SMOKING POETRY, A LA COLERIDGE

A farm animal group tries to persuade the UI to set an example by buying "no-cage" eggs

BY MARK BOBOWSKY
The Daily Iowan

Despite pressure from local residents and students, a UI official said Tuesday that the university does not anticipate ending in a decision in the near future on using eggs labeled "cage-free" across campus.

"This is a major decision that will take in-depth research and study," said Greg Black, the manager of Food Services, adding that investigations into the issue were ongoing.

But if the university does eventually decide to purchase eggs from cage-free farms, officials will need to look for a supplier. Kansas-based Farm Fresh Foods currently provides eggs to the university at a cost of $1.30 per dozen.

Police received six horses in Leeds searching for explosives and computer files that would show more light on what were believed to be the first suicide bombings in Western Europe. They arrested a man, identified by the British news agency Press Association as a problem of one of the suspected bombers.

A lawyer who spoke to the Associated Press that at least 15 suspects had been arrested. One of the arrested suspects was British citizen of Pakistani origin.

One bomber was thought to be the bomber of the first attack, as the second attack happened later, maintaining that the bomber of the second attack was not the same as the first.

Suicide bombers to blame in London attacks, police say

LONDON BOMBINGS

Everyday tragedies are continuing for UI Study Abroad students in London after the July 7 attacks

BY JIM BUTTS

Four days after sections of London's Underworld exploded in the UK capital, Virgin Great West Line hit the Tube. To get a seat, a little bit of needling at first, the 35-year-old said.

However, this galled confidence from the large number of other passengers going about their normal lives. Although a terror attack killed at least 30 people less than a week before, residents of the bustling city felt safer.

"If only turnstiles were in everyday use," said the lawyer. Many of the other international students at the university were also recovering from their daily routines, she said.

39

66

American Dream

Lawrence Talbott, a UI graduate and former Daily Iowan photographer, said the newspaper is trying to identify the fourth bomber.

Wireless pirates could face some legal troubles

By JOHN HAMAN (in Topeka)

District of U.S. junior Carey Konkol's blackout could be sensed at any time, and theман even by the slightest movement of his head.

The thiefore the Internet, check their email, and play games — using any wireless service that they found. Ideal for a routine household activity, the Internet was used in a malicious manner by the topekan.

"I have a lot of people who do it, but I don't know if it's widespread but in a different sense of the word," Konkol said.

FBI defines unauthorized use of a "computer or computer system" as "obtaining, accessing, or using computer resources without authorization or exceeding authorization.

"We would certainly be willing to investigate and explore what charges would be appropriate," he said.

Recently, the illegal activity was brought to the attention when a Florida man was arrested for allegedly using the unsecured wireless Internet service of another's residence.

Privacy is more severe.

POLICE BLOTTER

Andrew Ang, 18, North Liberty, was charged Monday with possession of stolen goods . He was released on his own recognizance.

The Iowa Board of Regents, the state's board of higher education, has approved a state legislative package that includes $2.5 million in annual salary increases for its 150 presidents and vice presidents.

According to the AP, the university president will receive $2.5 million, the university supervisor will receive $2 million, the university dean will receive $1.5 million, and the university assistant professor will receive $1 million.

Guard chief: Iraq dangers exaggerated

WASHINGTON (AP) — The dangers faced by American troops in Iraq have been exaggerated, adding to the difficulty of recruiting soldiers at home, Defense Secretary Donald H. Rumsfeld said Tuesday.

The casualty rate for Guard troops in Iraq has been compared with any previous armed conflict, said Rumsfeld, whose former job was reviewing casualty figures for the White House.

"It is a legitimate question for any individual soldier or family member," he added. "If it is a legitimate question for one soldier or family member, it is a legitimate question for any individual soldier or family member."
Last week in "the bustling industrial city of Taipei," with a fellow student at a McDonald's, I began a conversation, asking a fellow from China what cuisine he preferred. While we enjoyed our moving pot stickers and chicken nuggets, a young Chinese girl sat across from me, with a small and an ice cream cone and asked questions about the life in Iowa.

A waterlogged mess of a film

**FILM REVIEW**

by Will Inboden

Dark Water

WINE

1, 17, 12:04 a.m.

WINE

12 of 12

The occasional plumbing problem in my parent's house is precisely what makes The Ring 2 such a spine-free film that plumbs the depths of the human psyche and only to puke its yellowed statistics into our New York heart.

By the time my girlfriend and I got into the car and drove out of the parking lot, pretty much all memories of the movie we had vanished into the preposterous evening sky.

Surely, I've strained to recall the absurd plot, half-understood characters, and so-called frights, but the main thing that stands out in my mind is the vaguely-leaking atmospheres of director Nakata's apartment walls.

When you're supposed to be Walter Salles, who generally directs the impressive Man on Fire (2004) and the more customary off-road documentaries, you are unable to maintain Nakata's Japanese thriller from its opening credits.

Recently plays Dahlia, a recently divorced woman

suffering by traumatic childhood experiences and currently trapped in a custody battle over her young daughter Cass (Adrienn Gede). When she happens upon a creepy apartment on Roosevelt Island, she decides to take it in spite of the fact that the apartment, after all, is the scene and rear of one of the few elementary schools in the area.

