Plummer trial to move

By BETH BRATOS

The University of Iowa charged Branden Plummer in December in connection with an attempted-murder trial after he allegedly assaulted Marcus Coker immediately after being notified of the change of venue.

The new location for Plummer’s hearing was announced Wednesday. The change of venue was requested by the defense, and the judge ruled in favor of the state.

The state and what you don’t have to show in town, is the high speed,” she said.

Slack conditions often contribute to collisions, she said. “If you do have that collision, there are usually alternative routes to take and less traffic backing,” she said.

The number of collisions were average for this time of the year, Brotherton said, drivers need to remember to be particularly careful during bad weather.

“Many of the major factors in the crashes are distance and weather,” she said. “You don’t have to show in town, is the high speed,” she said.

An official says public buses are one of the safest modes of transportation in the winter.

After the release of its newest album, Tea Leaf Green will return to Iowa City for a show at the Little Freedom. By Jordan Montgomery

Tea Leaf Green’s record Radio Tragedy brings together various elements the musicians have learned during their career to their newly formed trio as a jam band.

The trio, consisting of lead singer and co-founder Joe Clark, vocalist and guitarist Rob Thomas, and musician and keyboardist Josh Clark, is scheduled to perform at the Little Freedom on Jan. 18. The show, which will begin at 9 p.m., is in addition to shows the band will be performing in Iowa City and surrounding areas.

The band members attribute their success in large part to the amount of time spent perfecting the perfect jam. "We have been jamming for a long time, and the band has been a big part of our lives," said Clark.

The most popular songs include "Man of the Hour" and "Let Me Love You". The band’s music can be described as a blend of rock, blues, and soul, and their performances are known for their energy and passion.

The band’s most recent album, Radio Tragedy, was released in 2018 and has received critical acclaim. The album features a mix of original and cover songs, and has been described as a departure from the band’s previous work.

The band’s upcoming tour will take them to various venues across the country, including concerts in New York, Chicago, and Los Angeles. With a reputation for delivering high-energy performances, Tea Leaf Green is sure to put on a show that won’t be forgotten.
Board votes to open Roosevelt bids

By JORDYN REILAND

The School Board plans to sell the Roosevelt Elementary School on Tuesday. (The Daily Iowan/Chris Aamer)

The School Board voted to open bidding for the school on Tuesday. (The Daily Iowan/Chris Aamer)

A majority of the survey included in the new report were students in support of either transforming the school or establishing a fourth junior high. But they are not necessarily a surprise.

Say it ain't so, SOPA, Congress
MATT HENZE

Many University of Iowa freshmen hoping for a year ahead before their first discussion may find themselves out of luck this semester.

That's because today's Wikipedia, along with dozens of other popular websites such as Reddit and Twitter, may lose the ability to charge an Internet "blackout" this year. The goal of public attention to another Internet safety bill, the Stop Online Piracy Act in the House and the Protect IP Act in the Senate, is to stop the spread of malicious material. They will be chosen for print publication when they are deemed to be well-written and to forward public discussion.

Learn from Iowa, shift tax breaks to working class

If the state of Iowa over the past 10 years or so has any indication, it seems that relying on tax breaks for large businesses to grow the economy is not the ideal move for a small, open economy. A large percentage of earners should be subject to additional tax breaks; rather, tax breaks should target the lower end of the income spectrum, creating a more equitable economy for all the state's residents. If one looks at the economic climate of Iowa, one may think that the state has a lot to celebrate: low taxes, a competitive business climate, and a strong educational system. But the economic climate of Iowa is not without its challenges.

In this light, it is interesting to note the results of the recent Iowa primary election. Even though the state of Iowa is generally considered to be a bellwether state, the election results were not what one might expect. In fact, the election results in Iowa were more aligned with the results of the 2012 presidential election, in which candidates were more focused on local issues rather than national ones. This is an indication of the shift in the political climate of Iowa, where voters are more focused on their own local issues and less concerned with national ones.

