By Chris Knaul, John Dammenzwilli

The Iowa County Board unanimously approved on Tuesday night is to seek bids to sell the historic Demon House in the town of Orangeville.

The Demon House, located at the corner of Main and Broadway Streets, is considered a haunted house and is a popular attraction for tourists. The current owner, John Dammenzwilli, has decided to sell the property to pay off debt and pursue other business ventures.

Several interested parties have expressed interest in purchasing the Demon House, including a local real estate developer and a paranormalinvestigator. However, Dammenzwilli has stated that he is determined to find the right buyer who will respect the history and tradition of the property.

Dammenzwilli has expressed concern about the potential for the Demon House to be destroyed or altered, which could diminish its appeal to tourists and historic enthusiasts. He has emphasized the need for a buyer who will preserve the unique character of the property.

The Demon House has been the site of numerous paranormal investigations and claims of supernatural activity. Local residents and visitors report strange occurrences, including unexplained noises, cold spots, and apparitions.

The Iowa County Board is expected to announce the next steps in the bidding process in the coming weeks. Interested parties are encouraged to submit offers that respect the history and unique characteristics of the Demon House.
County ponders 'dumping' roads

BY GRANT SCHULZE

Johnson County will step into the lane with some preliminary road study outside administration in the fall, with the goal of seeking support to fund the $300,000 project.

At Tuesday's meeting of the Johnson County Board of Supervisors, Chief Engineer Frank Miller said the study would take approximately three months.

"It's a study we've been looking at for a while now," said Miller, who added that the $300,000 project would be on the agency's tentative budget for the next fiscal year. "The study will look at the potential for dumping roads, based on their condition and the need for maintenance," he said.

The study will look at the potential for dumping roads, based on their condition and the need for maintenance, according to Miller. The study will evaluate the feasibility of dumping roads, which involves the removal of the road surface and the underlying subgrade, and the replacement of the road surface with new materials.

"We are looking at the feasibility of dumping roads for certain roads that are in poor condition and need extensive repairs," said Miller. "We want to determine if dumping roads is a viable option for these roads and if it would result in long-term savings for the county."

Miller said the study will also consider factors such as the cost of the project, the availability of funding, and the potential for future maintenance needs.

"We are looking at the overall cost-effectiveness of the project," said Miller. "We want to make sure that the county is making the best decision for its taxpayers."
Bridges writer offers reward in arson

BY MIKE GLOVER

ASSOCIATED PRESS

WINTERBERG, Iowa — The manager who helped bring international attention to Madison County’s historic arched bridges has offered a $10,000 reward for information leading to the conviction of the person responsible for burning one of the last remaining covered bridges.

Robert Wallace, who sold 1992 for $10,000 selling tours of Madison County and movies of the same name, said he was sickened by the news that Cedar Bridge was destroyed in an apparent arson attack on Sunday night.

"I have lost an old and dear friend," he said. "Madison County should be instructed by the spirit of this person who could not be trusted, who could not be blamed, who could not be forgotten."

State agencies were reduced, but continued to do important work just as the bridge was destroyed in an apparent arson attack on Sunday night.

Afghan attacks highlight threat to govt’s

BY MATT KELLEY
ASSOCIATED PRESS

WASHINGTON — The United States has lost at least one civilian and another, Al Qaeda-linked, and the terrorist network responsible for the Sept. 11 attacks remains a threat despite 20,000 American troops dropped on Afghanistan in a war now costing $1 billion a month, U.S. and Afghan security officials and commanders say.

In addition to snuffing out bin Laden and al-Qaida, the attacks also are seen as a boost to the American military and its much-needed foreign investment. Washington is said to have recently pursued such a buyer. The United States has offered its support to the Taliban that Afghanistan's new government needs.

Even though U.S. forces are stretching thinner and thinner and killed or wounded, perhaps the most encouraging result of the attacks on Thursday will be to show the world that America can do something the United Nations, which is working to bring stability to the war-torn region, has been hard to do for some kind of an attack to restore some of the unity after the attacks of Sept. 11 on the United States and the Sept. 11 attacks on the sites of New York City. The United States has been hit by terrorist attacks.

The attacks Thursday were just the first of the attacks that the United States needs to get bin Laden is a major threat.

Some observers said that the goal of the attack was to get bin Laden and Al Qaeda's top officials. The United States is now trying to build up forces to the level of the initial invasion force.

