UI dorms: Five-star living?

Regents plan to give final approval to UI residence hall rate increase

Joey Dow
The Daily Iowan

Despite a proposed $180 increase, Iowa's rate increase was lower than the biggest hikes in the Big Ten.

The Iowa state Board of Regents is likely to approve today a 8.9 percent increase in dormitory rates for 1996-97. A room-and-board per-semester board plan would cost students $4,466.

The UI currently boasts the lowest on-campus room and board increase among Big Ten Conference universities, and this year's increase will probably set new rates for the UI in the Big Ten and most other residence services.

If proposed increases at other conferences are realized, Big Ten institutions are passed, and the UI officials attempt to balance the budget, the $4,466 charged will still be the lowest.

"We try not to ruin a lot of our residents," Van Os said.

Names of possible provosts revealed

Gary Sassen
The Daily Iowan

The provost is the UI's highest academic officer and reports directly to UI President Mary Sue Coleman. The successful candidate will coordinate the university's academic programs, coordinate recruitment of faculty, oversee student services, and counsel the university's provosts.

Tenants forced out of condemned building

John Hunter
The Daily Iowan

The condemnation of a 21-unit apartment building at 107 Jolm St. in Burlington has left 11 tenants homeless. They will have to find new places to live.

The building's owners, the Burlington building, which also has served as a bank headquarters, said they will lose $166,000 if it is torn down because of the cost of abatement.

Tenants were served with eviction papers Monday, and the building will have to be rebuilt or demolished by Dec. 1. A representative of the State Fire Marshall's Office found

I.C. heroes set to bear Olympic torch

Chad Graham
The Daily Iowan

The Olympic torch - which began its journey in California Sunday and will arrive in Iowa City today - will travel through Iowa City at the end of this month.

Beginning at 5:34 p.m. on May 28 in San Francisco, the Olympic torch will make its way up through the United States and Canada before reaching Iowa City.

The carriers are UI wrestling Coach Dan Gable, Iowa City historian Young Werder, graduate resident Richard Schnied, Iowa City resident Mary Stewart, Joan Vlandenberg, Dean Messer, Tom Chad, Chuck Milligan, and Jeffrey Weimer and Williamsburg resident Lucie Schwer.

The carriers will be working at the UI until early fall.

Butler Brothers, a communication studies enforcement professor, will become the second torch bearer, and the torch will be passed on to Tom Chad, a professor of communication studies.

When "I moved in I realized it was an old building and it needed modernization. Everyone's a little shocked it has come down to this."

Tobin Schott, who signed a lease to live in the row house in early April, said he found out about the building being condemned the day before he was to move into his new apartment.

He said the tenants have received numerous life safety violations regarding fire warning and exiting signs to the building, indicating a possible danger to residents.

"I'm not sure what we're going to do," Schott said. "We aren't sure if we'll be able to go back to the building or if we'll be able to live in the building at all."
Iowa
Air Force takes wraps off secret spy plane

Robert Burns
WASHINGTON — The Air Force on Tuesday unveiled a unique plane that could fly close to a battle front.

The Air Force provided color photos of the plane at a news conference.

TACIT BLUE and other secret projects that military programs had ever undertaken for years about the existence of "Aurora," but that plane — dubbed "Aurora," but that plane — was not an upside-down bathtub with stubby wings, as some thought.

TACIT BLUE was meant to carry any weapons.

The plane was built between 1980 and 1982 at the Hawthorne, Calif., plant for a fighter jet larger than the F-15. It was believed the F-22 would never be able to fly higher or faster than the F-15.

The plane's secret mission was to go on public display at the Vasa Bridge and Chicago Post at 335-6063.

The plane was built between 1980 and 1982 at the Hawthorne, Calif., plant for an experimental jet larger than the F-15. It was believed the F-22 would never be able to fly higher or faster than the F-15.

I'm very happy at the UI. We have made some very important gains at the Health Science Center. I'm not looking to leave, but other things come up.

Herman Mannke, UI vice president of Health Sciences

"I've done a tremendous amount of things in his time here. Westfield said.

Laura Bellrane said. "UISG is reporting this because it's a plan that maintains funding, meets legal requirements and is consistent with the position as put forth by UISG administrators will work to detail the contents of the prepared Class III funding draft based on the position with the society since 1996."

"I'm not looking to leave, but other things come up."

Douglas Nichols, associate vice president for Student Affairs, said Mannke's position at the UI was named to stabilize the different areas of the health science campus, and the position is important for the health science campus.

