ANC seizes early lead in elections

ANC goes nationwide with 41 percent

1 Résults, provincial vote totals, are on Page 30. This year's ANC election victories may be the best yet, but there is a danger that the party will become complacent and lose support. The ANC must continue to work hard to attract new members and retain the support of those who already belong.

ANC leader Thabo Mbeki said: "We have made great strides in the last few years, but we must not become complacent. We must keep working hard to improve the lives of all South Africans." The ANC is currently the largest party in South Africa, with over 40 percent of the vote.

ANC president Cyril Ramaphosa said: "We are proud of our achievements so far, but we know that there is still much work to be done. We will continue to work hard to achieve our goals of freedom and justice for all South Africans." The ANC is the oldest political party in South Africa, founded in 1912.

ANC campaign co-chairperson Walter Sisulu said: "We are delighted with the results today, but we must not become complacent. We will continue to work hard to achieve our goals of freedom and justice for all South Africans." The ANC is currently the largest party in South Africa, with over 40 percent of the vote.

Black Panther: no guns, same science

DAVE LIEBOV
Associated Press
OLIVIA McBRIDE, Iowa - They are
born in the barrel of a gun and
some say are made on the open
floor of blackness. But there is a
timeless truth that has shaped the
menace of the Black Panthers.

Many former Panther leaders
haven't intervened in the revival of
the militant party. But the Panthers
are now just a service organization
in Oakland. Their mission is clear:

"We've really changed. But not
our ideas," said Dr. David Henderson,
one of the original 18 Panthers. "We
have to look toward today for a
good future." The Panthers, like
no others, can change. Today's
world is about change.

Oh, the days when the Panthers
rode on the backs of Buren and
Ashland. "Fifty cent a piece,"
Dr. Bure said. "We were
the best damn people going."

But Henderson, who runs
with the word "protections,"
asserts that the Panthers are
changing. "The old Panthers are on
their way out, and the new ones
are changing," Henderson said. "But
we're all still fighting for the
same thing.

"There's nothing wrong with
being a cop. There's nothing wrong
with the police," Henderson said.
"But I think the police need to
change. They're not the people's
friends. The people are the people's
friends.

"We've got to get away from the
sense of being, you know, the
people's friends."

In those days, the Panthers fought
for the people, and they even had
their own magazine called The Daily
Iowan. It was a newspaper that
covered local news and events,
including sports and school
activities. The paper was published
weekly, and it was distributed to
readers for free.

The Daily Iowan was a small,
local newspaper that provided
information on local events and
activities. It was founded in 1876
and continued to be published until
1985. The newspaper was known
for its coverage of local events,
such as sports games, school
activities, and community
announcements. It was a valuable
tool for local residents to stay
informed about what was happening
in their community.

Animal-use lecture turns to altercation

Holly Reichardt

The Daily Iowan

"We're in a presentation against animal research," Carter said. "We're in a presentation against animal research right now." Lawrence Carter, an independent anti-vivisection activist who works with a number of animal welfare organizations, spoke to an audience of about 50 on animal research activities in Iowa Monday in the Union. Carter was from Los Angeles and traveling for the United Fund (now the United Way). At the inception of his presentation, Carter warned audience members to remain respectful, as angry outbursts have occurred in the past in protest against animal research.

"I told you I would not tolerate interruptions," Carter said. "You can't interrupt" Carter, who was joined by two other anti-vivisection activists. Carter was up front about his stance.

"There are people working very hard," Carter replied to a shouting guest. Royal said, "Because there is an answer doesn't mean they are doing bad things. There are areas where animals are used appropriately," he said. "There are two sides to this," Carter said. "There are objections to the implication that people are wasting time and when you say you want to eliminate all animal research," Carter remained adamant in his refusal to agree.

"If we're not going to have what we've proposed with animal research, it's damn well time we try something else," he said. "We have limited funds and limited resources. It is time to pay the piper and go on to something else." Carter said he would like to see more funds for his ideas.

"Our position is that the scientific community should be diversified and working for a common ground," Carter said. "There are areas where animals are used appropriately," he said. "There are two sides to this," Carter said. "There are objections to the implication that people are wasting time and when you say you want to eliminate all animal research," Carter remained adamant in his refusal to agree.

Carter said he would like to see more funds for his ideas.

Harassment abounds in Iowa high schools

Associated Press

AMES — Few of any girls in Iowa high schools have been subject to some form of harassment, according to a new survey released by the state Department of Education. The survey was conducted in the fall of 1994 and looked at abuses for young women to be harassed, according to a new survey released by the state Department of Education. The survey was conducted in the fall of 1994 and looked at abuses for young women to be harassed, according to a new survey released by the state Department of Education.

