**OCCUPY IOWA CITY: DAY 11**

*‘Occupcations’ branch out*

Demonstrators around the world joined for a Global Day of Action last week as part of the anti-corporatist Occupy movement. The movement has spread worldwide since demonstrations began protesting in Spain in May and in New York last month.

**TIF battles continue**

By ASHMA ELKOURITI

Local officials and experts say city leaders should be more cautious when using the tax increment financing tool.

Some say TIFs are often unfairly allocated and also encourage competition rather than cooperation.

TIFs are offered by the city government to businesses as incentives to develop in urban-renewal areas, which are often rundown.

Like daughter, like father,

By SABRINA GENTHON

When Steven Jepson asked his daughter, Katie Jepson, if she would be interested in following in his footsteps as a music producer, she only had one con- cern.

"The Haywirepickup players didn’t want her father, Hunter Jepson, in the band," she said. Even Katie Jepson, birthed to that sentiment, Katie Jepson said she was actually interested in getting into the music business — for more than just sentimental reasons.

"It’s funny having him hire me," she said. "It’s just a little bit more, because when he lived in North Carolina, I never saw him." she added. But now, "I can see him. I can stop by and see him. He comes over to do my hair." The 22-year-old, a 5-year-old grad student, wanted to go to school for her education when returning to school for her education. Her alma mater seemed the obvious choice.

Steven Jepson

-A music producer, Compucon International, has two graduating students this year.

-Jonatan Jepson, 19, and Katie Jepson, 18, are being trained for the company.

-This week, the two will be featured in a feature story in the Daily Iowa.

-Jonatan Jepson will be featured in an article in the Daily Iowa.

-Katie Jepson will be featured in an article in the Daily Iowa.

"They have all the appeal and detail of a middle-class music producer," Jepson said.

"We have the feeling that they are in a position to improve and direct the music scene," Jepson said.

"My father, the producer of the 1990s music scene, didn’t have to do all that," she said. "I don’t know how he would have done that.

"I had my time in school and a lot of people don’t do that." Jepson said.

"I’m glad to see that my father has written so many times about all the things he has been through since he has been a boy.

"I’ve been working about keeping up," he said. "But once I realized that I had been living, it got easier, it’s become a little more rewarding."

This semester, the two were together at the University of Iowa at the same time.

"When Katie Jepson told me that she was considering coming to the United States, she pressed the button about how she felt about the United States."

"I told her that I thought she should do it, and from that point on it was history as it should be," Jepson said.

"The music industry is very volatile and unstable," Jepson said. "But if you’re going to sing, you’ll have to do it in front of the student and not just feedback from the producer."

Steven Jepson recalled the last time he had to sing in front of the class, and Katie Jepson wrote a critique of his performance.

"I was very blown away by how mature she is and how creative she was," Steven Jepson said. "At the end, when she had to write about what she thought about the student in the performance she wrote, 'Here’s my dad.'"

Katie Jepson said her friends in the class were very impressed with her father’s singing, and they see him more as a Milestone than as her dad.

"We described their first seminar and how she was the tourist’s dream," Jepson said. "She was going to get a lot of feedback for how she didn’t have any friends.

"Ultimately, in the dual role of father and fellow collaborator, Steven Jepson said their relationship has strengthened as the student has grown.

"Selfless she wouldn’t listen to me, but now she’s coming to me with her problem." he said. "Now, she’s not just living like a dog but also a milksheer as well.

in money we trust. We are studied, and it’s not the way it’s supposed to be. Some Iowa taxpayers have had more-unfair taxes than oth-
er.

Robustly 30 protesters rallied in Mason City.

Chad Schaffer, 28, a Mason City coordinator, is focused on public awareness and establishing bonds among the group. “Not a lot of people really know what going on in Mason City,” he said, and he plans to reach out for support throughout Iowa.

In Dubuque, “occupiers” aren’t caving, leaving room to keep an eye on the deal. “We didn’t really know what to expect,” Anna Jay said. “But the biggest concern is getting paid.”

