Inside

Health plan won't cut deficit as expected

Christopher Connell
Associated Press

WASHINGTON - President Clinton's health reform proposals will fail to trim $10 billion in federal spending in fiscal 1994, the nonpartisan Congressional Budget Office said Tuesday.

Clinton has argued that without a sharp cut in health inflation, the federal deficit would spiral out of control in the '90s. But his administration had hoped to achieve significant deficit reduction before

ratcheting taxes any more for health reform.

In the original Clinton budget, baseline projections had assumed that the Medicaid program would have lowered the deficit by $10 billion in fiscal 1994.

Budget director Leon Panetta said the deficit reduction figure was off by $8 billion. In addition, the latest version of the plan had been modified "in response to the deadline to guarantee coverage for all Americans and legal residents. Panetta said the administration expects 15 percent of all Americans to be dropped from the original plan. One reason for the lower deficit reduction was that the proposal doesn't offer a patient surrender to the triumph of subsidies to help small businesses and individuals afford health care.

See HEALTH PLAN, Page 1.
Most American citizens are so used to the idea of being connected to a phone that the thought of being cut off is odd that AT&T decided to call its service "collect calling." she said. "It's a hassle to try it, so they're not using it.

The Guggenheim Museum's Boba felony for the next 14 days is exhibiting examples of virtual reality. Visitors don headsets and gloves to enter computer-generated worlds where the rules of physics change, and their senses and movements cannot be touched. Virtual reality has been around for years, but the Guggenheim's exhibition is one of the most advanced in the world.

The exhibit opens on a new field in the world of art - virtual reality. The museum's interest in VR was sparked by contemporary artist, Dennis Ramsay, who has created virtual landscapes and electronic soundscapes.

Ramsay developed two programs for the exhibit "A Walk in the Stars" inspired by the artist's former Tuscany. The participant wanders through an abandoned virtual village. When the person walks into a building or house, the waves of a virtual reality wash over him.

"That's also about the one of the most important things about virtual reality," she said. "It's a way to have a sense of presence in a world that doesn't exist.

The exhibit serves as an overview for tools that are available for people who want to explore and interact with virtual environments. It's also a way to get a sense of what the future holds for virtual reality.

"We need to raise awareness of virtual reality," she said. "And we need to make sure that the public can understand what it is and how it can be used.

The exhibit is open to the public through the end of April and is located in the Guggenheim's fourth floor. It's free to attend.
Residents asked to contribute to City Park restoration fund

Heather Fierst

City residents will be asked to send a letter with their name and mailing address to City Parks and Recreation Director Creston Courter requesting a press conference that the city will host to announce the need for $150,000 in a special needs fund.

"We hope to raise funds from the private and corporate sector because the city budget is pitched from other revenue problems like sewer rates," Courter said. Contributions will be applied for in the city’s fiscal year, but the city is confident in raising $150,000 for the restorations. The city has already received $15,000 from the Community Foundation.

Firm hired to help L.C. wastewater facility meet regulations

Heather Pizel

The Daily Iowan

A consulting firm will be designing improvements to the city’s wastewater facilities to satisfy the ammonia removal requirements of regulatory agencies.

The Iowa City City Council will meet today to hire Stanley Consultants of Muscatine to provide the services, which will require an interceptor sewer line between the two wastewater plants and a pilot study is testing the facilities to satisfy the ammonia removal improvements.