One of the reasons for this shift is the economic climate of Iowa. The state has been hit hard by the recent economic recession, and many residents are looking for ways to improve their economic situation. In this context, it is not surprising that candidates were more focused on local issues such as education and healthcare, rather than national ones such as foreign policy and national security.

Thanks for relieving overcrowding

On behalf of the Longfellow PTA and community, I would like to thank the Iowa City School District for going above and beyond during your School Board meeting in early December, in consideration of your vision for a more equitable and less crowded school environment. It is heartening to know that you not only enter into conversations with community stakeholders, but also take steps to implement changes to benefit all students.

The vision of an equitable and inclusive school environment has been a priority for the PTA and community. We appreciate that you took into account our concerns and that of our children and their families. We would also like to thank you for your willingness to work with us.

None of us can imagine a non-congested, non-deficit community's input and to respond directly to par- ental concerns, in hosting town hall meetings and question-and-answer sessions with parents to discuss potential policy changes, and in providing a sense of transparency and accountability regarding the budget process. We are grateful for your willingness to engage in open and meaningful discussions with our community, and we are confident that the efforts you are undertaking will result in a more equitable and less crowded school environment.

We would like to extend our appreciation to all those who have worked tirelessly to make this vision a reality. We are grateful for your hard work and dedication, and we are committed to supporting the efforts of the Iowa City School District in this important endeavor.

We look forward to working with you and our community in the future to ensure a more equitable and less crowded school environment for all students.
to dismiss Plummer’s trial — had been ful-
filled. The defense had detailed part of the medical records to 6th District State Senator Jill Miller, saying a Nov. 18 record suggested he had no evidence of neurological trauma, such as those resulting from head
swelling or swelling. A Nov. 18 medical record said the patient’s condition was sta-
ble and he was discharged with no head trauma or major conditions.

The state’s evidence does not show the necessary ele-
ments to charge Plummer with attempted murder, a Clas
s B felony, Brown said, because he didn’t seriously intend to cause death. The
time record makes it clear the injured man was able to walk out the storm, Brown said.

The state’s medical records rebut its own attempt to commit murder charge, Brown said.

The prosecution, led by Assistant County Attorney Anne Labe, said the state has sufficient evidence to support testimony to support the charge.

The Iowa City City Council approved the new ordinance last month and began enforcing it at the beginning of the year.

It’s not unusual for officers during the grace period to still issue cita-
tions.

He attributed the winter break to low warning numbers, but anticipates warn-
ing and tickets will pick up when warmer weather approaches.

The city also saw a gradual increase in the number of permits sold since the ordinance took effect, said Iowa City Transportation Service Director Chris O’Brien. He said only 10 permits have been pur-
chased so far on Tuesday.

“I hope the $15 fine will get people to get out and buy the permit, comply with the regulations, and stay out of the bike-rack areas,” he said.

Not all moped parking space will be required to have permits, O’Brien said.

Fourteen new locations are now set aside just for student bus riders.

There are really two reasons why we enacted the new laws, Brown said.

The first one is because of the increasing number of moped and scooter being parked in bicycle racks, and the second one is because there is a lot of safety issues behind it.
Mubarak trial reveals splits

By HANZA HENDRI

CAIRO — Hosni Mubarak, on trial for his life, is forced to court by helicopter from a presidential hospital suite. His sons and stand-ins swagger in wearing designer track suits and no handshakes. His security chief is treated with near reverence by police in the courtroom.

For activists in Egypt, the scene only deepens their feeling that the authoritarian system the ousted president oversaw remains largely in place, almost a year since the 18-day uprising that toppled him.

When Mubarak’s trial began five months ago, many hoped it would bring not only punishment but a clear sense of victory for a movement that aimed to wipe the slate clean and start again.

Instead, it has boiled down to a bare-knuckled battle between protesters who stage peaceful protests under the surface of the trial what the revolution has really meant for Egypt.