Midwest storm leaves trail of damage

Margaret Lillie
Associated Press

Tornadoes caused the damage Tuesday in the
midwest, where hundreds of people who were
forced out of their homes by flooded waters that killed
10 people.

The storm system, which had dropped up to 8 inches of rain in
Illinois, Ohio, Indiana and Missouri, caused a dozen
people to be killed, though the number of injured was
greater.

"You've got to go on with it,"

Business owner Donald Bechter, who estimates storm
damage to his store at $100,000

Donald Bechter watched as workers fixed the
hailstone-sized damage to his fireworks company outside
Davenport, Iowa, which was struck by hail
whipped up to 110 mph. Hail and "broken glass"
scattered around his store, Bechter said. He estimated the
damage at $100,000.

In Des Moines, Des Moines County, a couple of days,
there was reportedly no damage to the areas hit by the
storm. In Mississippi, the Mississippi and
Mississippi River were supposed to crash over.

Children in modest play with each other in boats along the
Mississippi.

In State Park, Iowa, Sunday. The town, flooded by an
overflow from the Mississippi River, had up to four feet of
water in some spots.

In Missouri, three people drowned in a
month-old who wandered into a
waterway. In Missouri, three
people were taken to the hospital
with head injuries. In Missouri, three
people died in weather-related
accidents. In Missouri, three
people died in weather-related
disasters.

Iowa repainting and water irresponsible. "I would have rather lived in a tiny hole in Coralville than try to see the building." said Margaret Silber, who moved in last week. "Since Iowa has been realigned. the option remains cost-effective and the Iowa City torch visit. The plans for the torch's Iowa City stop were nearly filled to capacity this year, and Van Oel said she expected a similar situation when residents of the apartments in the health sciences. participed in several public symposia concerning the university's role in public service and involvement in civic life.

Another big project this summer will be the addition of a card-access system in Burge Residence Hall. The system will require residents to enter the front doors with a card before going in and out. "Iowa 150 bike tour. The road between Chicago and St. Louis will cease to exist as a 24-hour residence hall. "Technology can sometimes be a bad thing," said Tobin Echolt, who signed leases for apartments.

The flame left Los Angeles last week in front of 1,500 people, but the torch comprosed to move in on Aug. 1, 1996, and Van Oel said she expected to have it before total implementation, she said.

"There is no real harm, but I didn't expect it to get as big as it did," she said.

"I was part of a group of Iowans who were nominated by people who rode the torch's two-hour visit to Iowa City last week. We were just thinking it's ridiculous that they've had people sign leases to move in on Aug. 1, and I didn't expect it to happen."

The city of Iowa has issued a 'condemnation' to the building, and residents have been given notice that they must vacate the premises. The city's housing department has been contacted, but residents have not been given any information about their options. "Since we're not sure when the building will be condemned, some residents have decided to stay in the building until it is condemned," said Margaret Silber, a resident of the building. "We want to make sure that we are treated fairly, and that we have the right to stay in the building until it is condemned."

"If we can stay here until the building is condemned, we will be able to keep our community intact," said Silber. "It's important to us to stay here and continue our lives."

"Technology can sometimes be a bad thing," said Tobin Echolt, who signed leases for apartments.

Liberation unifies for mass funeral

Greg Myers
Associated Press

QANA, Lebanon — With sheets of grief filling the air, 60 women collided over a spreadsheet to assess the casualties of a terrorist attack on a church and a soccer tournament nearby. The women were part of a group of women who had joined together to form the Ladies of Lebanon, a group of women who had been united to form the Ladies of Lebanon in a mass funeral in the capital city of Tyre, marking a collective memorial for the women among Lebanon's Muslim and Christian women. Israel's 10-day offensive against the Shi'ite Muslim guerrillas of Hezbollah on the first day of the conflict, resulted in a massive wave of grief and political division.

While Qana was the site of the attack, more than 60 women and children died in the April 15 attack, Israeli forces and Lebanese guerrillas had their first serious exchange of fire since the conflict began. The attack was largely a show of force by Hezbollah, which has been designated a terrorist organization by the United States and other countries.

Carnage in Tasmania recovered by survivor

Geoff Spencer
Associated Press

BOBRART, Australia (AP) — When the shooting started, Dennis Olson crawled through the chaos and ran outside. He aimed his 9mm pistol at Mary, still lay on the floor inside the café. What happened started to sink in.

"I looked into the restaurant and saw bodies lying all over. My wife was dead," Olson said.

He, a delivery driver from Vancouver, Wash., talked about how a 25-year-old man identified by police as Martin Bryant slaughtered 30 people with a high-powered rifle in a Patco Airport terminal 30 miles south of Hobart.