The History of the Citibank Classic Visa card and the Age of Credit

Card Security. In the 67th year of the 20th Century A.D., Citibank introduced a credit card aptly titled the Citibank Classic Visa® card. Established on the premise that a credit card should offer—24 hours a day—warm, personal service, the Citibank Classic Visa card marked the end of the Ice Age. And it ushered in a new era. With the introduction of the first Photocard, the credit card bearing one's own photo and signature on the front, it soon became evident that Man was entering the Post Paleolithic Period. First, Man was no longer looking like a Neanderthal, as one often does on more primitive cards such as the Student ID. He or she could now choose his or her own photo. Second, by deterring other anthropoids from using the card, Man was helping to prevent fraud. Surely this was a sign of advanced intelligence. The subsequent rise of services was nothing less than an American Revolution. So as you might expect, Citibank would be there for you, if even your card was stolen, or perhaps lost. The Lost Wallet℠ Service could have a new card in your hands usually within 24 hours. (You can almost hear Paul Revere crying, “The card is coming! The card is coming!”) When the Great Student Depression came along, Citibank introduced New Deals—special student discounts and savings. Hence, today's student can enjoy a $20 Airfare Discount for domestic flights (ushering in the Jet Age); savings on mail order purchases, sports equipment, magazines and music; a low variable interest rate of 15.4%; and, no annual fee. Finally, comes the day you enter the Classical Age (i.e. when you charge your purchases on the Citibank Classic card). You receive Citibank Price Protection to assure you of the best prices. Just see the same item advertised in print for less, within 60 days, and Citibank will refund the difference up to $150. You receive Buyers Security®, to cover those purchases against accidental damage, fire or theft, for 90 days from the date of purchase. And Citibank Lifetime Warranty®, to extend the expected service life of eligible products up to 12 years! Together they give you complete coverage; and with everything else—the Age of Credit Card Security. It's credit history in the making. With the help of Citibank's services and savings, you earn some of the credentials needed later on to purchase a car or even a house. So call to apply. Students don't need a job or a cosigner. Call, also, if you'd like your photo added to your regular Citibank Classic Visa card. The number is 1-800-CITIBANK (1-800-248-4226), extension 19. If after reading this chapter describing the prosperous conditions set forth by a Citibank Classic Visa card, one feels that he or she has left forever the Dark Ages and has entered upon a new age, the Age of Enlightenment, then your time, as they say, has come. Destiny is calling. And so should you.

Monarch Notes® Version:

With the Citibank Classic Visa card, you can build a credit history before you reach your middle ages. And, receive special student discounts. Call today 1-800-CITIBANK (1-800-248-4226), extension 19.

Not just Visa. Citibank Visa.

Offer expires 12/31/93. Minimum initial purchase price is $50. Rates and fees are subject to change without notice. Certain restrictions do apply. Your account is protected by Visa Money Back Guarantee. For more information, call 1-800-CITIBANK. Other consumer credit products available include Citicards for teens, Citicards for students, Citicards for homeowners, and Citicards for small businesses. See the back of this publication for details. Citibank credit cards are issued with the permission of the publisher. Citicard credit cards are issued by Citibank/National Association, N.A. © 1993 Citibank/South Dakota, N.A., Member FDIC.

William Peper

The Daily Iowan

With more than 700 Iowa City High school students voting for only 177 parking spots, school officials are hoping to begin another parking lot.

"We do not have an alternative," City High Principal Howard Vernon said at Tuesday night's school board meeting. "I think the alternative is to have the money to build the lot."

In an effort to deal with the problem and at the request of the Iowa City Council, on Oct. 11 the board discussed an $85,000 proposal to add a temporary 80-car lot in the grassy area that runs along Monticello Drive.

Dean of Administrations Secretary Jerry Palmer said the city will not allow the district to build a temporary lot because it would be non-compliant with city code.

If the temporary lot were built, it would make some sewer work possible in the next two years more difficult to complete. The district was worried that, if unnecessary, it would be afraid it might prevent the city from building the lot.

With the remaining options being on or off a permanent lot, school officials agreed that a permanent lot is necessary but was unwilling to commit to the project until a cost estimate is determined.

Board member Bertie Haverty said that the resident in the area around City High school is concerned about what the board should do.

The board authorized Peter's hire as an engineering consultant to study the problem and to make a recommendation.

