Pierce focus of police probe

Officials say the Hawksay guard might face several charges, including assault with intent to commit sexual abuse.

BY JASON BRUMMOND AND TRAIL FINCH

Pierce, a 20-year-old UI student, could face charges including assault with intent to commit sexual abuse.

The case was reported to the Iowa City Police Department on Monday. Pierce could face up to 10 years in prison if convicted.

Pierce faces charges in connection with an alleged incident involving a female student on the UI campus.

The incident was reported to the police on Monday, and the investigation is ongoing.

Pierce is a UI student and a member of the UI Student Affairs staff.

Pierce is currently enrolled in the UI College of Liberal Arts and Sciences.

Information Director Phil Haddad said that Pierce has been placed on leave pending the outcome of the investigation.

Pierce's attorney, Alfredo Paniagua, was not immediately available for comment.

Nurse practitioners step into health gap

A growing number of nurses are training to be nurse practitioners, who work in underserved, often rural areas — and nursing schools are taking notice.

BY DREW KERR

Manhattan, Iowa — UI graduate student Noelle Mundt feels the pressure of being a nurse practitioner.

Mundt is one of a growing number of UI students who are training to become nurse practitioners.

Nurse practitioners are registered nurses who have completed a master's degree in nursing and are licensed to practice medicine.

They are able to diagnose and treat patients, order and interpret tests, and prescribe medications.

The program is designed to prepare nurses for leadership roles in health care.

The program offers both full-time and part-time options, and students may choose to specialize in areas such as family practice, pediatrics, or geriatrics.

Tribute to Hughes opens Black History Month

BY JOCelyn JONES

The month of Langston Hughes' poetry reigns in the Theatre Building lobby for three hours on Tuesday afternoon as UI students and faculty gather to read his lyrical verse in the nation's Black History Month

The program, hosted by the UI Department of African American Studies, is part of the Black History Month celebration on campus.

The program features readings of Hughes' poetry by UI students, faculty, and staff, as well as a panel discussion on his life and work.

The event is open to the public and is free of charge.

Theatre building: 11 a.m. - 2 p.m., Tuesday, February 2, 2021

UI Theatre Building, Iowa City, IA

For more information, contact the UI Department of African American Studies at 319-335-3689 or africanamericanstudies@uiowa.edu.
Council OKs vote on student rep

BY KATE MCCARTER

The UI Student Government meets three times a week in order to give students a place to voice their concerns and make suggestions for what they would like to see changed on campus. The Student Government has worked hard to make sure that the students have a say in the things that affect them the most.

We should be grateful to the Student Government for their hard work. They have done an excellent job of representing the students and listening to their concerns. The Student Government is a vital part of the University of Iowa community and we should all be proud of what they have accomplished.

I would like to thank the Student Government for all of their hard work. They have done an excellent job of representing the students and listening to their concerns. The Student Government is a vital part of the University of Iowa community and we should all be proud of what they have accomplished.

Democrats condemn Gonzales

But Democrats in the Senate say they won't try to block the White House counsel's nomination

By DANA MILBANK

WASHINGTON — Senate Democrats angrily denounced Attorney General Alberto Gonzales on Wednesday for allowing the torture of detainees in Iraq, but they vowed to support his nomination to be a Supreme Court justice, avoiding a politically risky fight in an election year.

Democrats said the White House counsel's conduct that led to the torture scandal was incompatible with the job of the nation's chief lawyer. They said Gonzales was not only responsible for the torture, but also for the manner in which he and the administration handled the Senate's investigation of the torture.

State

Budget to rise 3% DES MOINES (AP) - Gov. Tom Vilsack's 2006 budget plan, derided by Republicans as excessive, would increase spending by just 3 percent and would replenish some reserve accounts, including the state's rainy-day fund and the Senior Living Trust, a state budget analyst said Tuesday.

The governor's proposal totals $4.97 billion, up 10 percent from fiscal 2005 spending of $4.5 billion. Republican lawmakers immediately seized on the figure, portraying the governor, a Democrat, as a big spender. However, Dennis Prouty, the director of the Legislative Fiscal Bureau, said actual new spending would increase by only 3 percent. He arrived at that figure after factoring in Medicaid costs and property-tax credits that lawmakers left out of the budget last year.

Vilsack's plan also would fatten the state's rainy-day account. depleted during the budget crunch to pay for other programs, to $285 million approximately 6 percent of state spending, almost double the national average for such funds.