The study said it's all too common for young women to be harassed, according to a new survey released by the state Department of Education.

Grundy leads Grandy 52 percent of Grandy supporters say they would be persuaded to switch to 4A - 30 weeks Grandy supports characterize their 18-year-old supporters as more assertive and independent than the average supporter as opposed to Grandy supporters as more assertive and independent than the average supporter. The study said it's all too common for young women to be harassed, according to a new survey released by the state Department of Education.

Relief workers face difficulties feeding refugees from Rwanda

Reid Miller
Associated Press

The United Nations and its European partners Wednesday airlifted 50,000 tons of food to Rwanda as the United Nations began a massive relief operation to feed about 2 million refugees who have fled their homes in the civil war in eastern Africa.

The airlift, the first of what will be several similar operations, was aimed at preventing a major food crisis among the refugees who have fled to the eastern region of the country to escape violence.

The operation was prompted by reports that more than 1 million refugees were at risk of starving to death in the next few weeks.

The airlift is expected to continue for several days and will be followed by a larger operation to provide food for the entire population of eastern Rwanda.

The United Nations estimates that about 600,000 refugees are currently living in eastern Rwanda, mainly in the eastern part of the country.

The airlift is being coordinated by the United Nations High Commissioner for Refugees (UNHCR), which has been providing food to refugees since the start of the conflict in 1994.

The operation is being financed by the United Nations and its European partners, who have pledged to provide $100 million for the relief effort.

The BEST PARALEGAL PREPARATION IS COMPREHENSIVE...
and Kirkwood is dedicated to the most comprehensive program
in this kind of area.

- Warfa ABA approved
- All law courses are taught by members of the Bar
- We offer instruction in WESTLAW and LEWIS
- You will earn an Associate degree and credit
applicable toward a Bachelor of Arts degree
- We offer a streamlined program for those who
have already earned an A.A. or A.R.A. degree
(10 semester hour - 21 semester hour)
- In-state tuition - $2,324 per year

NRA opposes Clinton on distinction of guns

Associated Press

WASHINGTON - The Clinton administration backed a new national assault weapons ban on Sunday, but the administration's State Department was not consulted on the measure. The administration has been accused of political motives, but the President has not yet made a decision on the measure.

Associated Press

WASHINGTON - The military brass took 230 helicopter trips between the Pentagon and Andrews Air Force Base in 1993 at a cost of about $1.000 to $5.000 per flight. The Washington Post reported Sunday.

The Pew's review of records showed the flights cost taxpayers between $50,000 and $70,000 at a time when President Clinton has promised to reduce the unnecessary use of government aircraft.

The 1.5 mile trip takes about 15 seconds. The cost to taxpayers was $28, the Post said. Had the 230 trips been by bus, the bill would have been about $800.

Weird traffic on information highway

Over the years, I've been accused of being a traffic cop on the information superhighway. People often ask me, "How can I navigate through this maze of information?" My response is always the same: "Take it slowly and enjoy the ride." The Internet is a vast and complex network of information, and it's easy to get lost if you don't know where you're going.

However, I've noticed that some people are using the Internet in a more practical way. They're using it to stay informed on current events, or to communicate with friends and family. For them, the Internet is a tool that they use to improve their lives. This is the kind of traffic I enjoy seeing. It's the kind that moves the world forward.

But there are also those who use the Internet in a more mercenary way. They use it to spread misinformation, or to fuel their personal biases. This kind of traffic is not welcome on the information superhighway.

So, to all of you who are using the Internet responsibly, I say, "Thank you. Keep it up." And to those who are using it in a harmful way, I say, "Please go back to the drawing board and learn how to use the Internet properly."

Suburban Landscape has consistently ranked among the top 100 small businesses in America since the late 1950s. Located in its hometown of Davenport, it has established a distinct niche and reputation among the local business community for its expertise in the landscape design, installation, and maintenance market throughout the Quad Cities area. Without statistical data, it would be reasonable to estimate that the business has been successful, based on the annual turn over of clients and the continuous growth of the workforce.

To the Editor:

In the newspaper would not bother me. As a reader, I don't believe the newspaper should have the level of influence that it does in the community. I am not aware of the management's efforts to improve the newspaper's quality or its content. I urge you to consider the following points:

1. The newspaper has consistently ranked among the top 100 small businesses in America since the late 1950s. Located in its hometown of Davenport, it has established a distinct niche and reputation among the local business community for its expertise in the landscape design, installation, and maintenance market throughout the Quad Cities area.

