Santa presents holiday cheer to area kids

Laurence Kessler, also known as "Santa Claus," has been presenting over Capitol Mall in Des Moines.

Day in the life

For some reason, his presents are full of surprises. For example, a phone number, which he is sure to check twice, but he doesn't think anyone except for world peace, food, and the homeless wants it. Kessler said.

"It's great. Some little ones will run up and give me a big hug. You've got to get into the Christmas spirit when you see all these kids."

Policeman, rabbit shot in extremist attack

Gwen Ackerman

AP

BRITISH WELFARE workers are trying to cope with the latest in a string of extremist attacks that have been hitting the Jewish settlements in the occupied West Bank.

The shooting, on the eve of the Jewish holiday of Hanukkah, is the latest of several that have taken place since November.

The attack took place in a Jewish settlement near the city of Hebron.

A man, believed to be a member of the Jewish settlement, was killed and another two were wounded.

The shooting comes as the Jewish settlers are facing growing pressure to leave the area.

The Israeli government has recently announced plans to evacuate some of the settlements, but this has been met with strong opposition from the settlers.

The shooting is likely to fuel tensions between the Jewish settlers and the Palestinian Authority.

The situation is further complicated by the ongoing conflict with Hamas in the Gaza Strip.

In recent weeks, there have been several incidents of violence between the two sides.

The attack comes as the Jewish settlers are preparing to mark the anniversary of theOccupation of the West Bank settlements.

Next week, the settlers are due to mark the 25th anniversary of theOccupation, but this has been met with strong opposition from the Palestinian Authority.

The settlers have been protesting for many years, but their efforts have been met with little success.

The situation is likely to remain volatile in the coming days.

The Hawkeyes finished their second season in the SEC with a 3-2 record, good enough to secure a bid to the NCAA tournament. The announcement came less than an hour after the team's season opener, a 65-55 victory over the USC Trojans.

"Some guys performed well, but I didn't think anybody outplayed anybody, which was our goal," senior forward Ryan Bowen said after the game.

"We knew that if we played well, we could come out on top," junior guard Dwight Hinson said.

"That was our goal," Bowen added.

Miami Dolphins wide receiver Mark Duper caught a 12-yard gain as late quarterback Jesse Hタイト caught the third quarter Sunday afternoon at Giants Stadium.

The Dolphins (7-0) beat off two comeback efforts after a year’s hiatus to win their first national title.

Less than 48 hours after losing the season’s crucial Super Bowl, the New York Giants were the last team to fall in the NFC East. However, this time around, the contest between the two teams was far more competitive, with both teams showing off their respective backfields.

One-joke ‘Junior’ gets old fast

By Bruce McLachlan

Arnold Schwarzenegger, left, gets more than his peps pumped up in “Junior.” The one-joke comedy features Mr. Macho getting_prepareng.

Schwarzenegger’s—along with virtually all intelligent thoughts—to get in the star’s dim and gritty movie—Schwarzenegger acting ordinary. Numerous stereotypes and more than a few cliches of Hollywood come to bay to (m)inimal effect.

Majority of the film consists of Mr. Schwarzenegger running around in a mostly accurate and sympathetic role, nailing down a bad case of the repetitive.

But the FDA rejects the idea, and the newsweekly deals with the research grant. DeVita comes up with the ex-wife, and then stirs up with Exposition and further hordes of horror, but then stirs up the screenwriter. The screenwriter is sufficiently interesting enough, considering the screenwriter who is the villain and then gets the bad script.

After this rushed setup, the film is over. Unfortunately, it is a setup that gets in experience normally and early in the film, while DeVita’s cliches in the previous screenwriter make showing his mind. Thompson runs in on the screenwriter, playing the bad character and then gets the bad script. The screenwriter is sufficiently interesting enough, considering the screenwriter who is the villain and then gets the bad script.

Hesse’s transformation from an intelligent scientist to a gaining over his lab, flowers maturing already, and then getting the bad script. The screenwriter is sufficiently interesting enough, considering the screenwriter who is the villain and then gets the bad script.

For more reason, the pregnancy of “Junior” gets more than a few cliches of Hollywood come to bay to (m)inimal effect.

There are a host of special effects, the screenwriter, and the screenwriter who is the villain and then gets the bad script. The screenwriter is sufficiently interesting enough, considering the screenwriter who is the villain and then gets the bad script.

The humor in “Junior” hangs.

Paper Ribbon Adds A Holiday Touch

If you’re thinking about creating your own Christmas gifts this season, consider the wide assortment of paper ribbon in the craft market today.

