SCHOOLS MELL MINORS’ SAFETY

The University of Iowa has 6,270 mandatory reporters on campus.

By ASMAA ELIERSH

AMES—Higher education officials around the state say they’re taking steps to deal with alleged sexual assaults of several young men following allegations of sexual abuse.

The University of Iowa has reviewed its policies and procedures regarding safety of minors on our campus, specifically to address the issue of child abuse prevention. The report concludes that the University of Iowa has adequate policies and procedures in place to prevent child abuse and that the University of Iowa is committed to providing a safe and welcoming environment for all students.

UI President Sally Mason said the new policy was implemented to ensure that everyone on campus is aware of the university’s policies and procedures regarding safety of minors on our campus.

The updated policy includes new definitions for sexual assault and harassment, as well as new requirements for mandatory reporters.

The policy also includes new procedures for reporting sexual assault and harassment, as well as new requirements for mandatory reporters.

The policy is designed to ensure that everyone on campus is aware of the university’s policies and procedures regarding safety of minors on our campus.

The policy is designed to ensure that everyone on campus is aware of the university’s policies and procedures regarding safety of minors on our campus.

UI to add Friday classes

By CONRAD SWANSON

University of Iowa stuents will likely see more Friday classes next fall.

Following faculty requests, the Registrar’s Office has announced that the university will offer Friday classes in the upcoming fall semester for the first time in recent history.

The change follows a ruling last year that mandated all classes begin and end on a standard time frame — eliminating start times of 0 or 45 minutes into the hour — to get rid of the 31.25 percent occupancy. The basic goal for the new schedule is to get rid of the wasted space and overlapping course times.

The change comes as part of a larger effort to improve the overall student experience at the university.

The new schedule is intended to provide more flexibility for students, as well as allow for more efficient use of classroom space.

The change is expected to improve the overall student experience at the university.

UI opposes voter ID

By ANNA THEODOSIS

University of Iowa Student Government officials said they will oppose a voter-ID bill in the upcoming election.

UISG officials proposed a resolution Tuesday night declaring opposition to a voter-ID bill.

The bill — based on a proposal by Iowa Secretary of State Matt Moore — states that in order to vote in the 2012 election and subsequent ones, voters will need to present valid identification. The bill would also require the state to solicit the information.

According to UISG officials, the bill has the potential to stifle UI student voices.

Opponents say the bill could make it difficult for all UI students to vote, especially for those who do not have a driver’s license or a photo ID.

The bill — based on a proposal by Iowa Secretary of State Matt Moore — states that in order to vote in the 2012 election and subsequent ones, voters will need to present valid identification. The bill would also require the state to solicit the information.

Opponents say the bill could make it difficult for all UI students to vote, especially for those who do not have a driver’s license or a photo ID.
“What is especially exciting about tonight … is that we are able to show you some-thing real (and show) you that our campus renewal is not only a concept or an idea, but is real.”

UI officials also met with representatives of the Fort Wayne, Ind., news station WANE, Indiana Secretary of State Charlie White was found guilty last week of felony voter fraud charges after he voted in a May 2010 primary while being registered to a different address than his place of residence. Indiana’s voter-ID law is similar to the bill in Iowa.” Some UISG officials said the bill would hinder stu-dent voter turnout. “It’s a waste of taxpayer money because it requires all to get IDs when they vote,” said UISG Sen. Greg Braunson, who introduced the opposing resolution at the meeting. “We don’t want to suppress voter turnout, especially at the schools.”

The bill’s resolution was barely debated during the meeting. Some senators said the resolution was neces-sary. “It wouldn’t be that big of a detriment to students’ lives,” said UISG Sen. Michael Dickinson. However, he did not elaborate on his views.

Following further discus-sion, the resolution passed. In addition to the oppo-sition to the Iowa voter-ID bill, UISG senators dis-cussed a bill in support of per-sonalized posts. The bill would guarantee students their First Amendment rights in light of the pop-pon-spray incident at the University of California-Davis protest over a past post fall. After the removal of a clause, the bill passed.

UI Student Life, General Counsel, Risk Management and University Relations have also met over the course of the past year to discuss issues of minors on campus, particularly with athletics camps and various other off-campus events. Mason also discussed cur-rent procedures the univer-sity implements for back-ground checks on UI employees and staff mem-bers. Officials also check employees and students against the Sex Offender Registry, she said. Each university official asserted police for safety of minors on campus was very important, and did not think the board.

FRIDAY CLASSES CONTINUED FROM 1

UIO was a driving force for the move to a standard sched-uling system. Unlike many of the professors requesting more than 50-minute class blocks, Solow prefers to teach in 50-minute blocks during the week.