"I don't understand how he and his wife could have killed all those people," Olson said.

The Associated Press

Dennis and Mary Olson of Van- cover, Wash., shown in their wedding photo takes three years, survived the shooting carnage in Hobart, Australia Sunday. The Olsons were in Australia on vacation and were waiting in line to buy sandwiches when a gunman began a rampage that claimed 31 lives.

"I thought something like a fireman crashed through the room. My wife laid flat on her stomach. I crawled up to the counter, the other man said: 'It was really quiet because I thought something like a fireman crashed through the room. My wife laid flat on her stomach. I crawled up to the counter, the other man said: 'It was really quiet because I couldn't get up to survive.'"

Mary Olson, who hid behind the partition throughout the massacre, her clothes caught fire. He was charged with 30 counts of murder and two counts of attempted murder.

Public Symposia with UI Provost Candidates

FRIDAY, MAY 3

K. Boy Weitzenbach, Professor of Economics, Duke University
8:30 - 9:30 a.m., Alumni Room, Iowa Memorial Union
"Research Graduate and Professional Education"
10:00 - 10:30 a.m., Alumni Room, Iowa Memorial Union
"Discourse Dining: Shakespeare"
10:30 - 11:45 a.m., Old Capitol Room, Iowa Memorial Union
"Undergraduate Education"
11:45 - 12:20 p.m., Alumni Room, Iowa Memorial Union
"The Health Sciences"
12:20 - 1:00 p.m., Old Capitol Room, Iowa Memorial Union
"Undergraduate Studies"
1:00 - 1:30 p.m., Room 283, Schmitt Medical Research Building
"The Health Sciences"

Individuals with disabilities are encouraged to attend all University of Iowa sponsored events. If you are a person with a disability who requires an accommodation in order to participate in this program, please contact the Office of University Relations at 319-335-0571.
Who’s bored?  

When I told my friends I was going to the United States to do an internship, they were excited. But when I asked if I was going to Iowa, they were shocked. “Why?” Many of them didn’t even know where Iowa was. So, I had to explain. They were determined to find a fault with the weather, the food, or the location of the university. The fact that Iowa is a Midwestern state was like a crime. But I was determined to show them otherwise. To the contrary, I found Iowa to be a delightful place to live. The weather was mild, the food was good, and the people were friendly. I loved the way the small towns looked. The architecture, the layout of the towns, the people. It was like a dream. I was home. I had found my place.}

Quiet life  

By the time you read this, I will already be back in London. Most of my classes have ended, and I am currently at the University of Iowa to work as a writing consultant. It is a challenging job, but it is also enjoyable. I have a small office, and I am able to work quietly. It is a great place to write. I have a desk, a chair, and a phone. I have a computer, and I can access the internet. I can type away as much as I want, and I can read as much as I want. It is a great place to work.

I am not sure if I will return to the United States in the future. I am not sure if I will continue to work as a writing consultant. I am not sure if I will continue to teach. I am not sure if I will continue to write. I am not sure if I will continue to work as a writing consultant. I am not sure if I will continue to teach. I am not sure if I will continue to write. I am not sure if I will continue to work as a writing consultant. I am not sure if I will continue to teach. I am not sure if I will continue to write.

It is important for those of us who are graduate students to “make it our own” rather than unquestioningly following explicit and hidden standards in our fields. In some of our fields, the rules are because we love learning and some for other reasons, but either way, all of us want to be happy with our lives, and struggling out over other people’s standards only alienates us from our work.

**Pistons provide little competition for Orlando**

Associated Press

AUBURN HILLS, Mich. — Shaquille O'Neal scored 33 points for the Orlando Magic on Thursday night, but it wasn't enough to beat the Detroit Pistons in a 101-98 loss in the third quarter of Game 3 of the NBA Eastern Conference finals.

"I don't think we had a chance," Pistons forward Dennis Rodman said. "They played better than us. They were more focused on the game." The Magic led the series 2-0 going into the game, but Detroit won 3-0 to force Game 4 on Saturday.

"I thought we were going to lose, but I didn't think it was going to be this bad," said Magic center Christian Laettner, who had 16 points.

The Daily Iowan

The Iowa softball team has a chance to take one more step toward winning the Big Ten regular season title today. The Hawkeyes host a doubleheader with Minnesota at 2 p.m. at the Hy-Vee Sports Complex.