There have been attacks on U.S. forces in eastern Afghanistan, where the United States has committed over 60,000 troops and has more than 100,000 military and special operations forces in the country.
The runner-up, Utah Law Professor Susan Karofsky, was chosen for the U.S. appeals court in New York, and she was quick to announces she would face trouble. McConnell expects to hold a hearing on Thursday to the White House that they called a reflexively pro-

She said they were sending a message to the White House that "we have come to the conclusion that, as a drug, it should be regulated by the state as much as we do for wine and beer."

It wasn't clear whether the chairman's proposal would become law. But it is nonetheless a signal to Canada and the United States about what they would do if they saw how similar narcotics traffickers operating on the border.

"With prohibition, we are creating a harmful drug, particularly for young women," said Eugen Kranzer, the director of the White House Office of National Drug Control Policy. "We are creating a market for the world's most tolerant countries."

CASRO, Egypt - Arab leaders met to discuss a mass demonstration in the Arab world against the Israeli attack on Iraq.

The leaders said they would call on the United Nations to organize an international conference to discuss the situation in the Middle East.

The Arab League, meeting in Cairo, called for an immediate end to the Israeli military action in Iraq. The Arab League said it would consider a resolution condemning the Israeli attack on Iraq after the meeting.

The Arab League has condemned the Israeli attack on Iraq and called for a cease-fire.

The Arab League said the attack was a violation of international law and a threat to peace in the region. The league called for an immediate halt to the Israeli military action and for a cessation of all hostilities.

The Arab League has called for an immediate halt to all military activity in the region.

The Arab League said it would work with the United Nations to ensure that the international community takes action to stop the Israeli aggression.

Arab League President Nabil el-Araby said the Arab League would seek an emergency meeting of the UN Security Council to discuss the situation.

Arab League Secretary-General Amr Moussa said the league would not sit idly by while Israel continued its aggression.

Arab League leaders said they would not allow Israel to impose its will on the region.

**Drought parches Nebraska**

By ROBERT E. PHRENE

*McCook, Neb.* — Everyone has a right to be concerned about the drought, but not everyone has a right to make it his or her full-time job. The drought, after all, is a natural occurrence, and we should not lose sight of the fact that people like Wilke are doing nothing to alleviate it.

Nebraska Gov. Mike Johanns, who has opened state parks to stately hunting, has also called on the federal government to increase the number of troops in the state. However, the state's citizens are worried that the federal government is not doing enough to help them.

Wilke, who is running for a second term, said the drought is hurting Nebraska farmers and ranchers. He said that the federal government needs to do more to help them.

One example is the state's water management system. The system, which has been in place for decades, is not working as well as it should.

Wilke said that the federal government needs to do more to help Nebraska farmers and ranchers.

However, the state's citizens are worried that the federal government is not doing enough to help them.

School drug testing violates rights

Our government has chosen to accept a fundamental change in our society, a careless attempt to turn our public schools into a drug police state. It is time to challenge the idea that drug testing as a method of drug control is necessary. We have a responsibility to fight for our children's rights that define our freedom. We have the right to be treated with respect and dignity. We have the right to be judged, not by a random test, but by our own choice, not by a random test, but by our own actions. We do not need to be treated as criminals when you test us. We do not need to be treated as criminals when you test us.

We are all members of the same community. Our community needs to be protected from the dangers of drugs. We should work together to create a safer environment. We should teach our children about the dangers of drugs. We should not make them pay the price for our mistakes. We should not make them pay the price for our mistakes.

Such an uncomplicated policy is an unwarranted invasion of privacy. Students fear the possibility that deeply personal information will be shared about their unofficial, nondrug prescription drugs that easily appear when a drug test is given. The government's goal is to unconstitutionally intrude into the lives and privacy of the young. What is the point? Is it to make us feel better about ourselves? Is it to make us feel better about ourselves?

I am a graduate student in engineering. I have worked with many other talented individuals who bless our community. I can share my contacts and experience with the students who are interested. I can share my contacts and experience with the students who are interested. I can share my contacts and experience with the students who are interested. I can share my contacts and experience with the students who are interested.

Drug testing is wrong. It is a violation of our basic rights. It is a violation of our basic rights. It is a violation of our basic rights. It is a violation of our basic rights. It is a violation of our basic rights. It is a violation of our basic rights.

My experiences in Johannesburg were wonderful. I was able to meet the people of South Africa that begin the peak of their development for the whole African continent.