That issue has polarized Egyptian politicians since Mubarak’s Feb. 11 ouster and the takeover of the reins of power by army generals widely believed to be beholden to him, led by his loyal defense minister of 29 years, Field Marshal Hussein Tantawi.

Iowa’s property-tax battle begins in earnest

By LYNN CAMPBELL

DEI MOOKER — Iowa’s biggest property-taxpayer groups urged lawmakers to hold and reduce commercial property taxes as the state can be more competitive, while local government officials warned the loss of revenue would increase tax rates for homeowners.

“This problem we all acknowledge exists,” said Kirk Johnson, president and chief executive officer of the Iowa Association of Cities.

“We respect and appreciate your wrestling with it, but we’ve been wrestling with it for 20 years. It’s time to make a decision,” Conlin said.

“I think we need a bold approach to create jobs, to move the state for- ward,” Mooker said.

Iowa’s commercial prop- erty taxes are among the highest in the nation. Con- lin said the high taxes people who rent and those who work inside commercial buildings.

But Bart Scott, president of the City of Des Moines, , said he was worried about the potential to increase sales tax rates for homeowners.

“I think the public got one of its first chances Tuesday to weigh in on a plan to reform Iowa’s property taxes,” Sanders said. Sanders said the movement for a 2 percent property-tax limit for commercial buildings.

“We’re exercising our right to stage peaceful protests — saying that protesters killed by police in the courtroom where the defini- tion for Mubarakurity and challenged the regime’s ‘legitimacy.’

Those divisions were said. "The public got one of its first chances Tuesday to weigh in on a plan to reform Iowa’s property taxes.”

One of the first chances Tuesday to weigh in on a plan to reform Iowa’s property taxes was House Study Bill 500, introduced by House Republicans, that cut property taxes for smaller businesses over the next 14 years.

The public got one of its first chances Tuesday to weigh in on a plan to reform Iowa’s property taxes. This man before you, whom you have seen in the balloon. It takes hundreds of protesters and hundreds of thousands of protesters for a revolution. El-Deeb said.

This man before you, whom you have seen in the balloon. It takes hundreds of protesters and hundreds of thousands of protesters for a revolution. El-Deeb said.

Mubarak, the former security chief Halabi el-Adly and four top security officers are charged with complicity in the killing of hundreds of protesters and could face the death penalty if convicted. Mubarak’s sons Alaa and Gamal, along with their father, are charged with corruption in the same trial, a case that would carry a prison sen- tence of up to 25 years.

But the near-miss of el-Deeb’s speech gave a peek into the inner workings under the surface of the trial what the revolution has really meant for Egypt.

Instead, it has boiled down to a bare-knuckled battle between protesters who stage peaceful protests under the surface of the trial: The revolution has really meant for Egypt.

This is truly eroding the base year after year for 14 years."

CEO of Conlin Properties}
By LARRY LAGE

ANN ARBOR, Mich. — Tom Izzo was in a foul mood after No. 20 Michigan beat his ninth-ranked Michigan State Spartans, 60-59, on Tuesday night.

As angry as Izzo was with the officials and as dis- appointed as he was lamenting that some of his player lacked toughness, he was more upset with the man in his mirror.

“I think I had a worse night than my team did,” Izzo said somberly at the end of his news conference. He blamed himself for not having a rotation that would have allowed Draymond Green and Keith Appling to rest more so that they could have played better late in the game.

Green scored a season-low 7 points and played 37 of 40 minutes, perhaps leading to him coming up short on a shot near the free throw line that potentially could have won the game.

Appling had 10 points — his fewest in a Big Ten game this season — and almost had as many turnovers (6) as assists (5) in 31 minutes.

“Draymond and Keith had to play a lot of minutes in stretches,” Izzo said. “The way we play, that’s not good.”

Shaun Livingston finished 6-of-8 from the floor, 3-of-6 from the arc and made 3-of-6 from behind the arc for an animated conversa- tion — about “a lot of things,” he said — that seemed to center on a turnover by the Spartans at midcourt late in the game.