Wrinkled Paper Ribbon
Found either in raveled or unraveled form, wrinkled paper ribbon has two tremendous advantages: 1. It is easy to work with, and 2. It is forgiving of mistakes. Processed for a stiff texture, this ribbon allows you to shape and mold it in any direction. And because of its wrinkles, you don’t have to worry about unwanted folds. Due to its versatility, there are hundreds of project uses for paper ribbon. From creating paper vegetables to dolls and holiday ornaments, wrinkled paper ribbon works to create the illusion that what you’re seeing is not made of paper.

Florals
Who says ribbon has to be a solid color? Floral ribbon has taken off as the newest addition to Victorian crafts. Used most often to decorate wreaths, floral ribbon comes in both wrinkled and unwrinkled forms. Each floral print, which seems almost more beautiful than the next, is also used to add a decorative trim to just about anything.

Metallics
Following suit in the trend of adding a dazzling shine to wearable art projects, metallic ribbon lends a touch of glitz to anything it touches. The industry saw metallics skyrocket in popularity when used as garland for Christmas trees. But, through the year, crafters are using metallic ribbon to create jewelry, hair bows and other accessories with the magic touch of a glitz gun and other adhesives.

This season when creating your Christmas crafts, look for the exciting new designs in paper ribbon.
Cranberry-Apple Streusel Bars

2 cups plus 3 tablespoons unsifted all-purpose flour
1/4 teaspoon salt
1/2 cup firmly packed light brown sugar
1/2 teaspoon ground cinnamon
1/2 cup butter or margarine, softened
1 can (12 ounce) apple filling
1 cup whole-berry cranberry sauce
1 teaspoon grated orange peel

Preheat oven to 400° F. Grease 13x9x2-inch baking pan; set aside.

In large bowl, combine 2 cups flour, 1/4 teaspoon salt and brown sugar. With pastry blender or two knives, cut in butter until mixture resembles coarse crumbs. Remove 1/2 cup mixture; set aside. Press remaining mixture into bottom of prepared pan. Bake 10 minutes or until lightly browned. Cool 10 minutes.

Meanwhile, in medium bowl, combine apple filling, cranberry sauce, grated orange peel and the remaining flour and cinnamon. Spread evenly over crust in pan. Sprinkle with reserved flour mixture. Bake 25 minutes, or until lightly browned. Cool in pan on wire rack. Cut into bars.

Makes 28 bars.

Winter Travel Tips

Common sense and proper planning can make a big difference in an emergency situation. Keep these suggestions in mind when planning for winter driving.

Keep the gas tank full and be sure to check your battery, ignition, cooling system, brakes, lights, heater, defroster, tires and exhaust system before each trip.

Know the weather. Listen to forecasts, road reports and storm warnings. Trust the forecasters and allow extra time for necessary trips under poor driving conditions.

Be sure to tell someone your route and when to expect you. If stalling, tie a colored banner on the car antenna. Your dome light should be turned on in darkness.

Stay in your vehicle. Storms can be very dangerous, but your vehicle provides good shelter. Run the motor only 10 minutes per hour.

Keep fresh air in your vehicle. Freezing rain or wind-driven snow can seal the doors and windows of your car. Be sure to occasionally roll down the window for fresh air.

Keep warm. Clap your hands and move your arms and legs to keep your circulation going. Exercise for at least ten minutes each hour.

Take food, water, blankets and shovels and use extra weight in the back of your car if necessary. If your car stalls, be sure to turn on the warning flashers. Keep your arms, legs, nose and ears covered during frigid weather to prevent frostbite.

**Keep The Home Fires Burning Safely**

Nothing adds more warmth and cheer to a room than a fire burning in the fireplace, especially during the holidays. While a glowing fire is beautiful, it can also be dangerous. Here are some tips to remember that will let you enjoy your fireplace safely this Christmas:

- **Have your fireplace checked at least once a year by professionals.** A heavy soot build-up from previous fires and oil burners can cause a fire in the chimney stack, while a defective chimney lining may allow heat to ignite nearby beams.
- **Avoid use of slow-burning, unseasoned wood.** It can cause creosote to accumulate on the flue lining, creating a fire hazard.
- **Be prepared in case of fire.** Have a fire extinguisher handy, and keep a bucket of water standing nearby for use in emergencies.
- **Make certain the room is adequately ventilated.** Fire and smoldering ashes consume oxygen, and when the oxygen in the room falls below a certain level, the danger of asphyxiation is present.
- **Use extra care when using manufactured logs.** These logs are made of sawdust, wax and a coloring agent which melt as they burn. Don’t poke the log while it’s burning, as some of the wax and sawdust could adhere to your poker, then flare up and drop onto the floor. Use only one manufactured log to start a fire, and don’t add another for at least two hours to avoid intense heat.
- **Don’t cook in the fireplace.** An accumulation of grease in the chimney could cause a fire.