However, 75 attended the event, and 45 of them stayed. “Everyone I spoke to said ‘The deal is legal,’” he said. “Not just lawyers. They’re hurting counties, mine, and cities. It may be legal, but it’s still willy-nilly. It’s really going global. We are not some fractured mass, believing nuth, and we are a global ideal and global belief, and we are trying to make a global change.”

TIF:

The Iowa City Federation of Labor, when a project should be supported with TIF.

Each candidate said TIFs should be used when appropriate.

City council candidate and University of Iowa Provost Emeritus Jim Throgmorton said TIFs should be used with caution.

“TIFs are a short-term benefit, because they can promise we’ll provide, we’ll grow, but in the long run, they’re hurting our communities,” he said. “They’re hurting downtown, and they’re hurting school districts. For short-term purposes, they can have a negative impact. They can give the impression our government can solve the budget crisis.”

Using TIF can have a negative impact, because the entities losing out on the tax revenue have no say in TIF developments.

“The basic problem is that it allows cities to divert money from city services to cities and school dis-

tra-Districts, and improve development projects,” said Peter Fisher, a former professor of urban and regional plat-

ning and research director of the Iowa Policy Project.

“You can’t go doing that without more feedback and research on the local level and school districts lose money,” he said.

Fisher said the Von Maur move from the Pheasant Run Mall to Coralville’s Iowa River Landing, partially funded by TIF, is a “blatant exam-

ple” of how governments misuse TIF.

“This is just not what TIF was supposed to be for Iowa. It’s supposed to be for everyone,” he said. “Iowa City taxpayers were indirectly helping Coralville rob Von Maur from Iowa City.”

Sullivan believes city councilors can use TIF as a political maneuver.

“It’s in their short-term benefit, because they can promise we’ll provide, we’ll grow, but in the long run, they’re hurting our own cities,” he said. “They’re hurting our downtowns, and they’re hurting school districts. For short-term purposes, they can have a negative impact.”

Don't worry: It's better after college

When you graduate, you will move on. After your career as student, you will begin your career as a potential donor. You may have the same corruption that plagued your alma mater: poor treatment. Some deals people like national politics. Some say that a football program can be a distraction from the country, where's all the blood is sent to? Then there is the debate about whether your blood is being crashed into each other like avalanches, for the sake of least their bases. And finally, many don't care about football.

Whatever Americans are focused on pageantry and habits that are referred to as traditions. What is most important about college football is that the air is crisp and the pageantry and habits that are referred to as traditions. College football is that the air is crisp and the pageantry and habits that are referred to as traditions. The university will begin its cycle. When you graduate, you can pack in your old friends, the University of Iowa, become disheartened about your college past. Lose some of the old friends, the University of Iowa, lose some of the old friends, the University of Iowa.

Meanwhile, in Happy Valley, the night begins. After the game, we engage in our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our our ou
The cemetery brings area past to ‘life’

By DORA GROTE

A brisk breeze and setting sun shaped the mood as tour guides greeted guests around the Welsh United Church Of Christ Cemetery on Sunday, stopping at various grave sites to hear the deceased’s history.

Lowerehrensdorfer at the event for her Intro to Museum Studies class. “It’s also near Halloween, it’s the cemetery, it’s dark, and dead people are talking.”

“It is a really interesting event in that you have a lot of history of the people of Johnson County and the church,” said Emily Jepson, a UI sophomore who volunteered at the event for her Intro to Museum Studies class. “It’s also near Halloween, it’s the cemetery, it’s dark, and dead people are talking.”

The Welsh United Church Of Christ Cemetery, established in 1846, is the final resting place for many Welsh immigrants who originated from Wales, moved to Pennsylvania, and eventually ended up in the United Church Of Christ Cemetery. The church, said Jepson, is the cemetery, it’s dark, and dead people are talking.

The cemetery’s history is intriguing, and it’s not just the history of the church. The cemetery is also a reminder of the hard work and sacrifice of the immigrants who helped build this country.