“You have to have posses- sion of the ball before you can be over and back, and I don’t think there was pos- session,” Izzo said.

Michigan freshman Trey Burke scored 20 points and looked like best player on the court.

“I thought he played well and made some big shots,” Izzo acknowledged.

Deepti Nix led Michigan State with 13 points, but tagged his shirt to be taken out of the game at least once and played just 24 minutes because his improved conditioning has stick- es to the point that he can play more long minutes.

Nix made a shot to put the Spartans ahead 57-53 with 4:21 left — around eight minutes after they trailed by 11 — but then they were outscored 7-2 in the final minutes.

“We had our chances,” Izzo said softly.

With guard Rudy Fer- nandez out with a right Achilles tendon strain, coach George Karl turned to Brewer for a spark and wasn’t disappointed.

Brewer played a sea- son-high 36 minutes, was 6-of-14 from the floor and made 3-of-6 from behind the arc; “Cousy is playing well enough to the point where we are going to have find minutes for him,” Karl said. “I think he brings energy to our team. Unbal- lied energy and aggressiv- eness are positive personali- ties of a successful team.”

Brewer went on a 19-6 run midway through the second half to open up a 19-point lead. Six fast- break points sparked the surge and the Nuggets fin- ished with 17 in the first half.

Brewer hit a 3 and made a fast-break lay-up to add to the cause.

“Personally, when I come into the game, I just try to pick up the pace,” he said. “Try to bring some energy. Try to get everybody going up and down, because when we are playing fast, we are at our best.”

The Bucks were neither playing fast nor at their best.

Brandon Jennings did his part in the fourth quar- ter, but it just wasn’t enough.

He scored 12 of his 30 points in the fourth and first-round pick Tobias Harris added 14 for the Bucks, who lost for the first time in five home games.

Milwaukee last opened a season with five-straight home wins in the 2007/08 season.

Jennings’ driving lay-up got Milwaukee to 100-91 with 2:41 left, but Daniel Gallinari made two free throws and a 3 that stopped the Bucks from creeping any closer.

Al Harrington added 16 points, Gallinari and Nene each had 14, Amin Afflalo and Ty Lawson had 11 each.

The Nuggets easily captu- rized the Bucks on a pure perform- ance from the Bucks beginning from the frontcourt and swept the two-game series this season.

Denver beat Milwaukee, 91-86, on Jan. 2.

The Underdog Story of McCaffery's Iowa Basketball Team

**WRESTLING CONTINUED FROM 12**

matched its win total from last season with roughly half of the schedule remaining, and it appears to have a good chance at finishing conference win total from a year ago.

What's promising for the future is that McCaffery has turned Iowa City into a destination for some of the top high-school talent in the country, as opposed to a place players want to leave. This is evident with the nationally ranked recruiting class he will bring to town next year.

The underlying theme in all of this is that McCaffery's animated coaching style from the sidelines and fiery determination are paying off and getting a positive response from his players.

McCaffery exudes an intensity on the sideline that has been missing from the program for years. He's routinely seen on the sidelines in a definitive stance of his own, as if willing the five on the floor to a definitive stop. That's something Iowa fans couldn't have dreamed of under Lickliter.

When asked about how his players adjusted to the physique of the Michigan State game during a press conference on Jan. 12, McCaffery said, "We weren't dealing with it. We addressed it. We talked about it, and then it was time to take care of it, and we didn't take care of it. That wasn't happen — not on any team I coach, that's not going to happen. I'm telling you right now it will not happen." What McCaffery is doing is raising the expectations. It's no coincidence that Iowa couldn't stand watching its losses from the sidelines as they failed to simply compete against a highly-ranked Spartan squad. That's why he slammed the chair.