He also would replenish the Senior Living Trust Fund, which was set up to help the elderly stay in their own homes but was raided to pay for Medicaid and other programs. His budget would send $49 million to help shore up the fund at the end of next year.

EASTWOOD DELIVERS,
but only a $500,000 baby

Dramatic but not especially profound, Million Dollar Baby is an admirable effort that may not knock you out

I'm not suggesting that Eastwood's latest outing isn't an admirable effort. The performances are uniformly solid, the story is quite touching, and that last shot is actually one of the most perfect and thoughtful moments in the actor-director's accomplished career.

From a visual standpoint, Baby is also full of beautiful little wonders. Whether we're watching poignant conversations bathed in moody light and shadow, or scenes that reflect a world estranged from apes-like tension, there is something sweet in the Faulkner/Rockwell-esque imagery.

Eastwood plays the character he always does best: a wise, world-weary curmudgeon with a heart of gold and a dark, guilt-ridden past. As Frankie Dunn, an aging fighter trainer and gym manager, Eastwood reluctantly takes a young woman under his wing. The girl, Maggie Fitzgerald (Hilary Swank), is aisty waltz who wants to leave box and escape the shadow of their kill- briefly family. Morgan Freeman plays Frankie's old buddy Eddie "Scrap-a-long" Dugan, an ex-fight-
er who now lives in the gym and helps run the place.

Yes, Baby is about how this pair of hard-edged gritty hands shows Maggie the ropes, but it's less concerned with having the scene move than with building a group dynamic among the three main characters. We spend most of our time listening to dialogue and exploring their personal histories rather than do the big matches in the ring. Frankie, in partic-
lar, is examined as a good, flawed man who sees his new trainee as a chance for redemption.

That's all fine and dandy, but I was still left feeling somewhat unsatisfied when the credits began to roll. For one thing, the characters are pretty familiar. Maggie and Frankie are basically reduced to greatness (Maggie's family, Frankie's prison, the other hand), Eventually, the story takes a tragic and potentially controversial turn, but this plot development isn't particularly surprising if you've been paying attention. Baby is moving, but not over-
whelmingly so. It's dramatic, but not especially profound. Audiences are sure to feel some- thing to appreciate in this mos-
terpiece of talent, but it's not a film that will win any major awards.

It's also not a film that will win any major awards. The film is a fine piece of craftsmanship, but it's not a film that will win any major awards.
Russia reasserts Mideast role

Moscow is prepared to play a part in bringing stability to Iraq

BY KM MURPHY

TORONTO — Russia has had grandstanding congratulations this week over the election of Mahmoud Ahmadinedjad, but President Vladimir Putin is making it increasingly clear that the Kremlin does not intend to let the United States dictate the future landscape of the Middle East.

In meetings with leaders of Syria and the Palestinian Authority in recent days, Russian officials have made their nation’s historic role as a counterweight to American diplomacy in the region and hinted that Moscow, which opposed the U.S.-led invasion of Iraq, is prepared to play a role in bringing stability to the troubled nation.

“Moscow is ready to play a role in the Middle East,” a senior Russian official said Monday after meetings with Palestinian leader Mahmoud Abbas.

“We realize that there is a great deal of work ahead both to ensure stable conditions for life in Iraq and to restore full sovereignty. Russia welcomes this event, and we will do all we can to bring about settlement in and around Iraq,” he said.

But even as Moscow extended an offer of help in Iraq, it has been quietly lining up its own initiatives with Middle Eastern nations that have been the target of U.S. criticism for supposed support of terrorism.

Over the past few weeks, Russia has moved to create a plan to continue supporting Iran’s controversial nuclear power program, is determined to remain an active partner in the Arab-Israeli peace process, and may soon be looking at an East-West role of helping Israeli Arabs and Jews to continue making efforts to live together in peace.

The fact that the elections took place is a great event, perhaps even a historic event for the Iraqi people, because it definitely does mark a step toward democracy in the country,’” — Russian President Vladimir Putin

Canada takes another step toward legalizing gay marriage nationally

BY MAGGIE FARLEY AND ANDREW VAN VELZE

TORONTO — Canada’s government introduced a bill Tuesday to legalize same-sex marriage nationwide, describing it as a crucial protection for minority groups deep divisions over the issue.

“The government cannot, and should not, pick and choose which rights it will defend and which it will ignore,” Prime Minister Brian Mulroney said in a ceremonial ceremony in Ottawa after presenting the bill. “I appreciate the merit, sometimes even the enigma, that some Canadians feel, but I appreciate as well that many Canadians feel we are at a crossroads.”