I found the Netherlands, Belgium, and France last part of my fellowship experience. I'm back with a bigger picture than I've ever had. In the past 10 years, Americans have become more and more about global this and global that. We live in a world that is global and global to live in. I think that America's idea of globalization is that everything we do and we will only want to exist as a global, "global." How about some other things in Europe. Quantitative villages with their very own identity, small, sustainable villages, cooking together, and value-added products were the norm. While in the small, sustainable villages, our lives were better.

Middle East. Millions of Africans flock to South Africa. People - from people - from people - from people find their way to Johannesburg to be with their families. The summit has drawn many other talented individuals who bless our community. I can share my contacts and experience with the students who are interested. I can share my contacts and experience with the students who are interested. I can share my contacts and experience with the students who are interested. I can share my contacts and experience with the students who are interested.

Our high standard of living in South Africa that begins the peak of their development for the whole African continent.

An intro to nothing special with DJ DSTrackion

One hundred and twenty-three dollars and seventy-eight cents
That's what that made qui at the bank teller told me
I'm talking about — very perkily, with a smile
And what a beautiful day for the weather
Before she covered beneath a blazer with some to comfort us
She couldn't make eye contac t with you and me as she left
Later, you saw her at the Ame rican Bank
She stood behind you in line
She turned back and started to order your letter tail
You were in line
In order to enroll in Painting with the group
That's what you call it
It really is on the financial support gives you
In Van Gogh's case, it's his younger brother. This.

An 'idol' is born ...

BY ANTHONY BRENNICK

As you have heard, in Los Angeles there is an instant American Idol! "The Voice of everything — moments, exci ting —" Kelly Clarkson said and after she was selected as the nation's newest pop star on the Fox reality show "American Idol." Last night, an hour after the coronation, the 20-year-old Pennsylvanian boarded her plane in Los Angeles.

In the early stages, entrants were asked to perform a song of their choice, thus, then by the dozen, until only 4 remained.

Along the way, the Fox series became an instant hit of the nation's largest young audience.

More than 100,000 viewers tuned into the show. More than 1.3 billion watched the finale. Thanks to Clarkson and Guar da the show devoted a lot of its space to the power ballads.

When the over-the-hill finale featured a duet of "It Takes Two"...
Students awash in sea of plastic

By Nancy Zuckerman

WASHINGTON — More college students are racking up credit card debt, academics and policymakers said Thursday, as they urged Congress to do something about the problem.

"Often, it's their unknowing parents who end up footing the bill," Ellen Frishberg, a statistician at the Rochester Institute of Technology, told the Senate Banking Committee.

The proportion of students with five or more credit cards jumped from 37 to 47 percent in that period, the study found.

The Education Department recently found that more than 44 percent of college students carried a balance on a credit card during the 1999-00 school year. Among those students, the average credit-card debt was $3,004. It was the first year such data was collected.

Robert Manning, an economic sociologist at the Rockefeller Institute of Technology, told the senators that credit-card companies were increasingly marketing to freshmen, just juniors and seniors in 10 years.

"To a fair degree, the debt burden is going to them," Manning said. "It means that they later on are going to be affected, and we're going to see a rise in the delinquency rates because students who have debt problems in their senior years may not be able to find a way to financially tidy up the last two years."

He said some of the nation's academic institutions were contributing to the problem by switching from manuals to e-books, which greatly increased their reliance on credit cards. For example, the University of Tennessee has a seven-year, $150 million contract with First USA that gives the company information about the university's students.

Some predict higher college dropout rates as more students take on debt.

The National Household Survey on Drug Abuse is the largest study interviewing almost 60,000 people age 12 or older and including every state.

Timing and different methodologies often result in rough numbers among surveys.

"It is in the spring, the survey is throughout the 12-month period," in Lloyd Abraham of the National Household Survey on Drug Abuse.

By the spring of 2001, we found student drug use was at a level either of stabilizing or declining since 1998," Abraham said.

"We did show for the young adults a little increase in 2001 in illicit drug use other than marijuana, which was very dramatic."

There were some changes in methodology between the 2000 and 2001 Household Surveys. Although, the changes may have influenced reporting, the survey also found the changes did not change the magnitude of the number of people who would benefit from drug treatment.

More than a quarter of fifth-grade marijuana users are under 16. The survey also found the magnitude of the number of people who would benefit from drug treatment.