Health Iowa to promote fitness with fair

KRISTIN BERG
The Daily Iowan

Trying to help students "get on the fitness" Health Iowa, the state's health fair spearheaded by Health Iowa, is hoping to make its Health Iowa faculty members and invited students. Each participant will receive a form explaining test results, and staff members will be available to answer questions, Berg said. In addition to the testing, fairgoers will have the opportunity to participate in an aerobics demonstration led by professors from Iowa City and the University of Iowa will be coming to the fair. Just skiive, said the purpose is to promote physical fitness awareness and inform others about the services available in Iowa City. Health Iowa is a community-based health promotion program that annually involves Health Iowa faculty members and invited students. Each participant will receive a form explaining test results, and staff members will be available to answer questions, Berg said. In addition to the testing, fairgoers will have the opportunity to participate in an aerobics demonstration led by professors from Iowa City and the University of Iowa will be coming to the fair. Canada's Liberals

Victory no indication of ability to govern

Jeffrey Lithard

The Daily

WEDNESDAY, OCTOBER 27, 1993

The outcome of last month's elections has been translated to the House of Commons by the Liberal minority. Many political commentators are now convinced that the Liberals will form the government of Canada. But this victory has not translated into the kind of support that the Liberal minority will need to succeed. The Liberal minority is facing an uphill battle to win the support of the country and the opposition parties.

Protestants retaliate for IRA bomb, kill 2

Shawn Pegentch

The protesters responded to the bombing in the Shankill area of Belfast by killing two people. The attack was carried out by the Provisional IRA, who have been active in the conflict for many years. This is the latest in a series of attacks carried out by the IRA, who are seeking to destabilize the peace process in Northern Ireland.

Clinton proposes spending cuts, changes in government buying

Tom Raum

WASHINGTON - President Clinton proposed a package of government buying Tuesday to save money and improve programs, saying the package will save $1 billion over five years. The package range from ending federal subsidies for wool, sweet potatoes and broccoli to giving federal agencies more power to line up vendors. The president also wants the government to spend $500 million over five years on contracts for small businesses, which he says will create jobs and boost the economy.

City Link

The City Link program will allow developers to buy city-owned buildings for use as affordable housing. The program will be implemented in the city of New York.

Haitians steal gas at gunpoint as embargo champs off supply

David Board
Associated Press

PORT-AU-PRINCE, Haiti - Gun-toting workers seized part of a fuel storage tank at this global oil embargo at a factory in the capital, witnesses reported.

The incident occurred on Oct. 28, when the factory, a major player in the oil industry, was closed by police officials. The police measurable by another wage worker, a local said.

The oil company, which supplies gasoline to Haiti, had announced it would stop operations on Oct. 28 because of the ongoing fuel shortage.

The police said they were unable to prevent the looting, which they reported to the state-owned oil company.

Witnesses said they saw gun-toting workers entering the factory and then leaving with gasoline.

The police said they had made a number of efforts to prevent the looting but were unable to do so.

The incident is the latest in a string of similar incidents in recent weeks.

In other incidents, truckers and oil company workers have been involved in violent confrontations with police, who have warned that the situation could escalate.

The police said they are working to prevent further incidents and that they are providing security to the fuel company.

The police also said they are working with the Ministry of Energy to ensure that the company is able to operate safely.

The Ministry of Energy said it is working to ensure that the fuel company has enough gasoline to operate.

The Ministry also said it is working with the police to prevent further incidents.

The police said they are also working with the fuel company to ensure that it is able to operate safely.

**Halloween**

**The real witch**

Being across the silver screen with dominating black-bout costume, a bad attitude and a thoroughly threatening, the archetypal witch, as a character, is essentially insinuated with a principal purpose, i.e., the bewitchment of society. The witch, as a character, is typically portrayed as a woman who has a dual nature, both good and bad. Societies and cultures all over the world have their own versions of the witch, and the portrayal of her role in society varies greatly. However, throughout history, witches have been associated with negative connotations and are often depicted as malevolent figures. The imagery of witches and their significance in society has been influenced by various factors, such as religious beliefs, folklore, and cultural traditions.

**NOTES**

- Lately the word "witch" has become popular in the media, as society and its structures have undergone significant changes. The archetypal witch, as a character, is typically portrayed as a woman who has a dual nature, both good and bad. Societies and cultures all over the world have their own versions of the witch, and the portrayal of her role in society varies greatly. However, throughout history, witches have been associated with negative connotations and are often depicted as malevolent figures. The imagery of witches and their significance in society has been influenced by various factors, such as religious beliefs, folklore, and cultural traditions.

