diplomatic break with S. Africa

By Robert Hayes
Staff Writer

The UI Student Senate overwhelmingly passed a resolution Monday calling on the United Nations to consider recognition of the state of South Africa as a threat to world peace.

The 39-1 vote came after a debate that lasted about an hour. The motion was introduced by Sen. Craig Perrin, who was the presenter for the resolution. He said, "If I can get this thing off our plate, then we know we support it."

Sen. Jennifer Gyure, one of only three senators who opposed the resolution, cited concerns about the political activities of the Student Senate. "I believe that thisellow student body," she said, "and I believe this student body feels that we are already tapped to the max."

Supporters plead for Superfund

By Lisa Kolling
Special to The Daily Iowan

Attemping to draw national attention to the need to support Superfund, UI students have spent an event in Cedar Rapids Tuesday to call attention to the long area of people there who are sick because of toxic sites.

Marc Goodstein, basic program coordinator for the National Campaign Against Toxic Waste, said the event was held in Cedar Rapids to keep pressure on Congress to pass a new Superfund bill.

Smith good report between the city and the UI

The current council final report on further means of communication is a good report because it's informative, it's readable, and it's very supportive of the city and the university, said Smith.

But Smith said there is still need for "more cooperation between the city and the university." He also added that the current report is a good example of how the city and university can work together in areas like law enforcement and university-sponsored activities.

COUNCIL

The council met Monday in the council chambers in the UI Administration Building.

Council members approved an agenda for the meeting and addressed a temporary change in their meeting time. The council met at 6 p.m. rather than at 7 p.m. because of the time commitments of the council members.

The council also approved a resolution to support the UI Students for Social and Environmental Justice.

The council discussed issues related to the UI Student Senate's resolution to support the U.S. diplomatic break with South Africa.

Freedman: Faculty’s key to endowment

By Earle Johnson III

Staff Writer

The UI will not be able to attract support from private donors unless it is able to maintain its "already strong programs," said University President J. Franklin "Jack" Freedman during his address at the annual faculty meeting Tuesday. "We must enroll more National Merit Scholars, more class valedictorians and salutatorians, more..." said Freedman. "In many cases the students we want here need...are now choosing instead to enter some of the most highly selective colleges and universities in the country," Freedman added. A former university admittee, Freedman emphasized the relationship between the quality of the university and its effectiveness in attracting support from private donors.

AFTER A CROSS-COUNTRY country in recent months visiting potential donors to the $600 million Iowa Endowment 2000 campaign, the UI president said he has learned that private interests are not interested in support. "In a period of intensified competition for scarce financial resources, it is essential that we..." said Freedman. "In order to become effective..." the scholar’s identity, he explained, "We must communicate the tradition and excellence of the UI in order to attract support..." Freedman urged UI faculty members — nearly three-fifths of whom are tenured — to write letters of support for potential donors. "If and when students find the..." the essential facet of professional ideals, he added. The UI must continue to support the tradition of teaching and to support granting of tenure to junior faculty members as rigorously as we can make them."...

Academic invasion

I don't see why people are making such a fuss about it. Complained Dr. Philosopher Nicolaio Danglo last week, "It's not like they're going to give me a quarter billion to do this."

But, if it appears Danglo holds a similiar view of the politically prestigious project of which he is a part. The "Academic invasion," trademark of something that is being initiated by the president of the country," he added, "is something that is going to be a big one. I've heard that the politicians are going to be so happy that they're going to be able to sprinkle a few dollars around."

To read this in full, please visit the University Professor B. D. Danglo website for the full article.

Reflections of an Iowan in D.C.

The most important thing I've learned about the Presidency is that it's a lot of hard work. I mean, just look at how much time the president spends on official business. It's not just about making decisions. It's about meeting with other leaders, participating in international summits, and dealing with complex issues. It's a job that requires a lot of attention to detail and a strong ability to think outside the box.

There are some things that I wish I could do differently. For example, I wish I could have spent more time on the campaign trail, rather than on the golf course. But, in the end, I think I did a pretty good job. I mean, I won the election, didn't I? And I think I'm leaving the country in a better place than I found it.

The hardest part of being a president is dealing with the media. They're always asking questions, and it's hard to know what to say. But, I think I did a pretty good job of handling the press. I mean, I had some tough questions to answer, but I think I handled them well.

In the end, being a president is a job that requires a lot of dedication and hard work. But, I think I did a pretty good job. I mean, I won the election, didn't I? And I think I'm leaving the country in a better place than I found it.

Warren G. Harding

Absurd conservatism

Ronald Reagan is the least conservative president in U.S. history.

A Jeff Klein?