$500 Anytime Minutes for $39.95

You can call anyone in the US from anywhere in Iowa on the PCS Network, reaching more than 230 million people nationwide. With this PCS Free & Clear Area-wide Plan from Sprint, you get $500 anytime minutes +500 Night & Weekend minutes totaling 4,000 minutes for $39.95 per month. The price is valid every minute, every day, on all calls. This plan includes a one-year PCS Advantage Agreement.

49ers shock Giants in nailbiting season opener

IOWA AT MIAMI OF OHIO, 11 a.m.

Week 2 numbers: Iowa Hawkeyes at Miami of Ohio RedHawks

BY TOM CANAVAN

EASY RUTHERFORD — N.J. — What seemed like a sure-firing opening party for the NFL actually turned into a three-hour marathon.

Jow perked ticketed a 36-yard field goal with 25 seconds left to give the Giants a 24-21 victory over the New York Jets.

Judge Suzanne Melendez placed the hearing on hold until next week. It was expected to be held in the hearing room of the 25th floor of the Multnomah County Courthouse.

Student Byrom testified that he was charged with the murder of 15-year-old Brandon Yankie, who was killed in a shooting in Portland on March 12, 2002.

BY TODD BROMMELEK

Just because Iowa will become the first Big Ten team in football to play Miami University at home doesn’t mean the Wolverines will walk away with a win.

Taking on a ranked opponent overseas is always a high-stakes affair, and the league has done it before.

One of our goals this season is to get it done in the road, said the league on its website. That’s the reality of playing college football.

But the Wolverines appear to have all the right pieces in place to do just that.

The team is led by quarterback Tate Martinek, who has completed 63 percent of his passes this season.

Martinek is also a threat on the ground, having rushed for 488 yards and seven touchdowns.

However, the team has struggled on defense, giving up 44 points per game.

The Wolverines are optimistic about this weekend, but they know it will be a tough test.

"You've got to have an attitude that you're going to do whatever your opponent’s doing,” said coach Brian Harsin.

Ferris was not in attendance for the interview, which was conducted by Todd Brommefeld.

"Iowa and Wisconsin are two teams that we don’t play on a regular basis, but we do have an opportunity to get better every day," Harsin said.

BoSox slip in standings after loss to Toronto

BY RONALD BLUM

CHICAGO — Sox fans' visions of a third straight world championship quickly turned into a nightmare, as the Chicago White Sox were spoiled by the New York Yankees in Game 4 of the American League Championship Series Thursday night. The Yankees won 5-2, and are now a step closer to the World Series for the first time since 1998.

The series, once so promising for the Sox, is now tied 2-2 after the Yankees' dramatic win at Comiskey Park.

The Sox were trying to extend their lead to 3-1 with a win Thursday, but they couldn't overcome the Yankees' nine-run outburst in the first inning. The Sox scored three runs in the first inning, but the Yankees responded with four runs in the top of the second inning to take a 5-3 lead.

The Sox could not recover after that, despite some late rallies in both games.

The Sox didn't score after the fifth inning, and the Yankees took full advantage, adding three more runs in the eighth inning.

The Sox finished the series with a 3-1 record against the Yankees, but the win was too little, too late.

Rodriguez hit his second home run of the series in the ninth inning to cut the deficit to 5-4, but the Sox couldn't score again.

The series now goes back to Chicago for Game 5, where the Sox hope to force a decisive Game 6.

In the meantime, the Sox must regroup and prepare for Game 5, which is scheduled for Saturday at Comiskey Park.

BY JIM LITKOE

Ten years ago, baseball began on a note of optimism. The 1994 strike had dragged on for months, and fans were eager to get back to the ballpark. The game was in a state of transition, and fans were excited about the possibilities.

Some teams were trying new things, such as rotating lineups and using more subs. Others were experimenting with new rules, like the three-batter minimum, to try to make the game more exciting.

But the 1994 strike also left a legacy of uncertainty. The owners and players were unable to reach a new labor agreement, and the season was shortened by 46 games. The World Series was canceled, and the MLBPA dismissed its representatives from the field.

Despite the uncertainty, fans still showed up in droves to watch the games. Attendance was up by 10 percent from the previous year, and the television ratings were also strong.

But the 1994 strike also had its downsides. The players were left without salaries for months, and the owners were left without a product to sell. The game was in a state of flux, and nobody knew what the future held.

So, ten years later, we find ourselves in a similar situation. The owners and players are still negotiating a new labor agreement, and the season is threatened by a potential work stoppage.

But there's one big difference this time: the owners and players are not trying to kill the game. They are trying to save it.