- **Halloween** is a holiday observed in various cultures around the world, particularly in North America, where it is a popular event for children and adults alike. Halloween is celebrated on October 31 and is associated with fear, mischief, and laughter. The holiday is marked by various traditions, such as dressing up in costumes, trick-or-treating, and carved oranges (known as Jack-o'-lanterns).

- **The real witch**

The real witch is a character in the movie who always triumphs (i.e., gets the right to do whatever she wants). The witch peers at us from many places - she might be a shadow, a glimpse in the window, or a whisper in the dark. She is a symbol of the repressed emotions and desires that lie hidden within us. The witch is a force of nature, a powerful and mysterious figure who represents the unknown and the unknowable. She is a reminder that there is more to life than what is immediately apparent, and that there are forces at work that we may not fully understand.

- **USperspect**

**JESSICA HAMMANG**

**Division of society dictates lifestyles**

It seems to me as though this college and many others are striking the line over excessive and introducing students who have never before experienced serious or segregation in their rural communities back home to a distorted view of the world. No one would want this to become more prejudiced, racist, or biased.

**QUESTION GUEST - SEE LUYA**

**Names of alleged victims should not be printed**

It is important to remember that all victims should be treated with respect and dignity, regardless of their gender or sexual orientation. The names of alleged victims should not be printed, as this can lead to harm and further victimization. Instead, it is important to focus on the actions of the perpetrator and the impact of their actions on the community. It is also important to support survivors and advocate for justice and accountability.

HALLOWEEN COSTUME GUIDELINES.

This year, we have decided to utilize the internet to assist us in determining the most appropriate costumes for our students. This has been a difficult decision, as we do not want to offend anyone or promote any form of discrimination. However, we feel that it is important to provide our students with guidance on how to choose costumes that are respectful and inclusive.

We have received feedback from students and parents that they feel uncomfortable and frustrated with the current costume guidelines. They feel that the current guidelines lack specificity and are open to interpretation. In addition, they feel that the guidelines are not inclusive and do not take into account the diverse backgrounds of our students.

We have reviewed the current guidelines and have identified several areas for improvement. We have also consulted with representatives from the student council and the parents' organization to ensure that we are considering all perspectives.

We have decided to implement the following changes to our costume guidelines:

1. The use of any costume that is based on stereotypes or caricatures will be prohibited. This includes costumes that are based on race, ethnicity, gender, religion, or sexual orientation.
2. The use of any costume that is considered offensive or inappropriate will be prohibited. This includes costumes that promote violence, discrimination, or hate.
3. The use of any costume that is considered inappropriate for the school setting will be prohibited. This includes costumes that are considered too revealing or that promote adult content.
4. The use of any costume that is considered too dangerous or that poses a safety risk will be prohibited. This includes costumes that require the use of props or accessories that could cause injury.

We encourage our students to be creative and to use their imagination to come up with innovative costumes that are respectful and inclusive. We will be providing more information on how to choose appropriate costumes in the coming weeks.

We value the input of our students and parents and welcome any feedback or suggestions that they may have. We are committed to creating a safe and inclusive environment for all members of our community.

Sincerely,
[Your Name]

"When I get back to Charlotte, I'm going to say to those people who heard ('nages': 'thank you, thank you, thank you,' " said Richards, who unveiled the team's new jersey in the toasty colors of coral and burgundy.

The ceremony began with a taping of the ground by local team officials. After that, the ceremony moved to the arena to set the tone for the game.

The ceremony started with a thank-you to the fans for their support during the past 15 years. The ceremony included a thank-you to the fans for their support during the past 15 years. might be ready to break out at any time," Davis said. "He may be the best athlete on this ball club." University of North Carolina, a 5-10, 160-pounder from Battey, who is the offensive line for the Tar Heels, is averaging 6.7 points and 4.1 rebounds while playing both guard and forward.

Davis said Battey, Hollowell, and freshman Joes Smith also play the third guard.

With Williams settled at small forward, 6-foot-8 sophomore Bruce Miltard and newer John Carter and Beatty may all contribute to the team's success. Davis also praised senior Earl, who has been with the Bridges since 1992.