Public opinion polls show that Canadians are divided, and a slight majority support same-sex marriage.

“The government cannot, and should not, pick and choose which rights it will defend and which it will ignore,” Prime Minister Brian Mulroney said in a ceremonial ceremony in Ottawa after presenting the bill. “I appreciate the merit, sometimes even the enigma, that some Canadians feel, but I appreciate as well that many Canadians feel we are at a crossroads.”

Prime Minister Paul Martin said that because courts have already ruled that Canada’s 15 provinces and territories are obliged to ensure that there were no discriminatory aspects in the remaining areas of the country. The new legislation defines marriage as a civil union between two men or two women, regardless of the current definition of marriage in the provinces.

In December, Canada’s Supreme Court ruled that excluding homosexual couples from marriage laws and marriage registration acts contravenes Canada’s Charter of Rights, and the ruling was hailed as a “landmark in the fight for equality.”

If the measure is passed today, Canada will become the third country, after the Netherlands and Belgium, to permit same-sex marriage. A number of other countries recognize same-sex couples but do not require them to register their relationships.

In an effort to define marriage in a way that is acceptable to all groups, the bill explicitly states that religious officials who disagree with the new law will not be compelled to perform marriages.

Chicago's finest commit together

Barrington's Dan Doering, Lockport's Jake Christensen, Wheaton's Tony Moeaki and Dace Richardson, and Bolingbrook's Ryan Bain all sign to be a part of the Iowa football's 2005 recruiting class.
COACHING SPRING CHICKENS

The men's tennis team this year enters with NO SENIORS on squad

BY BRYAN BISHOP

Huston has been coaching for 24 years. With a team that's not very good, but you have to keep on recruiting all the time, he said.

"You can't just go out and find a team that's ready to win," he added. "You have to put in a lot of hard work to get the team into shape."
CHRISTIE'S FINEST CONTINUED FROM PAGE 18

"He wouldn't mind taking a redshirt, but said playing his first season isn't going to hurt him. "I have many of the biggest upside of Iowa's class because of his presence on the line, and he has been listed first on the depth chart at Iowa."

"I can't contribute," he said. "I feel that for defense linemen and not only the best in the Big Ten but also the best in the Big Ten."

"I just feel that he's the best in the league. He's the best in the league. He's the best in the league. He's the best in the league. He's the best in the league."
Freshman basketball player Krista Vandeventer has started all 19 games, proving she made the right choice when she came to Iowa over Vanderbilt despite signing a nickname with the school.

By Ted McCarran

At the time, Iowa's chances of landing Krista Vandeventer were the slimmest of the 2004 Miss Minnesota basketball runner-up, basket blocker.

You see, Iowa coach Lisa Bluder stepped into one of Vandeventer's volleyball games only to find the team losing and the score was 15-0. The Iowa Hawkeyes were about to lose another game when Vandeventer stepped up and didn't look back, ever since, Bluder thought. After last year's loss, Bluder's team started to fell at Vanderbilt. Bluder said: "Krista is everything you look for in a basketball player. Against Vanderbilt, it was a little too overwhelming for her because she hadn't been in a big situation before." The perennial basketball power in the Van- deventer household had grown in the Van-deventer family. She was always the last to make a basket, but the last to shoot, because she didn't want to shoot. And when she grew up shooting it in volleyball games when she still hadn't decided. We didn't think they were going to come in the games, since she couldn't do anything by herself, Bluder said. "We wanted her" she was the only one to win on the whole in the recruiting war.

On Thursday, the Osseo, Minnesota, native had heard that Todd Land O' Lakes to take on the chance to play in the Iowa Recruiting camp. But the day after she signed with Iowa, the Minnesota Golden Gophers offered her a scholarship. But Vandeventer's contribution this season to a team that hasn't been in a Big Ten Tournament isn't the least of her contributions. Statistically, she leads the team in rebounding, assists, steals and is fourth in scoring with 10.9 points per game. She had a career-high 14 rebounds in Iowa's overtime comeback victory over Creighton on Dec. 10, one of the most important games of the season.

"When we're in the thick of things and we need a rebound, she's there to go get it for us," Bluder said. "Krista can guard anybody on the floor outside the point guard. She's surprisingly quick on the perimeter in defense.

"She just goes in to play. She's a pure basketball" senior center Jamie Casev said. In Iowa's loss at Purdue on Jan. 23, Vandeventer had two offensive rebounds in the last five minutes, got fouled, and made her free throws. The pace she displayed down the stretch was far from jitters for freshman often dealt with in close games.