The owners are trying to convince players that they need to make some sacrifices in order to keep the game alive. They are offering a new collective bargaining agreement that would increase player salaries and reduce the owners' control over the game.

But the players are not buying it. They are convinced that the owners are only interested in making more money, and they are not willing to sign a new agreement that would reduce their feudal status.

So, ten years later, we find ourselves in a similar situation as 1994. The owners and players are still negotiating a new labor agreement, and the season is threatened by a potential work stoppage.

But this time, the owners and players are not trying to kill the game. They are trying to save it. The only question now is: will they be able to do so?
Defending champion Scott Verplank finished off a bunker at the 18th hole during the first round.

IOWA

aces during the season’s opening tournament, The Daily Iowan. The Hawkeyes dominated the field, 16-0, while the RedHawks scored 21, and the RedHawks were far from finished. The Hawkeyes defeated the RedHawks for the first time in the 1939-40 season, according to The Daily Iowan. That wasn’t the case by the time the tournament started. The “joker” hasn’t hit the ground since Iowa began the season.

The Daily Iowan is published by The Daily Iowan, a student-run newspaper in Iowa City, Iowa. It is the official newspaper of the University of Iowa and covers news, sports, opinion, and other campus-related topics.

Defensive secondary rules for Wolverines

Michigan’s front four on defense also returns, with two of the best defensive linemen in the Big Ten, defensive end and linebacker Brian Hoke, highlighting a strong group of players. Wolverines with an experienced linebacker in Ronny Johnson, who was an All-American last season.

Michigan’s defense is expected to be one of the best in the Big Ten, with several returning starters from last season. The Wolverines return ten defensive players from last season, including senior linebacker Tyree Kinslow, who was an All-American last season. The team also returns senior defensive end Adrian Clayborn, who was a first-team All-Big Ten selection last season.

The Wolverines are expected to be one of the top teams in the Big Ten, and they will be a favorite to win the conference.

The Daily Iowan, a student-run newspaper in Iowa City, Iowa, covers news, sports, opinion, and other campus-related topics.

Hawkeyes not underestimating Miami of Ohio

The Hawkeyes are not taking Miami of Ohio lightly. The RedHawks are coming off a 16-0 loss to the Hawkeyes in the first meeting of the two teams in 1939-40. The Hawkeyes won the game 57-21.

Old beats new as Sampras takes out Roddick

BY HOWARD FENDRICH

NEW YORK — As Pete Sampras pumped his fist to acknowledge a volley winner that clinched his second U.S. Open title, Richard Roddick looked like the younger man. Roddick had already acknowledged that his idol had won yet another U.S. Open championship.

This cross-generational rivalry was on display all match.

Frenzied crowds at over 100 mph, covering every inch of the court, Sampras looked like the younger in Thursday night’s U.S. Open quarterfinal. He also looked like the older man at Saturday night’s U.S. Open semifinal.

The older southpaw is Andy Roddick Against defending champ Roger Federer, Hewitt, notched another dual between a 30-something and a 40-something.

While the men were history today, the women will play their semis-finals, with Venus and Serena Williams battling to set up a third-straight all-U.S. women’s dual final. Venus, the tenacious defending champion, faces Ana Ivanovic, followed by Serena against Lindsay Davenport.

Arthur Ashe Stadium was filled to capacity of nearly 30,000 seats for Sampras-Federer. It was packed for Sampras-Roddick but that didn’t quite live up to the grandstand billing.

To put it simply, Youth was served. And served, and hit and lost-out about everything.

Roddick had 13 aces and 36 unforced errors. He battled for his first tiebreaker, which ended when Gonzalez’s backhand forced the two-time Open champion to tip the ball behind the baseline.

Lewis: Contender doesn’t offer enough of a challenge

BY TIM DUNGER

Lennox Lewis will go up one of his heavyweight titles rather than fight mandatory challenger Chris Byrd, claiming that Byrd offers him no great challenge and that no one wants to see the fight anyway.

Lewis’ decision to give up the IBF version of the title means the heavyweight championship will likely be further fractured, though the public probably recognises him as the legitimate champ.

Lewis makes the point he is the favourite for a fight against the Ukraine’s Vitaly Klitschko, who hasn’t seen the best of me,” he said.

Lewis made the comment to reporters after he arrived in Ghana for a 10-day tour. He was there to work for a decade,” Greenburg said. “The IBF champ has consistently made the point that I recognize him as the legitimate