"We've been pretty good at the plate this season," said Coach Renee Gillispie. "But we haven't been as good defensively." The Hawkeyes are currently in third place in the Big Ten, trailing Minnesota and Purdue.

**The Big Hurt**

Chicago White Sox slugger Frank Thomas watched his home run roll home run clear the center field fence against the Cleveland Indians on Monday.

"I thought it was a double," said Thomas, who had two hits and scored a run in the 6-5 victory. "I didn't know it was a home run until I saw it hit the fence."

Softball team looks to future with new recruits

Iowa softball team is coming off a season of heartbreak that saw it lose two recruits to national letters of intent.

Cory Winter of Sanger, Calif., and Alex Madison of Des Moines have signed to play for the Hawkeyes next season. The Iowa Press box and media area will be available.

"We have some young players that I think will do well in the future of their careers," Iowa softball coach Lisa Schmitt said.

WE WENT NOWHERE IN MINNESOTA
Playoffs lend new blood to Hawks' Laettner

Paul Newberry
Associated Press

ATLANTA — Christian Laettner looks like he's back in Chicago. The fist is pumping. The face is beaming. The body is doing its Sertan dance, a gait that would earn a smile, something that was unthinkable during the Hawks' 112-100 win over the Detroit Pistons in the Eastern Conference finals.

"I don't remember when I've had more fun playing basketball," Laettner said, covering his 26-point, eight-rebound performance in a 94-86 victory over the Indiana Pacers in the Eastern Conference semifinals.

Laettner was a force in the postseasons at Duke, leading the Blue Devils to national titles in 1991 and '92. But when he put on a Pirates jersey, he found himself on a team that had missed the playoffs for five straight seasons.

With every defeat, Laettner's patience diminished and his reputation as a whiner grew. Finally, after he brought the Hawks to within a win of an Eastern Conference title, the 6-foot-10, 225-pound center decided to move on.

Laettner shipped him to the Hawks in February. In Atlanta, Laettner has been here for the gourmet food, the city's art, the media, but he seems to be making a continued effort to match with his new teammates in a way he never did at Duke.

He's actually offering encouragement and hasn't complained about his absence from the starting lineup.

"I've made a conscious effort to be a leader," he said. "I'm glad to be on a better team.

The Hawks, who have a 3-1 edge in their best-of-series with the Pacers, are one victory away from advancing to the Eastern Conference finals.

"We're second in the league when we started this series," Bulls forward Scottie Pippen said. "We've been a lot of teams who outplay Chicago, but no one can come in there for a week in a row. They've outplayed the Bulls in three in a row all season, no one has run them this close. Bobby Knight center Alonzo Mourning couldn't do it, Michael Jordan couldn't do it, Laettner couldn't do it in Game 5. Laettner made up for the size disadvantage with pure basketball."
Brownie Jerry

Associated Press

"This is a big boost for baseball under the sun to get back to its best. We've been put up to the plate, and that's a good thing," Brownie Jerry, the pitcher. 

The Padres have been a confident bunch since opening day, and have proven it by going 27-9, tied with Milwaukee for the best start in the majors. That's their best 36-game start since 1979, when they went 24-12.

"This is a big boost for baseball under the sun to get back to its best. We've been put up to the plate, and that's a good thing," Brownie Jerry, the pitcher.

NEW YORK - Marli...
Wednesday, May 1, 1996

NEW YORK — In the early 1990s, when Barbara Walters was scoring behind the scenes as a writer for “60 Minutes,” ABC launched a campaign promoting its new “60 Minutes,” which Ms. Walters describes as “a personal memoir.”

As part of her career target of 20 years at ABC, a 30-minute retrospective airing at 8:30 p.m. on May 1, ANCHORAGE will explore the career of Barbara Walters in a special 90-minute retrospective on ABC.

She has interviewed such legendary stars as John Wayne, Audrey Hepburn, Bing Crosby, Elizabeth Taylor and Paul Newman.

Robin Roberts, the Bill Clinton, Richard Nixon, the Shah of Iran, Peter, Casper, Lawrence Goodhart, Don Atchison, Edith Harris, and the man Walters is described as the “most-time favorite interviewer, Anna Salter.”

Walters has little time for other news, though she acknowledges her colleagues’ efforts to improve the network’s evening newscast. It was a much-reported first attempt to improve the evening news.

The program, which Walters describes as “the finest interview program ever seen,” is an account of Jimmy Carter’s days as an aide, his time as a prisoner of war in Vietnam and the high-stakes negotiations with the Shah of Iran.

Walters also discusses Arafat, the Palestinian leader, and describes himself as a “personalized” person.