Miltard averaged 5.1 points and 4.2 rebounds last year, but he is a big player for the Bridges.

Davis said he isn't worried about implementing a running style with just four players. "You really need seven guys to do this. Eight is kind of the ideal number," Davis said. "With nine, we have one extra to play with. Obviously play your base six. I'm not too worried about having that big problem."

The bridges will scrimmage at 6 p.m. and Field House at 8 p.m. on Friday, followed by a game at 9 p.m.

The game will be broadcast on 1540 AM.

A long weekend.

"We really don't have a coach on the bench," Davis said. "I don't know if there are any other players in the league who think like that. We try to mix it up and play it by ear."
Ronald Rbin  
Associated Press  
NEW YORK — Darby, a rookie receiver who led the San Francisco Giants to their most victory since 1981, had just a second-place point, was voted National League Manager of the Year on Tuesday.

Rabin received 15 first-place votes in balloting by the Baseball Writers' Association. Five more than in 1982, when he was a first-place vote and second second.

Rabin got nine second-place votes and third finishes for 109 points.

Managers receive five points for first, three for sec-
ond and one for third.

Pregnot got 11 second's and four thirds for 92
points. Felipe Alou of the Montreal Expos and Bobby
Cox of the NL West champion Atlanta Braves tied for
third with 107 points each.

Darby, 19, was hired by the Giants one day
last Dec. 10 to replace Roger Craig. Baker had spent
five seasons with the San as-a coach, including
the previous three as the hitting coach.

The Giants led the NL West from May 2 to Sept.
15 when they were overtaken by the Braves. The
same fought down the stretch and the Giants lost
the season's final day when the Los Angeles Dodgers
won them 13-2.
Big Ten may land six bowl game bids

Associated Press

BLOOMINGTON, Ind. — The Big Ten Conference is close to committing to four bowl games for the most successful four teams in the league. Commissioner Jim Delany says.

Ohio State, and we'll ask Big Ten athletic directors to approve meaningful agreements for the league's fifth- and sixth-place teams.

"We're talking to a lot of other bowls now about entering into one-year agreements, Delany said Tuesday in a telephone conference.

A number of bowls have ties that could be sold, a source told the Chicago Tribune, allowing the teams to be placed in a bowl that is not in their traditional slot.

The Big Ten currently has deals in its divisio

Randle, Vikings lead thanksgiving

Mike Nadel

Associated Press

DETROIT — Robert Randle, Minnesota's 198-12-10 defensive tackle, and Henry Thomas, the team's new triple-option running back, are two more versatile offensive weapons for the Minnesota team.

"They're really explosive off the ball," each of the Vikings' first-down threats, said Minnesota head coach Gary骧hnan.

"I think it's just getting in shape and running back," he added.

Randle and his teammates were considered one of the best second-effort defense in the nation, and they still have three starts, even though they are very different probes at the same position.

"Henry is really explosive," Delany said.

"He's a good athlete, and with the best he's done in his backfield.

"We're considering several bowls for the next four teams in the league," Delany said.

"We don't know what we'll do a day ago, I think that is not possible in the environment, we've got a good football team here and a good team as usual.

"The Big Ten No. 3 Ohio State, No. 12 Penn State, No. 23 Wisconsin, and the runners-up in the Big Ten are going to be a tough team to knock over this 2008 season.

"They've got two or three bowl games to still fit in.

"In Minnesota, we'll probably go the way the game works and do a two or a one-week season. If any of them is a big one, we'd probably go ahead and do that.

Thomas signs extension

Associated Press

CHICAGO — Frank Thomas, baseball's top big hitter, has signed a three-year contract that will keep him with the Chicago White Sox through the 2009 season.

The deal contains club options for the next two seasons, giving the Triple-A slugger the second-highest figures since 1946.

Thomas is expected to be worth about $42 million over six years.

The 39-year-old is coming off a season in which he was .319 with 97 doubles, 352 RBIs in just three full seasons in the major leagues.

"I'm very happy," he said Tuesday. "I'm very happy about it.

"I'm very happy to be a White Sox player."

In the deal, Thomas is expected to be worth about $2.5 million, is expected to be worth about $2 million.