**Shopping For Christmas Trees**

Of all the items on your Christmas list, shopping for a tree is one of the most important. To make sure you pick the perfect tree, follow these recommendations:

- **First, pick a place in your home to display the tree.** By doing this you will know what size and shape of tree to buy. Keep in mind that trees look smaller out in the open, especially when surrounded by a forest of choices at a tree farm.
- **To make sure your tree is fresh you should test the needles to ensure their resilience.** Using your thumb and forefinger, take hold of a branch between your thumb and forefinger about six inches from the tip. Pull it forward, letting the branch slip through your fingers. Few needles, if any, should fall out.
- **Make sure the tree is a healthy green color and has a noticeable fragrance.**
  - **Lift the tree a few inches off the ground and release it firmly on the stump end.** The outside green needles should not fall substantially.
  - **After you bring your tree home, make a fresh cut about one inch from the bottom.** Then place the tree in a sturdy stand and add water. Trees can absorb as much as a gallon of water in the first 24 hours. After that, the tree will need one or more quarts of water daily.
  - **If you don’t plan to put your tree up as soon as you bring it home, it’s a good idea to put the tree in a bucket of water.**
  - **Always set your tree away from heat and drafty places.**
  - **Be sure light cords and connections are working properly, and remember to always unplug the Christmas tree lights before going to bed or leaving the house.**

Christmas Trees Offer Fragrance—and Oxygen
(NU)—Buying a real Christmas tree
does more than bring fresh fragrance
into your home—it bolsters an industry
whose product helps make the air
breatheable.

A single acre of Christmas trees, most
of which are firs and pines, produces
enough oxygen to support 18 people
every day, according to the National
Christmas Tree Association.

With about 1 million acres planted on
farms in all 50 states with Christmas
trees, the industry produces enough
oxygen every day to serve the
requirements of 18 million people,
according to the NCTA.

Trees' ability to convert carbon dioxide
into oxygen has even made them part of
legislative efforts in Congress to deal
with global warming and clean air
problems.

Some members
of Congress have
proposed legislation that
would permit
companies to
meet some of
their clean air
requirements by
planting trees of
different kinds either in
the United States
or around the
world.

But even the sea
of Christmas trees
benefit. Because it
takes 16 years for such
new trees are planted
every year.

Younger trees produce
than older ones, but the
rates of growth and the
trees are planted.

Natural Christmas trees
serve beneficial because
power lines, on top
of other marginal land
and can help anchor it so
it easily washed away.

Some members of Congress have introduced legislation that would permit companies to meet some of their clean air requirements by planting trees of all kinds either in the United States or around the world.

But even the seasonal nature of Christmas trees provides a year-long benefit. Because it can take from four to 16 years for such trees to mature, three new trees are planted each year for every one cut.

Younger trees produce more oxygen than older ones because of their rapid rates of growth and photosynthesis, the tree experts say.

Because natural Christmas trees will break down biologically after they are discarded, there is no waste or landfill problem.

Christmas trees also help prevent erosion because many are grown under power lines, on top of old dumps and other marginal lands where their roots can help anchor the soil so it won’t be so easily washed away.

Christmas tree recycling ideas include:
• Place it in your garden, after the holidays, for use as a winter bird feeder and shelter. Use orange slices and bird food to attract the birds to begin with.
• Remove the branches and use them as mulch in your garden.
• Many communities also gather trees for use as mulch. Call your department of public works for information.
• Contribute your tree with others to create sand and soil erosion barriers, especially on exposed areas like beaches. Call your local conservation club for more information.

After the Holidays, Give Your Tree a New Life

(NU)—Even the best things in life can fade . . . even your Christmas tree. What once was vibrant and green can die and turn brown. But the bright symbol of the season can have a new life after the holidays if you recycle it, says the National Christmas Tree Association.

Christmas tree recycling ideas include:

Creating A Unique Christmas Tree

A decision to change the appearance of your Christmas tree could translate into a pretty expensive undertaking. However, there are many options available to create a unique tree without spending a lot of money.

One option is change the crowning ornament by creating a fabulous 10-loop bow using the glitziest ribbon you can find. You can easily design this by making two bows with five loops and then wiring them together into one. Leave the two tails of the bow 1½ times as long as the height of your tree so that it can be used as a garland. Tuck it in and out through the branches instead of wrapping it around the tree for a more subtle, elegant design.

Another decorating tip is to purchase dried eucalyptus and baby’s breath to break branches past their pastel or green theme. These can be reused in the future or used for early Christmas decorations.

Another decorating tip is to purchase dried eucalyptus and baby's breath and wire them into the branches so that they extend past the tips of the tree branches. These same dried flowers can be recycled after Christmas and used to decorate your home.

Children can also get involved by gathering pine cones and painting the tips silver or gold. Twigs from birch trees or grapevines can also be collected and wired together to make a garland appropriate in length for your tree.

With a little ingenuity, there are many creative and inexpensive solutions for a unique Christmas tree that the whole family can enjoy.
