UI Public Relations

An Iowa City native recently been awarded the Ronald McDonald Scholarship for Foreign Language Study. The scholarship of $4,000 is awarded annually to a UI undergraduate student to further their language studies. The student will have the opportunity to explore cultural differences and perspectives while studying abroad. The student will be required to share their experiences with the University community through a travel blog and a presentation upon their return.

Getting

Summer school classes help UI students graduate—sometimes even early.

By Becky Lane

The Daily Iowan

UI students often take advantage of the summer to graduate a year early. The plans to graduate a year early can come with a significant reward. The UI says students can save up to $12,000 in tuition and fees by doing so.

"The biology major has an open year in the schedule and a year off you want to work, with the exception of some students studying abroad in the fall or spring semester," said the UI's director of admissions, Emily Gurney. "It looks less complicated. ... And if you find yourself wanting to go back, we'll be here to welcome you back.

The US Student Leadership Council is taking on a new role as the student government organization. The council is responsible for overseeing the student body in both academic and extracurricular matters. The council has been tasked with addressing issues such as budget concerns, student safety, and academic integrity.

STAFF

The Board of Trustees of the University of Iowa is responsible for the oversight of the university. The board is comprised of eleven members, who are appointed by the Governor of Iowa. The board meets quarterly to discuss matters related to the university's operations, including budget, facilities, and academic programs.

POLICE

Police at the University of Iowa are responsible for maintaining the safety and security of the campus. They are responsible for enforcing university policies, as well as state and federal laws. The police department is comprised of hired officers and employees.

"It was a good day for us, and we're happy that the people of Iowa are back to school," said the University of Iowa's President, Bruce Harreld. "We're excited to see everyone back on campus and ready to learn."
Getting ahead with the books of summer

**Summer-school classes**

With school students gone—sometimes even early—

By Beth Law

The Daily Iowan

UI students who take summer classes are among the biggest beneficiaries of the academic calendar. Most summer classes are held online, allowing students to fit learning into their schedules. The advantage of online classes is that they can be taken at their own pace, which is especially helpful for students who need to make up for missed classes or need extra help with a particular subject.

**Fair shake**

Don't feel pressured to get ahead while you're home.

All students are encouraged to take advantage of the summer months to catch up on academic work or simply relax.

**Legal matters**

Seeking legal advice can be a daunting task, but it's important to make sure you understand your rights. If you are facing legal issues, consider consulting with a lawyer who can guide you through the process of handling your case.

When your landlord runs for president

We welcome back to the Paris of the Prairies, or the Pay-oh-pay-day, as we veterans call it, in our experienced, Upper-Midwest-French accents. You live here above it all, don't you? It comes with the water.

Dear Sue or John, yes, even if you didn't answer. Or maybe it's the other way around in these disembodied, post-electronic times, pretty much anything you type on one screen is read by someone on another screen in milliseconds, for minutes, for hours, for decades, for all eternity. Points: one for you, ja-jee, ja-jee. So much has happened since you've been gone. Dear leaders, the more they change, the same they remain.

On the last day of summer 2002, the world was a different place.

On the SPOT

On December 1st, 2002, the United States would begin its first of ten planned phases of the development of the National Missile Defense (NMD) system. As the world waited for the launch, a collective sense of fear and uncertainty gripped the nation. The NMD system was designed to protect the United States from incoming ballistic missiles, and its deployment would have far-reaching implications for international relations.

The market offers a variety of goods, including fresh vegetables, fruits, dairy products, and baked goods. Some of the vendors also offer ready-to-eat meals and takeout options.

**IMMIGRATION**

Continued From Page 1

The immigration issue is a hot-button topic in many sections of the state, but the bill draft reports offer no clear solutions or opportunities as an alternative. By the passage of a bill designating Congress, the state would not be able to control immigration or quotas, and the immigrants and Naturalization Service would remain under the authority of the federal government.

Although immigration reform is a complex issue, it is important to find solutions that benefit both the state and the communities affected. The bill draft reports need to be revisited and reformed to create a more effective solution.

**Gaffes keep boomeranging Down Under**

**With the Olympics just 100 days away, Sydney organizers hope the games go off without a hitch.**

By John Pye

**SYDNEY, Australia** - For Olympic organizers, the last month have been full of "bad decisions".

That's Australian for embarrassing gaffes.

But when champions写字楼 have Tower and Steve O'Neill re-appear at the Sydney Olympic tickets last month, organizers could look at the Sydney's first day easily on what they wanted the athletes to achieve.

And with the Sept. 15 opening ceremony for the games less than two weeks away, it really doesn't happen at a better time.

But Sydney is always in the news. Of course, the other two "hot" stories in the world.

Sydney Organizing Committee's (SOC) Olympic Games have been the news for years since the start of the site. People are interested in the organizing committee. We shouldn't be a spontaneous noise. People are interested in what happens. We can't blame them.

Gaffes should not be the end of Olympic organizers. Sydney's 1956-1957 Olympic Games have been full of "bad decisions".

The volley-balls are tall and lanky, the weightlifters muscular and squat, the gymnasts small and lithe, and the swimmers just a little too skinny.

The swimmers' physique at Beijing's top sports school are not unusual, said Bao, which focuses on all types of sports school. Bao says the students, arising in national and provincial events and constantly supplies fresh talents to national sports teams.

Economy. They ensure economic backbone of the country, identifying, separating and organizing the most talented athletes to ensure economic backbone of China's sports teams.

Elitist, definitely. Coldly and professionally. "But you have to accept it. To win a world or Olympic Games, you have to select the best from the best.

Williams and her family are preparing to move to Iowa this fall. They will be able to watch her compete in the world championships at the Hy-Vee Center."

"I'm very excited," said Williams, "I'm going to be in the best shape of my life."

"I'm looking forward to it," said Coach Chen Jiancheng.

Pierce certainly was hooked by a spectacular, spontaneous, improvisational, between-the-legs pass from her teammate right at the beginning of the match, and she never really looked back.

"I was just so excited," said Williams, "and I was really looking forward to this match."
Young's career in San Francisco may not be finished yet

By John Kraszewski

Steve Young calls the 49ers his "home team," but it appears that the team's quarterback will be looking for a new home next season.

Young, who has been with the 49ers for the past 10 years, has been one of the NFL's most successful quarterbacks. He has led the 49ers to three Super Bowl appearances and has been a two-time league MVP.

However, Young's future with the 49ers is uncertain. The team's management has expressed interest in bringing in a new quarterback, and Young's contract negotiations have been contentious.

Young is a free agent this year, and it is unclear if he will return to the 49ers. If he does not, it is likely that he will move to a new team to continue his career.

Young's decision will have a significant impact on the 49ers' quarterback situation. The team will need to find a replacement for Young, and this will likely involve trading or signing a new quarterback.

Regardless of his decision, Young has left a lasting legacy in San Francisco. He is a four-time Pro Bowl selection and has been named NFL MVP twice.

Young is a true leader on and off the field, and his impact on the 49ers cannot be overstated. He is a respected player, and his presence on the team will be missed.

Ultimately, Young's decision will determine the future of the 49ers' quarterback situation. The team will need to find a new quarterback to continue their success, and Young's legacy will be remembered for years to come.