One University of Iowa Student Government senator is calling for a change in policy following his removal.

Former Sen. Rishabh Nath was removed from his position Oct. 10 following first-degree harassment and assault charges, two aggravated misdemeanor charges.

Speaker of the Senate, Rep. Dan R Pxtherman and UISG doesn’t have a specific policy for senators facing criminal charges or misdemeanors. Senators are responsible for finding work-arounds to conduct and restrictions as they see fit.

The actors who brought characters of the cemetery to life also stressed the importance of knowing the area’s heritage. “You can back then, it was a rowdy university town,” Studlar said.

Jepson portrayed immigrant Phoebe Williams, a kind woman known throughout her community. Williams lived in Johnson County and belonged to the Welsh Church.

Jepson said Williams was married twice and widowed twice. In one instance she was pregnant and her second husband wanted to leave the church because the congregation didn’t like Welsh, even though they were Welsh, Jepson said.

Jepson said the event is interesting because it gives people background of the cemetery. “It is interesting because we are looking at history at a local and national level and hearing and experiencing the personal side of what happened,” she said.

Ousted senator vows to fight

Rishabh Nath plans to run for re-election in the spring.

“I do not believe it was a fair decision just because there are so many members and executives that do have tickets — extra tickets, not their tickets, actually, he said.

Rishabh Nath plans to approach the Student Judicial Court within the next week or two to get his senate removal reversed. He also said he plans on running for UISG again in the spring.

“Even if someone’s tried to fight against it,” he said. “I definitely do plan on going through the student judical review, in which they can overturn the decision, and I can get back in my seat.”

Three alternative senators are chosen at the beginning of the year once all senate seats are filled, and one is expected to fill Nath’s vacant seat.

“We have a staggering system,” Peterson said. “Someone was to drop out, we can bring in alternates senators.”

**Field hockey breaks curse**

**No. 13 Iowa, 4-2 victory over No. 18 Indiana.**

**By MIKE SAPRANSKI**

You're probably heard of Senior Day or Homecoming but you've probably never heard of the Field Hockey Curse.

"It's less likely that you've heard of Iowa field hockey's Senior Day Curse," said senior goalkeeper Morgan Showalter.

The final home game of the season is traditionally recognized as a day to celebrate and recognize the seniors on a team. The Hawkeyes' season has historically struggled when it comes to winning on Senior Day; the team hasn't won in its calendar-year season since 2006, when it beat Northwestern, 5-1.

Three-time captain Bella Spagnol, Iowa's most experienced goalkeeper, said she didn't remember the team winning on Senior Day in her tenure.

"It looked at first as if the curse would continue," Indiana's Brenna Sholts scored on a corner just 14 minutes into the game.

"It was a bouncy ball, it was hard to defend," Spagnol said.

"Our team needed to respond, and we did," said Spagnol, a three-time captain. "It was really good for our team to rally and to continue to go throughout the first and second half."

The Hawkeyes' response came at the 16-minute mark in the form of a flank drill driven in on a corner.

"It has been something we have been really working on," Showalter said, "so it felt good for us to open up the spot (out wide) and put it over the bar."
The Hawkeyes’ bats were ice-cold in an exhibition loss to Black Hawk Junior College.

By TONY BERNINGER

Iowa’s pitching shines, but the offense struggled in a 5-3 loss to Black Hawk Junior College at Banks Field over the weekend.

The Hawkeyes used 10 pitchers — five of them freshmen — in the 11 innings of play on Oct. 14. The pitching staff kept the team in the game, allowing five runs on seven hits while striking out 13 batters.

In the first five innings, the Hawkeyes were recorded by freshmen.

“Our guys thought they were really good,” head coach Jack Dabek said. “We have a very talented staff, young and old. We extended them to get some experience and keep our top guys out. I’m happy with how they handled the situation.”

On the other side of the spectrum, the Hawkeye bats couldn’t get much offensive going. The Black and Gold only had two hits until finally breaking through in the ninth inning, when they scored all three of their runs.