"We made a hard commitment to him," said Minnesota owner Jim Pohlad.

"I'm very happy with him."

"I think he's a very good athlete, and with the best he's done in his backfield."

Traditional reactions to instrument prompt creation of 'OctOBOEfest' Weekend celebration of oboe to include concerts, lectures

Lisa Anne Segger

The Daily Iowan

The day has come in a 4,000-year-year tenure. It's has gotten a bad rep.

"I think the negative image is still somewhat subtly understood. When you see someone playing the oboe, it's always pretty difficult to imagine someone doing that. But it is one of the wonderful sounds.

"This is an underappreciated instrument," said Ira Kolb, an oboe professor at the UI.

"People are afraid well get too much stage fright."

"It may be a day of celebration that Weiger has organized this weekend's events because "OctOBOEfest.""

On Oct. 20, the festival will feature concerts, lectures, and performances of oboe music. In addition, some of the other instruments in the double reed family will be performed.

"An oboist has the ability to have great fun," said Paul memes, an oboe professor at Iowa State University.

"I think people have been the situation when they would rather not hear."

But people who have heard a skilled oboe play can see this is a situation that is beneficial to their favorite instrument," continued memes.

The festival will include a special Friday night at the Hancher Auditorium.

OctOBOEfest events:

Friday, Oct. 20:
7 p.m.: Registration at the UI Music Building
7 p.m.: Concert by the Double Reed Ensemble of five
8 p.m.: Concert by the UI Symphony Band, Crescent Hall

Saturday, Oct. 21:
11 a.m.: Master class by Peggy Mason, oboe instructor at Luther College
1 p.m.: Recital on the baroque oboe by Kevin Price, UI professor at the UI Music School
3 p.m.: Recital by Mark Weiger, UI assistant professor and creator of "OctOBOEfest," displays his instrumental specialty: playing two oboes at once. A recital by Weiger will be part of a weekend of oboe-related activities.

Saturday, Oct. 21:
7 p.m.: Lecture on oboe reeds, a chamber music recital, a concert of all oboe music, and two oboes at once, but with the emphasis on the instrument's speciality: playing two oboes at once.

The group, founded in 1989, is the largest double-reed ensemble on the globe," says Weiger, who has taught at the UI for 15 years. He started the oboe festival in 1993, hoping to attract more students.

"Oboe players have a tendency to be a bit of a special culture," he says. "They're not used to being in groups. According to him, a few oboes can bring more than three or four oboe players, but at the School of Music, there are 15.

Vincent Price dead of lung cancer at 82

Vincent Price: Associated Press

"I don't care if you're a dog, if you're a cat, or if you're a fish, I'm not going to sit in a chair and let you mess with me," said Price.

Indianapolis — The Beverly Hillbillies" was the top-grossing film over the weekend, but the Civil War epic "Gettysburg" earned more per location and is likely emerging as one of the season's most popular movies.

"Gettysburg" ran four hours and 16 minutes long, and can be split into only twice a day in the theaters.

Top studio films "Denzel Washington." The film's $39 million box office success is the result of a $1 million test weekend, adapted from the book "The Killer Angels," the movie has earned $34 million in take.

"It started out getting an older audience, then the audience expanded," said a producer. "We're not broadening out. We're getting younger people and families because the word of mouth is really good."

"Goldfinger" was also doing very well, as was "The Adventures of Pluto Nash." "The Adventures of Pluto Nash" was released on Friday, "Gettysburg" on Saturday, and "Goldfinger" on Sunday. "The Adventures of Pluto Nash" has earned $1.8 million in take.

"Boxing Helena" a bewildering atrocity

Iowa Daily

The International Writing Project at the University of Iowa, which has been studying the writing of young people in the United States for several years, has released a report that offers some surprising insights into the way students write today. According to the report, which is based on a survey of more than 1,000 high school students across the country, there has been a significant decline in the quality of writing among young people. The report notes that many students are now writing in a way that is more focused on style and less on substance, and that they are often more concerned with getting the words right than with conveying clear ideas. The report urges educators to pay more attention to helping students develop their writing skills, and to encourage them to write more freely and more confidently.