"I don't know if she ever really played like a freshman," Bluder said when she came in, she came with a different mentality level, Bluder said. "She knows she's right. She doesn't say a lot, but when she does say something, the rest of the team really listens, and they value her opinion.

And Bluder thinks Vandeventer is one of the Big Ten all-freshman team. "I think that she doesn't get enough attention for what she's accomplished on our team," she said. And the freshman contribution leadership as well. Casev said Vandeventer wouldn't hesitate to give the senior advisor, point-guard, and mentor.

"Well all at the bench someti- mes, and it all comes down to her and we're going to win," Casev remembered. "She's awesome. But there are times that Van-deventer's teammates make me a college kid who sits all freshman off the court, too. "You can't tell what she's thinking, but she's doing something good things," Casev said. Totally interacting totally what a freshman would do. "But then she's got to start trying to lead the team." E-mail Krista Vandeventer at kvande@iowastate.edu.

Els doesn't see Woods being as dominant again

By Dennis Passa

Melbourne, Australia — Rory McIlroy didn't play as well as Tiger Woods on the course during the Match Play Championship, but the 19-year-old Northern Irishman said on Thursday that he believes he has what it takes to challenge Woods for the No. 1 ranking this year.

"He's been the dominant player in golf the last few years," McIlroy said. "But if you look at the last tournament, it was a different game. In that tournament, he was playing better and more confidently. But the only thing that will be different is that he's going to have other people that will be better at him. I think that he is going to be dominant again, although I might be wrong.

Els kept his foot down with Sunday's win in the match play competition, but he's facing a more challenging field in the WGC-Match Play Championship at the Doonbeg Golf Club.

He took last week off with a family vacation in Australia before flying to Melbourne for his third tournament of the year, making the 12th hole in 4, something he's only done once this year.

Last year, Els opened up with a 1-under par second round against Woods, and a 6-under par final round in the third round. This year, Els said he's been more competitive. He has more opportunities in the last two holes.

"I think it's going to be a very competitive field and we're going to have a good week of golf. It's going to be a lot of fun," Els said.

The 35-year-old South African is coming off a 10th place finish at the Masters, his third at the prestigious tournament. He is hoping to make the cut to the four-man teams for the Ryder Cup this fall.

Bob Gunston

Bob's comedic style has been described as hilarious and original with telling rhythm.

Jett Hawkins

Jeff Trent's English and bagpipes. He's been playing for 20 years, and if you play bagpipes yourself, it's a thrill to hear him. He's been with the Trio for two years, and isn't sure what his next move will be.

HALFWAY NIGHT

All drinks, beer and wine are served by glass half price.

Els kept his foot down with Sunday's win in the match play competition, but he's facing a more challenging field in the WGC-Match Play Championship at the Doonbeg Golf Club.

He took last week off with a family vacation in Australia before flying to Melbourne for his third tournament of the year, making the 12th hole in 4, something he's only done once this year.

Last year, Els opened up with a 1-under par second round against Woods, and a 6-under par final round in the third round. This year, Els said he's been more competitive. He has more opportunities in the last two holes.

"I think it's going to be a very competitive field and we're going to have a good week of golf. It's going to be a lot of fun," Els said.

The 35-year-old South African is coming off a 10th place finish at the Masters, his third at the prestigious tournament. He is hoping to make the cut to the four-man teams for the Ryder Cup this fall.

Bob Gunston

Bob's comedic style has been described as hilarious and original with telling rhythm.

Jett Hawkins

Jeff Trent's English and bagpipes. He's been playing for 20 years, and if you play bagpipes yourself, it's a thrill to hear him. He's been with the Trio for two years, and isn't sure what his next move will be.

HALFWAY NIGHT

All drinks, beer and wine are served by glass half price.

Melbourne, Australia — Rory McIlroy didn't play as well as Tiger Woods on the course during the Match Play Championship, but the 19-year-old Northern Irishman said on Thursday that he believes he has what it takes to challenge Woods for the No. 1 ranking this year.

"He's been the dominant player in golf the last few years," McIlroy said. "But if you look at the last tournament, it was a different game. In that tournament, he was playing better and more confidently. But the only thing that will be different is that he's going to have other people that will be better at him. I think that he is going to be dominant again, although I might be wrong.

**ISU adds shooter to recruiting class**

AMES (AP) — Iowa State's basketball team is getting the type of player it desperately needs in its next recruiting class — a shooter.