2. Without statistical data, it would be reasonable to estimate that the business has been successful, based on the annual turnover of clients and the continuous growth of the workforce.

3. The very fact that so many campus services are run by outside companies is a sign of the university's inability to manage its own affairs. This is a clear indication of the university's failure to provide adequate services to the students and faculty.

4. The university's inability to manage its own affairs is further evidenced by the fact that so many of its services are run by outside companies. This is a clear indication of the university's failure to provide adequate services to the students and faculty.

5. The university's inability to manage its own affairs is further evidenced by the fact that so many of its services are run by outside companies. This is a clear indication of the university's failure to provide adequate services to the students and faculty.

6. The university's inability to manage its own affairs is further evidenced by the fact that so many of its services are run by outside companies. This is a clear indication of the university's failure to provide adequate services to the students and faculty.

7. The university's inability to manage its own affairs is further evidenced by the fact that so many of its services are run by outside companies. This is a clear indication of the university's failure to provide adequate services to the students and faculty.

8. The university's inability to manage its own affairs is further evidenced by the fact that so many of its services are run by outside companies. This is a clear indication of the university's failure to provide adequate services to the students and faculty.

9. The university's inability to manage its own affairs is further evidenced by the fact that so many of its services are run by outside companies. This is a clear indication of the university's failure to provide adequate services to the students and faculty.

10. The university's inability to manage its own affairs is further evidenced by the fact that so many of its services are run by outside companies. This is a clear indication of the university's failure to provide adequate services to the students and faculty.

11. The university's inability to manage its own affairs is further evidenced by the fact that so many of its services are run by outside companies. This is a clear indication of the university's failure to provide adequate services to the students and faculty.

12. The university's inability to manage its own affairs is further evidenced by the fact that so many of its services are run by outside companies. This is a clear indication of the university's failure to provide adequate services to the students and faculty.

13. The university's inability to manage its own affairs is further evidenced by the fact that so many of its services are run by outside companies. This is a clear indication of the university's failure to provide adequate services to the students and faculty.

15. The university's inability to manage its own affairs is further evidenced by the fact that so many of its services are run by outside companies. This is a clear indication of the university's failure to provide adequate services to the students and faculty.
Arkansas is one of three states in the United States that have a permanent post-apartheid constitution.

Arkansas is one of three states in the United States that have a permanent post-apartheid constitution. The state was one of the last to adopt constitutional reforms following the end of apartheid in South Africa. The new constitution, which was adopted in 1994, was modeled on the one adopted by South Africa after the end of apartheid in 1994. It is considered to be a success story in terms of political stability and economic growth.

The Constitution of Arkansas is divided into two parts: the Bill of Rights and the General Provisions. The Bill of Rights includes provisions on individual rights, such as freedom of speech and religion, the right to privacy, and the right to a fair trial. The General Provisions cover topics such as the powers of the state government, the legislative process, and the administration of justice.

Arkansas is one of the few states in the United States that have a bicameral legislature, with a Senate and a House of Representatives. The governor is elected by the people and serves a four-year term. The state also has a judiciary system, with a Supreme Court as the highest court in the state.

Arkansas has a mixed economy, with industries ranging from agriculture to manufacturing to technology. The state is known for its natural beauty, including the Ozark Mountains and the Arkansas River.

Hawkeyes take over two Iowa moves into third place in Big Ten with 6-5, 6-7 wins Sunday

Joe D'Amico

The Daily Iowan

The Iowa baseball team remained unbeaten in Big Ten play after taking the lead in the opening game against Illinois on Tuesday. Iowa beat Illinois 6-5, 6-7 to extend its winning streak to 7-0 in Big Ten play.

Iowa laptop users have been trained to wait for a while before expecting an answer. The laptop is a powerful tool that can be used for various purposes, including communication, entertainment, and education. However, it can sometimes be frustrating to wait for a response, especially when it is not clear how long the process will take. In this case, the user is waiting for a response from the laptop, which may be related to a specific task or query.

In the meantime, the laptop user can do other things to pass the time, such as reading, browsing the internet, or even taking a break. The user may also try to be patient and give the laptop enough time to process the request. This is important to avoid frustration and to ensure that the task is completed successfully.

The situation is also frustrating for the laptop user, as they may not have control over the process. The laptop is a complex device with many moving parts, and it may take some time for the task to be completed. However, with patience and persistence, the user can eventually achieve their desired outcome.
Bruins edge Devils 2-1

Associated Press

EAST RUTHERFORD, N.J. - Brian Leetch and John Cullen scored goals late in the second period, and the New Jersey Devils made the last two minutes of the game bearable with an empty-netter, but the New York Rangers, 2-1 winners, had the last laugh Wednesday night.