Absurd conservatism

Aberrant behavior is a form of mental illness that causes individuals to engage in irrational or self-destructive behavior. It is characterized by a lack of understanding of social norms and a failure to conform to societal expectations. The behavior is often motivated by a desire for attention or a need for validation.

A John Murrow?

There are some things that I wish I could do differently. For example, I wish I could have spent more time on the campaign trail, rather than on the golf course. But, in the end, I think I did a pretty good job. I mean, I won the election, didn't I? And I think I'm leaving the country in a better place than I found it.

The hardest part of being a president is dealing with the media. They're always asking questions, and it's hard to know what to say. But, I think I did a pretty good job of handling the press. I mean, I had some tough questions to answer, but I think I handled them well.

In the end, being a president is a job that requires a lot of dedication and hard work. But, I think I did a pretty good job. I mean, I won the election, didn't I? And I think I'm leaving the country in a better place than I found it.

Warren G. Harding

Reflections of an Iowan in D.C.

The most important thing I've learned about the Presidency is that it's a lot of hard work. I mean, just look at how much time the president spends on official business. It's not just about making decisions. It's about meeting with other leaders, participating in international summits, and dealing with complex issues. It's a job that requires a lot of attention to detail and a strong ability to think outside the box.

**Aztec Classic to challenge Hawkeye talent**

By Steve Williams

Auburn will be facing its toughest competition of the year when it travels to San Diego, Calif., Wednesday for the Aztec Classic.

**By Jill Hawk**

There will be two distinct differences between Iowa and their three top opponents — Massachusetts, New Hampshire and Connecticut — this weekend.

**By Bo Hawk**

There are four key players for the Hawkeyes this past season.

The two goalies rely on very different styles to improve team's fortune.

McKinnon is a top receiver by making it the hard way

Hawkeyes

By MARY LOU GLESTON

McKinnon is now the wide receiver's wishbone.

Iowa 7:01

Lake Forest, III. (UP) — The Iowa 7:01.

Dave Olbright, 1,000-yard rusher, has the wishbone. He had to work his way to get it. He worked on it. He worked it. He worked for years.

Olbright led the nation in rushing last year, and he's leading the nation in rushing this year. He's a very organized man.

He's a very organized man. 

He's a very organized man. 

He's a very organized man. 

He's a very organized man. 

He's a very organized man. 

He's a very organized man. 

He's a very organized man. 

He's a very organized man.
Hogg writes in defense of Top 40

Allen Hogg

Teen student stations like KRUI or WMTI agree with the choices of music played, so why should every student have to cough up a chunk of money for it?

DON'T GET ME WRONG: I personally think the money would buy KRUI and WMTI things they need. I'm just saying: I've never seen any station on the KRUI or WMTI scenes doing the things "Test Pressing" show with former KRUI Disc Jockey Mike Falconer all last year. I think the station is indeed what its new digs entail it to be - a sound and appreciable response to a need for good music that can't be heard on any other stations in the area. I do see expansion to some interesting radio personalities, it does broadcast news, sports and entertainment events that cannot be heard elsewhere. In short, it is the perfect place to hear when all other stations are playing paper.

But KRUI is not, however, what Devon Hill and the Campus Review's current backing station are funded by mandatory student fees so despised when given to KRUI by a group other than the student body. KRUI, which is limited by what its medium and an important social force, thus does not have to attract listeners, cannot, therefore, can, politically-aware performers as John Mellencamp and R.E.M. (which, as bass player Mike Mills told me in an interview this spring, has no message or meaning of its fleeting moments) continue to turn music on a case of Iowa conservative status in the national pulse and psyche. The times it oversteps the bounds of commerce radio and the political content in the musical it plays persists in increasing.

AGAIN TO QUOTE from March's book, this time in the words of the critic himself in a chapter entitled "I Heard It Through the Radios":

"The right is now attempting to make the society a homogenized land, where dawn is always the same, where the only important news is the national business is conducted. By helping to piss off and brokenhearted into the spotlight, the right is now attempting to make the society a homogenized land, where dawn is always the same, where the only important news is the national business is conducted. By helping to piss off and brokenhearted into the spotlight, the right is now attempting to make the society a homogenized land, where dawn is always the same, where the only important news is the national business is conducted.

I think in fact, it's Top 40's potential in a social force that reveals the real reason a conservative newspaper favors a small, modern, multipurpose radio station like KRUI and KINZ, that represents the social force in all of us. Top 40 could be the true leftist behind the Campus Review's recent backing of foreign groups and American outfit like R.E.M. (which, as bass player Mike Mills told me in an interview this spring, has no message or meaning or its fleeting moments) continue to turn music on a case of Iowa conservative status in the national pulse and psyche, politically-aware performers as John Mellencamp and Cyndi Lauper. Perhaps the Campus Review is afraid of Top 40's power.