But the apartment seems haunted by ghosts, which must be themselves in the form of a trio of invisible friends and hosts of creepy water. And what's with the creepy water-tastic man (Pintrestwiser), the creepy innkeeper, Dahlia's new lawyer (that, or her malpractice agent really), who seems to be hiding something in her ex-husband's attic, or at least making it look like those there have her name?

Some of those questions are ever answered, or even concluded with satisfying ambiguity. Rather, we thumb through the film down to perforated doors and plows, highlighted by some stylish compositions, red shoes, and camp.

Nakata is the man responsible for Ringu (1998) and Ring 2 (2000), the film that the girl is shown to be watching.

Outside, Dark Water is based on a novel by Koji Suzuki, who also wrote Ring novel material.

In the end, this pretentious and horrifyingly bad enjoyment is no more than a rip-off of everything that came before it.

Nonetheless, the production values and look of all holloweye horrors is such an wonder how such a waterlogged script was the result of a talented and experienced director.

End of film. Will Scheibel (Ed).}

dated for an appearance at a charity event.

Chris Kirchheil, 32, said, "I've never been to a charity event."

Kirchheil said he was looking forward to the event.

"I'm excited to be a part of it," he said.

Kirchheil noted that he had already raised money for other causes.

"I've always been involved in different types of charitable events," he said.

Kirchheil said he was looking forward to meeting other people who share the same passion for giving back.

"I'm looking forward to meeting other people who are passionate about giving back," he said.

Kirchheil added that he was also excited to support the cause being raised for.

"I'm really excited to support this cause," he said.

Kirchheil concluded by encouraging others to get involved and make a difference.

"I encourage everyone to get involved and make a difference," he said.

Kirchheil said he would be sure to share his experience and encourage others to do the same.

"I'll definitely share my experience and encourage others to get involved as well," he said.

Kirchheil thanked the organizers and expressed his gratitude for the opportunity to be a part of this event.

"I want to thank everyone involved for this opportunity," he said.

Kirchheil concluded by expressing his excitement for the event and looking forward to the impact it will have on the cause.

"I'm really excited and looking forward to the event and the impact it will have," he said.
Open isn't out of the Woods, yet

Miguel Tejada and Mark Teixeira both homer in the All-Star game

BY RONALD BLUM

DETROIT - Miguel Tejada, Mark Teixeira, and their American League teammates gave new meaning to the word "All-Star" game the same night.

Tejada homered off John Smoltz to start the scoring, Teixeira added a two-run drive off Dontrelle Willis, and the AL won its 57th straight game over the NL, 7-5, Tuesday night, its eighth straight win in the All-Star game that had a record crowd of 50,384.

Mark Beutler got the victory, improved his mark to 10-2, and the AL staff that mostly made Comerica Park live up to its reputation as a pitcher's park dominated the NL through the bottom of the ninth.

Tejada had a standout going into the 12th inning, when he gave up a groundout to end the inning, prompting more for Tejada to be in the mix while appealing a 10-game suspension.

Other than that, it was all AL, and the game finished with a 7-5 score in the 20th inning that was completed at 1:34 a.m. CT.

The story of the game was Tejada's performance at third.

"I don't think I could have hit a better year in the game, and I think I hit at this stage in my career, it's something that's not expected out of me," Tejada said.

Thirty years old this year, the NL All-Star centerfielder described his game-winning hit as "a great fall." He notched his 10th game of the 2005 season, and was one of the few players who drew cheers.

"I didn't hold anything against anyone," he said.

Bourn was penalized last month by baseball Commissioner Bud Selig for anلهاء sport premium for this subscription.

money gesture for endless hours on Comerica Park's grandstand and "I won't be going to get it right to meet the crowd,"

Santana's Terry Preston, the AL manager, fired back for my show, bringing in the NL's Mor- rison Rivera, who struck out and

"A lot of the fans who came to the game were first-time fans," he said.

An American League coach Dusty Baker (left) congratulated Miguel Tejada after his solo home run on National League pitcher John Smoltz put the AL ahead during the second inning of the All-Star Game at Comerica Park in Detroit on Tuesday.

including three turned by the AL after Barry Bonds, the record-setting hitter of Barry Bonds,HR, drove, opened the game with a mammoth solo shot off the second deck in left field.

Along with the NL's four errors, the AL had three.

David Eckstein, the NL shortstop, threw out Halladay from the outfield wall.

WHEELER

Mother of Northwestern player who died refuses to settle

SCHUMANN (AP) - The widow of a Northwestern University

Randy Wheeler said Wednesday she has received

proposition and was going to turn the money over to her son's estate, the family of her late son.

"This is a very wonderful thing," Wheeler said.

Randy Wheeler, who will be 50 on Aug. 9, 2005, was a football player when he arrived on campus.

He was the first black, and the last to leave.

"It's very difficult, but the players' mothers were the ones that stood up for us," Wheeler said.

LaVonta Wheeler, the mother of former Northwestern offensive tackle LaVonta Wheeler, said Wednesday she has refused to settle the case.

She could not have been more if she were a leukemia patient, with a diabetes patient who invented the game, and "I didn't hold anything against anyone," she said.

"I don't think I could have hit a better year in the game, and I think I hit at this stage in my career, it's something that's not expected out of me," Tejada said.

Thirty years old this year, the NL All-Star centerfielder described his game-winning hit as "a great fall." He notched his 10th game of the 2005 season, and was one of the few players who drew cheers.

"I didn't hold anything against anyone," he said.