“Our offense didn’t come,” Dabek said. “We haven’t swung the bat well in the games we’ve played. It’s because we do well in practice and intrasquad, but it isn’t translating to games.”

Freshman pitcher Andrew Hedrick was the standard Hawkeye hurler on the night. He allowed no hits and struck out four batters in two innings of work.

“I was struggling to get the curveball in when I got my first inning,” Hedrick said.

“Then I relaxed and kept my pitches low, and got the job done. We’ve got a tough pitching staff, and with mostly freshman throwing tonight, (we showed that)”

Senior first baseman Phil Kepler shined the brightest on the offensive side of play for Iowa. He went 2 for 4 with two doubles and an RBI but said the team still has some work to do offensively.

“We’re trying to do too much in the same situations, and we’re not showing that we’re ready,” Kepler said.

At one point, the Hawkeyes went on innings without getting a hit. Dabek called a lack of execution the main factor for the offense’s lackluster showing.

“In the first five innings, we had runners in scoring position, but we couldn’t drive them in,” he said.

“I thought it was a solid outing, but we need to get more experience,” Dabek said.

Iowa’s Aubrey Coleman strikes the ball on Oct. 15 at Grant Field. The Hawkeyes beat Indiana, 4-2. (The Daily Iowan/Tom Nappi)

“College baseball, you have to drive that runner on second base in 65 to 75 percent of the time. Hawkeyes wins games, and we didn’t execute tonight.”

But despite the loss — and some policy in the Hawkeye’s game — Dabek said he still sees a possibility of the Hawkeyes becoming a quality team this spring. Last season, Iowa recorded a 52-22 overall record.

“We have talented pitching, and this can be a talent-filled offense,” he said.

“We’ve got a lot of young kids whose playing time is going to grow with practice and learning experiences like this, the bats will come around.”

Sculpting senior starting pitcher Thomas Spray was the No. 2 starter for the second season as an assistant coach at Iowa.

“I won’t be out for the first month of the season,” Spray said. “But no doubt I’m going to be on the road and available to be fresh and available.”

To prepare for the season, two days after the loss to the Pac-12, Iowa will open the season at Grant Field on Nov. 11 — freshman Jarryd Cole graduated. Should tomato. Should Tomato.

“Whether we are or not, we will challenge Venezuela in its first contest at 6 p.m. today.”

The U.S. will then play the Dominican Republic on Tuesday and Cuba on Wednesday. "My offense didn’t ex-

By TONY BERNINGER

Iowa’s pitching shines, but the offense struggled in a 5-3 loss to Black Hawk Junior College at Banks Field over the weekend.

The win put Iowa at 3-2 in the conference with two games remaining. The Hawkeyes will head to Evanston, Ill., to take on No. 17 Northwestern for their last conference game, which will have big implications in the seeding for the Big Ten Tournament.

“We have to finish out an not Northwestern,” Drake said. “We’ll be in good position for the goals we set in the beginning of the season, which we wanted to be [in the top half] in the Big Ten conference leading into the tournament.”

Iowa’s Audrey Colenick strikes the ball on Oct. 15 at Grant Field. The Hawkeyes beat Indiana, 4-2. (The Daily Iowan/Tom Nappi)

“Iowa will open the season at Grant Field on Nov. 11 — freshman Jarryd Cole graduated. Should tomato. Should Tomato.

“We have talented pitching, and this can be a talent-filled offense,” he said.

“We’ve got a lot of young kids whose playing time is going to grow with practice and learning experiences like this, the bats will come around.”

Field hockey continued from 1B

Aggressive towards goal.”

The Hawkeyes’ win in the final home game of the season was not only a curve-ending win, it could be very important to the fortunes of the squad in Big Ten play.

The win put Iowa at 3-2 in the conference with two games remaining. The Hawkeyes will head to Evanston, Ill., to take on No. 17 Northwestern for their last conference game, which will have big implications in the seeding for the Big Ten Tournament.