Top 40 is a conservative newspaper, but Top 40's power is conservative newspaper. Top 40 is a conservative newspaper, but Top 40's power is conservative newspaper. Top 40 is a conservative newspaper, but Top 40's power is conservative newspaper. Top 40 is a conservative newspaper, but Top 40's power is conservative newspaper. Top 40 is a conservative newspaper, but Top 40's power is conservative newspaper. Top 40 is a conservative newspaper, but Top 40's power is conservative newspaper. Top 40 is a conservative newspaper, but Top 40's power is conservative newspaper. Top 40 is a conservative newspaper, but Top 40's power is conservative newspaper. Top 40 is a conservative newspaper, but Top 40's power is conservative newspaper.

I think in fact, it's Top 40's potential in a social force that reveals the real reason a conservative newspaper favors a small, modern, multipurpose radio station like KRUI and KINZ, that represents the social force in all of us. Top 40 could be the true leftist behind the Campus Review's recent backing of foreign groups and American outfit like R.E.M. Iowa: about her. "Benito, stay away from that Nazi, come on over and let's fool good dictator and stay at home with me and kick again world there is my mistress. But I can live with that. I can even live with them, trouble you the i' that's otherwise known as and that good-for-nothing husband of hers. sleazy tramp, that good-for-notbing tart. Be a yakety-yak: "Benito, you've got to help me let him handle that nebbish Hitler constantly going yakety-yak! Trust me, in the long run, it's better to Sot. Don't... TAIL "Dilly 8:30 and that devastates their homeland, they turn their backs on me, my beloved fascist ideals remembering who got the trains to and my inspired leadership."

Besides, I've got problems of my own. First, there are all those allied troops getting ready to go down my neck. Well, I can take that, you know. But I can't take the fact that subtlet Hitler constantly goes yakety-yak! Where are you, Benito? You've got to help me win this war. Benito, you've got to help me win over world. Benito, this Benito, that was a what The Whole World that. But I can't take that, you know. But I can't take that, you know. I've got problems of my own, and that good-for-nothing husband of hers."

Besides, I've got problems of my own. First, there is my mistress. "Benito, I love you. Ben, I love you. Ben. I love you. But I can't take that, you know. But I can't take that, you know. I've got problems of my own. I've got problems of my own."

And that's the reason why the Three Stooges gave a more flattering description of Mussolini. But even that wasn't enough to make him happy. He was still unhappy with his life in the Italian film industry.

The film is supposed to be historically accurate. But even that doesn't matter. In the end, the story is about love and betrayal and the family relationship. But in that enough "Mussolini" the music I have in back, the destruction of his own family is "The Decline and Fall of Duce."

**The Great Moments Are Yours**

Dr. Harry Wolfe is an eccentric genius. And with the help of his loyal assistant, he's cluing in one of the greatest discoveries of all time. All that's standing in their way is...

It's probably illegal, potentially dangerous, and definitely crazy.
SINCE IT was first practiced in the early 1950s, "free jazz" has never been able to come to terms with its own identity. While its pioneers were able to make music with an almost infinite freedom of form, their original aim of creating a new language for jazz was often overshadowed by the problem of当即特sergent during the war. The free jazz approach of composition and arrangement came to be labeled as an individualistic approach. Coleman Hawkins, who has been a major influence on the development of jazz, to some extent, was responsible for this approach. He has been able to make his own music and end substance of an entirely new genre of music.

Gleason's Blue Notes have been extremely successful since the last few years. The Art Ensemble of Chicago, which will be playing at the University of Iowa on Friday, has blended spiritual improvisation with a solid compositional foundation and liberal use of a wide range of musical instruments and other objects in order to create music with a clear musical identity.

HANCHER
Kennedy Center orchestra walks off job over wages

WASHINGTON (UPI) - Musicians at the Kennedy Center have walked off the job over wages not just for Tuesday's performances, but for an entire week, police said today.

The 46 members of the Kennedy Center's orchestra are in the third week of a strike that began when they refused to return, citing promises by management that it would not open until they agreed to a new contract.

The orchestra plays for the Kennedy Center's opera, ballets and musicals, said the police, who said they were making the announcement because the musicians were not returning.

The police said the orchestra had been given an ultimatum by management to return to work by today or face a lockout.

The orchestra is demanding a 20 percent increase in wages and a one-time bonus of $5,000 for each musician.

The Kennedy Center has offered a 10 percent increase and a one-time bonus of $3,000.

The police said they were not sure whether the musicians would return by the deadline.

The Kennedy Center, which is located on the National Mall, is one of the nation's premier performing arts venues.

The center, which opened in 1971, has been closed since last week due to the strike.

The police said they were monitoring the situation and would provide updates as needed.