Mike Jordon, a 6-6, 195-pounder from South Pointe Prep in South Carolina, has accepted a scholarship offer from Iowa State. He visited the campus last week and attended Iowa State's 74-66 upset of then-No. 13 Oregon State on Friday.

South Kent Prep coach Raphiel Chalofsky said Jordan would help the Cyclones with his perimeter shooting.

“The primary thing he’s going to bring to the table is a stretch defender,” Chalofsky said. “He’s a shooter in his own right, so he’s going to take good shots.”

T.O. doesn't stand for timeout for Super Bowl

"I WILL PLAY ON SUNDAY," Owens said. Despite doctor's advice against playing, the determined Eagle returned to practice Monday, catching every pass thrown his way

BY PAUL NEWBERRY
ASSOCIATED PRESS

JACKSONVILLE, Fla. — T.O.'s timeout is over.

Branding Terrell Owens' habitual advice against playing as "T.O.'s timeout," the <i>Jacksonville</i> Sun Times editorialized that Owens returned to the practice field Monday, determined to play after a sprained ankle injury, in return to his "impossible play of his career by making it to the Super Bowl. He ran the required routes. He made the necessary catches. And — in this sign that’s to more Fumbles — he against the defending champion New England Patriots! — he caught the passes that were thrown his way.

"I still had a guy who went down 43 yards and did a spectacular play," Owens said Tuesday. "I know the type person I am. I have a lot of faith in my ability. I feel I'm proving a lot of people wrong. The sky is the limit for me. There are no limits in my mind for me."

"I told the guys it should be all that spurs me on. It's a big thing, being out there with a skinned-up knee. And it's something Owens promised his teammates moments after he was injured.

"I told the guys in the locker room, 'You guys just get us into the Super Bowl and I'll be there,'" he said. "They've done their job. Now it's time to do my job.'"

Owens' teammates were happy to hear the receiver's plans.

"That's great. It's another piece of the puzzle," Eagles tight end L.J. Smith said. "He's not the whole puzzle. And if he wasn't out there, he'd be on the sideline cheering for us, but we're glad to have him.'"

The greatest showman in football was certainly moved for the grandest stage. The guy who practiced out a Sharpe after a touchdown and gawked at Novak Djokovic for a while spent last at least part of it.

"It's always a lift when you see someone out there, an added weapon," Eagles quarterback Donovan McNabb said. "He did make some big plays for us. He did an excellent job of coming in and presenting a different type of look for our passing attack.

Just last week, Dr. Mark Myerson, the surgeon who operated on Owens' right ankle in December, and said he would not clear the All-Pro receiver to suit up Monday.

But there he was Monday, in uniform at the University of North Florida. While Owens took part in less than one-third of the team's 52 plays, he passed each time he ran a route.

"It's shocking when you see the injury he had and how he's come back from it. We had the same speed to go out and play it, also," Myerson said. "It's always a lift when you see someone out there, an added weapon."

In his first season with the Eagles, Owens led Philadelphia with 77 catches and 1,008 yards for an NFL-record 99 touchdowns. However, the Pro Bowler was suspended for the final game of the regular season after he signed for电路公司.

Then came that disastrous December day, when Owens severely sprained his ankle and broke his leg in a game against Dallas.

Myerson inserted two screws in Owens' ankle and a plate on the outside of the ankle three days after he was injured. Owens was told after oper­ration that he had an osseous chance of returning for the Super Bowl. But he was discharged, hoping to help Philadelphia win its first NFL championship since 1960.

"I hope he goes to play, he's going to play," Eagles head coach Jim­mitch Tretter said Tuesday. "T.O. is going to be just fine. I think T.O. is going to come out and surprise a lot of people."

"He's got a chance to play for all the players," coach Bill Belichick said. "He expects everybody to be at his best for this game. That's the only way the ever think about it. We never expect anything less from our oppo­nent."

After a checkup last week in Balti­more, Myerson and that while his­planned with Owens' recuperation, the operation requires a recovery period of eight to 10 weeks. Myerson added that any attempt to accelerate the rehabili­tation process puts the same risk for injury.

DAILY BREAK

quote of the day

"The obvious problem with our armed forces is their inability to comply with international law. Many of us thought that the Abu Ghraib scandal in Iraq was going to shake us into awakening, but it seems like we've just kept sleeping about Guantánamo where there was, in fact, systemic abuse."

—Amos Shubert, national legal director for the Council on American-Islamic Relations.