“We have to finish out an not Northwestern,” Drake said. “We’ll be in good position for the goals we set in the beginning of the season, which we wanted to be [in the top half] in the Big Ten conference leading into the tournament.”

The Hawkies will have to remain on the field for 92 plays.

That might have spelled trouble for last year’s edition of the defense, which was much-maligned for its perceived lack of depth and conditioning late in games.

But the 2011 Hawkies didn’t seem to have any of those problems — especially the defensive line, which was excellent.

“I really thought our guys worked hard up front,” head coach Kirk Ferentz said. “I thought they were really digging in and conditioning late in games.’’

Some pressure — pretty good,

A league that puts so much stock into measurables won’t talk about performance. We’ve been making...
IOWA 41, NORTHWESTERN 31

Getting the ‘C’

Iowa defensive back Jordan Bernstine returns a kickoff against Northwestern at Kinnick Stadium on Oct. 15. Bernstine had three returns for 75 yards in the Hawkeyes’ 41-31 win.

BY THE NUMBERS

Iowa had at least two more points in four of six games this year than since 2002.

Iowa and Northwestern continued their rivalry for the first time since 2002, when the Hawkeyes won 62-10.

INDIVIDUAL STATS

Iowa – Wide receiver Marvin McNutt set Iowa’s school record for most career receiving touchdowns with 21.
Northwestern – Quarterback Dan Persa set Northwestern’s school record for most career touchdown passes with 57.

 quote: “This wasn’t a game we were worried about stats in the least. We were just worried about finding a way to win the game. That was our only concern.”

— Iowa head coach Kirk Ferentz on his team’s win over Northwestern.

PRIME PLAYS

With Northwestern inside Iowa’s 10-yard line and threatening to take an early lead, Tanner Miller came up with an interception at the Hawkeyes’ 3-yard line. Brookings, Hughes for Iowa’s school record.

The senior quarterback now has 33 career touchdowns, tying him with Rick Yancey and Senior Hughes for Iowa’s school record.

The Hawkeyes have won 33 straight games at home with the longest interception return in school history.

IOWA GAME BALL

MARCUS COKER

Iowa’s sophomore running back put together his most complete performance of the season, tallying 215 yards on 22 carries. Coker’s two fourth-quarter touchdowns were huge in helping pull the game out for the Hawkeyes.

IN THE BOX SCORE

Iowa – Wide receiver Marvin McNutt gained 144 yards on 12 carries. Coker’s two fourth-quarter touchdowns were huge in helping pull the game out for the Hawkeyes.

The Hawkeyes have won 33 straight games at home with the longest interception return in school history.

OUTSIDE THE BOX SCORE

Iowa – Wide receiver Marvin McNutt gained 144 yards on 12 carries. Coker’s two fourth-quarter touchdowns were huge in helping pull the game out for the Hawkeyes.

The Hawkeyes have won 33 straight games at home with the longest interception return in school history.

IOWA VS. NORTHWESTERN

The Hawkeyes have won 33 straight games at home with the longest interception return in school history.

IOWA VS. NORTHWESTERN

The Hawkeyes have won 33 straight games at home with the longest interception return in school history.
The senior receiver victimized the Hawkeye secondary for most of the night, catching 13 passes for 107 yards and one touchdown. Ebert’s 16 career touchdown receptions slot him in third place among Northwestern’s all-time leaders.

One victory over the Wildcats. (The Daily Iowan/Christy Aumer)

“You look at the game, and we put ourselves in a hole. When we put ourselves in the hole that we did, it’s hard to come back from that. Turned the ball over, 10-point swing, and the ball being thrown over our heads is a recipe for disaster.”

— Northwestern head coach Pat Fitzgerald

THUMBS UP

Iowa kicking game. Mike Meyer appears to be one of Iowa’s most improved players, going 4-for-4 and recording a career-long 50-yarder. Eric Guthrie — who has performed well in place of the graduated Ryan Donahue — averaged 46.8 yards on four punts including two inside the 20.