And that's exactly what the program needs.
HELP WANTED
Reach For Your Potential
1760 S. 5th Ave., Suite 1, Iowa City, IA 52240
Are you looking for a job that will fit into your school schedule? Reach For Your Potential offers a flexible, friendly environment and a fun working environment. Expect hourly rates to be $11-$18 depending on qualifications. Duties include providing supervision, transportation, and assistance with personal care to adults with disabilties. Purdue wears out Hawks
By SETH ROBERTS

The Hawkeyes fall apart in the second half of a 75-68 loss to Purdue.

But things went south from there for Iowa (11-5, 3-4 Big Ten), which pulled away to ice a 75-68 loss to Purdue (16-4, 8-2) in West Lafayette, Ind., Tuesday. The Boilermakers outscored the Hawkeyes 55-29 in the second half and led by as many as 11 points; they locked down the Hawkeyes and led by as many as 11 points, 52-43, late in the contest. They hit the half-up shot—but we got down. A physical game is going to wear us out.”

Iowa managed just one field goal in the first eight minutes of the second half, and only four for the Hawkeyes, which saw a 52-2 lead that didn’t diminish.”

The Hawkeyes fought back, hitting four free throws, including a 3-pointer by Purdue, and a series of missed free throws on the coffin closed.

“They were a little bit more thoughtful, and I think we have a little bit of a_dmrent from last time. But that can’t be an excuse for missing free throws.”

Iowa finished 19-for-30 from the stripe. McCaffery missed four free throws, but still finished with a career-high 20 points on 7-of-12 shooting.

Women's golf hires Cilek

The Iowa women’s golf team has announced Tuesday its has hired Laura Cilek as an assistant coach for the upcoming season.

Cilek has served as the team’s interim as assistant coach since 2011, and she was an outstanding student-athlete at Iowa as a native of Victoria, spring season at the Claud Jacobs Challenge in Victoria, Texas, Feb. 19-20.

The Hawkeyes will open their spring season at the Claude Jacobs Challenge in Victoria, Texas, Feb. 19-20.

By SAM LOUWAGIE

“Coach Menzel has a great vision for the future of Iowa golf,” said Mannehghan, who is one of two women on the Hawkeye coaching staff. “She has given me the opportunity to help with that vision, so I’m excited to be here.”

Cilek, a native of Iowa City, was a two-time Big Ten Scholar-Athlete during her career at Iowa, and was an outstanding student-athlete at Iowa. As a native of Iowa City, Laura will be a tremendous ambassador for our university community and our women’s golf program.”

“I am thrilled to have Laura McNutt as the team’s new assistant coach for the upcoming season,” said Megan Menzel, the Hawkeyes head women’s golf coach. “Laura brings a great deal of experience and knowledge to our program, and we are excited to welcome her to the Hawkeye family.”

McNutt is a finalist for the Jacobs Challenge in Victoria, Texas, Feb. 19-20.

By KYLE TELFORD

“Bobby Telford struggles to open up a four-match losing streak.”

Bobby Telford struggles to break out of a four-match losing streak.

People have told Bobby Telford that he looks tentative. “They’ve said don’t lose him. The results back that up. After beginning the season with 15-straight victories, Iowa’s heavyweight has lost four matches in a row, starting when he dropped a 2-0 overtime match to Central Michi- gan’s Jared Trice in the finals of the Midlands Tourn- ament on Dec. 30.

Then he suffered a 10-2 major decision loss to Oklahoma State’s Alan Golub on Jan. 7, that dual ended in a tie. The Hawkeye lost in the 125-pound weight class.

In addition to the career-reversing back-from-the-dead win, McNutt has made strides in the career as a Hawkeye—which he began in 2007 and finished in 2011 with 82 victories. In 2007, McNutt finished 17th at 197, 18th at 197 in 2008, 12th at 197 in 2009, third at 220 in 2010 and seventh at 220 in 2011.

The face of the wrestling mat lately. Telford looks tentative. People have told Bobby Telford that he looks tentative. “They’ve said don’t lose him. The results back that up.