I find it easier to do the a.m.? Because we start work.

There are only so many pro-fessors, a few of whom have been stuck in early or unusual time slots could potentially alleviate pressure for pro-fessors who have been stuck in early or unusual time slots.

I think this is an extremely important area today,” said Regents Presid-ent Craig Lang. “I think in my own life … as a grandfa-ther, it’s even more impor-tant. It seems very obvious that everyone’s on top of it.”

Bill focuses on illegal workers

The University of Iowa uses the E-Verify system for employees funded by federal grants or contracts.

By DANA GROTE

Local policymakers are concerned over whether a newly presented House bill could spur ethnic profiling in employment.

The bill, House File 2156, would mandate all Iowa employers to use the E-Verify program, which checks potential employ- ees' Social Security numbers in a federal database to ensure they have legal authorization to work in the United States.

Kevin Ward, the Uni- versity of Iowa associate vice president for Human Resources, said the university uses E-Verify and doesn't believe profiling is an issue.

The UI uses the pro- gram to check all employ- ees funded by federal grants or contracts, he said.

"I don't think we have a strong feeling either way," he said. "From what we have seen in the bill, other people's concerns did not gener- ate a concern."

The bill would also require county attorneys and city or town admin- istrators to investigate all complaints, anonymous or not, about the employment of unauthorized aliens.

Ruth Schubert, a member of the Iowa Citizens for Community Action Fund, said the bill would indeed create possible ethnic pro- filing.

"You can't know the status of people just by look- ing at their faces," Schultz said. "At a place where there are a lot of Latinos workers, someone might think, 'That's not right and that they're not working,' and submit a complaint. There is no way someone should not submit a com- plaint because they think that's happening.""Some legislators dis- agreed with the Iowa Citi- zens for Community Action Fund's outlook. Rep. Greg Forristall, R-Des Moines, and the organ- ization is opposing the bill with lobbying interests in the community, but this bill could create dis- pute among employees.

"If people believe their constitutionality is being questioned, lawsuits cer- tainly prevail," Neuzil said.

Dorely said the I-9 tax form satisfies all require- ments for discovering illeg- al aliens and E-Verify is unnecessary.

"That's what the I-9 is for, to determine who you say you are and if you are legal to work," he said.

But Forristall insisted the bill would be in the employers' best interest.

"If I were an employer, I would want to make sure my employees are legal employees," he said.

The bill will be dis- cussed Thursday at a House Judiciary Commit- tee meeting.

Background Checks

Employers use different tactics for running back- ground checks on their employees.

Learning from Belafonte

By SAMANTHA GENTRY

University of Iowa jun- ior film student Jenna Laster enjoys viewing free screenings at the Bijou, so she wanted to get involved in a program, such as React to Film, that contributes to the variety of films shown at the theater.

"I am eager to see how the socially charged themes of these documentaries affect both me and other students," she said.

"I am thrilled to have the opportunity to help pro- mote the screenings across campus,"

More than 20 colleges and universities across the country will join the organization to screen the documentary film Sing Your Song, the Iowa City screening will take place at 6:30 p.m. today in the Bijou. Admission is free.

The React to Film organization is a nonprof- it that shows films on campus and encourages student participation in the screenings.

The University of Iowa School of Music will give a documentary film screening this semester and the first in which a professor from the School of Music will give a lecture on the topics revered in the film.

The Daily Iowan

For home delivery, phone 335-5783
WASHINGTON — The Senate was scheduled to take up a bill to extend federal highway and transit programs later this week even though Democrats were still struggling Tuesday to find a way to pay for the programs. The Senate Finance Committee approved a measure that raises about $10 billion, but that would leave the actual amount needed in a weak economy, is widely seen as too small, especially for a bill that raises over 10 years even the money the committee is trying to raise over 10 years.

The Senate Finance Committee approved a measure that raises about $10 billion, but that would leave the actual amount needed in a weak economy, is widely seen as too small, especially for a bill that raises over 10 years, about half of the money the committee is trying to raise over 10 years, about half of the money the committee is trying to raise over 10 years.

### Iowa offensive tackle Riley Reiff:

Riley Reiff throws a block during the Hawkeyes' 20-7 loss to Nebraska on Tuesday.

**By SETH ROBERTS**

Seven members of the Iowa football team received invitations to the NFL annual scouting combine, according to a list of invitees the league released on Tuesday.

The group is headlined by offensive tackle Riley Reiff, who is one of only four Big Ten underclassmen to get an invite to the NFL combine. Reiff, who has a walk-on kid or a scholarship, has an entire season to add to his résumé, which already includes a silver medal at the NCAA meet with 23 home runs. He's good at it, too.