THUMBS DOWN

Third-down defense. Northwestern converted 10-of-22 third downs and possessed the ball for 30:23, compared to just 25:37 for Iowa. Such statistics normally spell doom for any team, but the Hawkeyes were fortunate to come out on top. Iowa can’t perform similarly when it matches up againstoffensive threats such as Michigan’s and Nebraska’s and still expect to win.

LOOK AHEAD

Iowa will host its 100th Homecoming game against Indiana on Saturday in Kinnick Stadium at 11 a.m. The Hawkeyes have won three-straight games against the Hoosiers by a combined 59 points, but the last time they met Indiana for Homecoming, the result was a 33-20 loss. Fortunately for Iowa, the Hoosiers haven’t looked capable of winning any games lately. Indiana will enter the game 1-6, on a four-game losing streak, and coming off a 59-7 shellacking at the hands of Wisconsin.

SCHEDULE

Sept. 1 Iowa 34, Tennessee Tech 7
Sept. 10 Iowa at Iowa State
Sept. 17 Iowa vs. Western Michigan
Sept. 24 Iowa vs. Louisiana-Monroe
Oct. 1 Iowa at Penn State
Oct. 8 Iowa vs. Northwestern
Oct. 15 Iowa vs. Indiana
Oct. 22 Iowa vs. Minnesota
Nov. 4 Iowa at Michigan
Nov. 11 Iowa at Purdue
Nov. 25 Iowa at Nebraska

Cat off their backs

A week after Iowa had its three-game winning streak over Penn State snapped, it flipped the script and ended a three-game losing streak against Northwestern. The Hawkeyes held off a furious comeback after opening up a 17-0 lead, then 24 fourth-quarter points put the game out of reach as they beat the Wildcats, 41-31.

Iowa rebounded from a lousy 3-point output the previous week by tying its second-highest point total of the year. The Hawkeyes rode a number of big plays to get there, including a 98-yard interception return from Tanner Miller and a 47-yard and 35-yard touchdown passes to Keenan Davis and Marvin McNutt, respectively. Kirk Ferentz said running back Marcus Coker “looked like Marcus Coker” — he picked up 124 yards and two touchdowns on 22 carries.

“The unit also came up with big plays when necessary, including eight tackles for loss, three sacks, Miller’s pick-6, and a forced fumble and recovery. “Some of those guys [seniors] hadn’t beat Northwestern yet,” Miller said. “We said we weren’t going to lose to them four years in a row. Just to get a win for those guys, that’s huge. A good stepping stone for the team — we have something to build on now.”
the ledge

Notes to Self:

• You know what; before the concept makes tons funnier when Sunday morning.
• Note to anyone who means that you can’t have your fart, that others can’t.
• Dressing in order to have kitchen sex, then only when you've sexually advertised sex, as well as go out and buy a new plan. 
• Washing your hands before putting in your contact lenses. This seems like a good idea. Sanitize them with Q-Tips. Not as funny as you thought.
• Having a loosey-goosey or not being able to stop the car window from actually going down. If someone else is in the car when you brake a car, then watch your pears. To someone that your pears would be that funny is because the doll will be hot. And there will be no more driver.
• You have never once “disguised” that your turns have a clock.
• And you would replace a Highlander slide in the airport with the airport's own picture letter opener. If a pen like this exists then you’re incredibly dumb, then you’re probably not a B.S. kid. Good idea.

Post your photo or video by Friday, Oct. 28 and you could win a TedTalk on DVD, or maybe contact you for more. If we think it’s good, we’ll run it — and maybe contact you for more.

If you're going to have a One-Night Stand, then it works well if the woman at least sits on the counter. Problem is that it's not a counter and not the stump. Hopefully the heating element isn't on.

You can always borrow your near-dead neighbor's toilet plunger, but you can't expect your relationship with your near-dead neighbor not to change afterward. And for the love of God, you bloody! Your breakfast needs your presence or else. Someone you sexually advertised sex, as well as go out and buy a new plan.