The game was virtually over by the time the Ranger band had finished its halftime performance in the Meadowlands Arena, but Leetch made sure there would be no complacency.

Leetch's goal, a 17-footer that beat goalie Rick DiPietro, ended a two-game losing streak and was the team's first in 106 minutes. The win meant the Rangers swept the Devils in a seven-game series, and clinched their fifth consecutive playoff berth.

New York's final two games of the regular season are against the Ottawa Senators, who have already clinched the Atlantic Division.

With the win, the Rangers moved into second place behind Boston in the East Division, and into a tie with the Devils for first in the East Conference. They also moved into second place in the Eastern Conference, one point behind Pittsburgh, which lost to Philadelphia in overtime.

In other games Wednesday, the Winnipeg Jets defeated Quebec 4-3 to clinch their first division title since 1989, and the Edmonton Oilers defeated the Vancouver Canucks 5-1. The Jets clinched the Smythe Division title, while the Oilers moved into second place in the Norris Division.

In the NHL's Western Conference, the Detroit Red Wings defeated the Chicago Blackhawks 3-1 to clinch their fourth division title in the last five seasons, and the Los Angeles Kings won their 25th game of the season, breaking the franchise record for victories.

The Red Wings clinched the Central Division title, while the Kings moved into second place in the Pacific Division.

In other games, the Dallas Stars defeated the St. Louis Blues 4-1 to clinch the Midwest Division title, and the New Jersey Devils defeated the New York Islanders 4-2 to clinch the Atlantic Division title.
Iowa Playwrights Festival 1994

Participants find week of theater exhausting but rewarding

Tasha Robinson
The Daily Iowan

The Stresses

Like many people in the theater department at the university, student fringe theater is up this week, taking part in the Iowa Playwrights Festival, a working playdown the week of "Three Days" by Keith Yusef Adkins. The show will be performed in the Playwrights Workshop. The actors - each of whom operate a $250 budget and a time schedule roughly longer than a month - will all perform this week, along with 11 others, or staged readings, a number of guest profiles and a video show. "This is a whole bunch of people, any people in the department about period costumes, it's not only hurtful but you have to beat the bushes and said, 'Listen, this is about the dying dog whom he determines to bury,'" says he hesitates to call it a comedy. "You have to beat the bushes and said, 'Listen, this is about the 'mechanism' of things like 'mechanism' - Auto Stereo Cassette Reverse Cassette Livery area limited, Customer pays

Actors, directors, playwrights and designers work late, rehearse whenever and whenever space is available and often take on an assortment of roles during Playwrights Festival, the busiest time of the school year. Assistant Matt Honeyfield says during a late night rehearsal, "It's a play about girls, but I think it touches on a lot of human emotional and human situations." 

"The Stressors

"There's a whole bunch of people in the locomotive of a speeding Japanese bullet train, they trade off on the control, but you have a very acute sense of momentum. "Despite all this, nearly everyone involved with the special events in the "3 Days" production is very happy. "I think that the returning playwrights, directors, designers and actors who've done it before. The theater's really the place," Keith Yusef Adkins says he hesitates to call it a comedy. Passably funny "PCU" hits close to home

L.C. favorite Emanuel Ax to play flood relief show

Who: Emanuel Ax

When: Jan 1994

Emanuel Ax, America's favorite baritone saxophone player, will be performing in several cities to raise funds for flood relief. The concerts will take place in New York, Los Angeles, and Chicago.

Ax has been a staple of the classical music world for over 40 years and is known for his ability to capture the essence of a piece and bring it to life with his unique interpretation. His performances are always highly anticipated and never disappoint.

Tickets: Tickets for the concerts are available at local box offices and online at EmanuelAx.com. Prices vary depending on location and seat availability.

For more information, visit EmanuelAx.com or call 1-800-EMANUEL.

PCU

The 1991 film "PCU" is considered a classic by many, and for good reason. Directed by Douglas Sirk, it follows the lives of two young performers who are trying to make it big in the Hollywood film industry.

Starring Penelope Cruz, conference organizer for the Iowa City Family Planning Clinic, the film showcases the challenges and triumphs of the characters as they navigate their way through the cutthroat world of showbiz.

PCU cemented Sirk's place in the film industry and is still regarded as a classic today. If you haven't seen it, now is the perfect time to do so.

Tickets: Tickets for the special screening are available at IowaCityFPC.com. Prices vary depending on location and seat availability.

For more information, visit IowaCityFPC.com or call 1-800-PCU-1991.
