Parents debate redistricting

All redistricting plans are proposed changes for the 2013-2014 school year.

By ANNA THEODOSIS

Joe Smolinski/ for the Daily Iowan

Iowa City School District parents spoke in support of district administrators during a discussion on elementary-school redistricting at a public forum Thursday.

The forum focused on the second draft of redistricting plans for Rill, Tewin, Longfellow, and Wood Elementary Schools in order to address overcrowding concerns at Wood. The first draft of redistricting plans presented last month is still being considered as well.

Concerns about Longfellow, which will lose students from certain neighborhoods to Tewin and Wood and receive students from other Tewin neighborhoods, formed a key point of parent discussion.

“They’re moving 264 kids around the elementary schools, and minimal goals are being achieved in addressing overcrowding,” said Beth Runyon, a Longfellow parent. “Why disrupt these 264 kids to really not have any gains?”

Under the second draft of redistricting plans presented for the 2013-14 school year, Longfellow’s attendance would be reduced from 340 to 300.
The new officers of the UI Executive Council of Graduate and Professional Students will begin their terms in May.

**Executive Council seeks collaboration**

BY RONNIE HANNAH

The new leaders of the University of Iowa Executive Council of Graduate and Professional Students and the council’s president hope to see more collaboration among UI members, a trend that started last year.

Dean of the College of Liberal Arts and Sciences, President-elect Michael Apell said that the group plans to focus on a Big Impact initiative, which is designed to create more opportunities for postgraduate members.

"The College of Liberal Arts and Sciences is the cornerstone of the University of Iowa," Apell said. "It connects the campus to the state and the world and is crucial to our mission."

Freeman trial rests

The trial for Broadway Neighborhood Center Director Susan Freeman-Murdah has been pushed back again. Freeman-Murdah was charged Feb. 1 with failing to fulfill her legal duty as a mandatory reporter after hearing evidence that a child in Head Start -- which Freeman oversees -- had been sexually abused, according to a police complaint. Freeman allegedly failed to report any sexual assault within 24 hours. Police said the alleged victim was under 12 years old.

The final pretrial conference will now be held May 4, and the trial will begin May 8 in the Johnson County Courthouse.

VOICES OF PHILANTHROPY/PHIL’S DAY 2012

Last summer, my staff and I traveled Iowa, talking to folks of all walks of life about the middle class—everyone from recent college graduates to Iowans seeking to move elsewhere. Unfortunately, the discussion was dominated most surprisingly is that the middle class can no longer promise the good of a promising future. A decent standard of living and a dignified retirement—is it slipping away from us? The word “middle” major nation on earth, our country can and should do better.

The promise and strength of the middle class are the backbone of this nation. Egalitarianism is a principle that undergirds the United States and modern America. This diversity tackles the problem of percolating-up economics for the middle class—the backbone of this nation. Our economy has been held back by percolating-up economics for the middle class. As we in the Midwest, we do not foster a true from the top down, you foster the true.

There can be sustainable economic growth, sustained and maintained to return to fiscal health. As the recovery of the middle class is the backbone of this nation, it’s time for Washington to have the backbone to not only defend it but rebuild us.

BANNEDETTE, AMANDA GREUBL.

As the 2012 session begins to wrap up, the largest remaining differ- ences between the Iowa Senate and House involves investment in education. This includes proposals to improve funding for the Iowa Student Loan Forbearance Act. Iowa Senate leaders note that only 40 percent State House leaders have not passed a bill as yet, and are hoping for a compromise that will benefit the middle class. As we in the Midwest, we do not foster a true from the top down, you foster the true.

There can be sustainable economic growth, sustained and maintained to return to fiscal health. As the recovery of the middle class is the backbone of this nation, it’s time for Washington to have the backbone to not only defend it but rebuild us.

Expert: Expand wind energy

Wind power makes up 18.8 percent of all Iowa-provided energy.

BY LOGAN EDWARDS
Logan@DailyIowan.com

An Iowa energy expert said public policy and political issues form the greatest obstacles to an expansion of wind energy in the state at a conference Thursday.

University of Iowa engineering assistant professor Dan Mineck said people often worry about technology relating to wind energy and future energy problems.

"This nation is faced on a policy basisthat will get us to where we need to go so we can have a sustainable energy future," he said.

Mineck discussed the future of wind energy Thursday in Macbride Auditorium. The retired vice president of energy and environment at Alliant Energy stressed the need to build more transmission lines to allow the abundance of wind power in the state to be harnessed from the region and sold to the coast.

Wind power makes up 18.8 percent of all Iowa-produced energy, according to the Iowa Wind Energy Association.

Mineck also addressed the political hurdles officials need to be on top of.

"One of the reasons it's difficult to get the public policies we need to secure our future is because federal agencies each have a different role that is largely independent," he said. "This makes it difficult for state agencies, such as the Iowa Utilities Board, and public utility commissions in every state also influence public policy — so it's really hard to get a uniform, well-defined policy"

"This situation is similar to a set of chopsticks," he said. "You can't rely on government to do it. The private sector must be involved."

Afterward, in a question-and-answer session, Mineck talked about the financial aspect of his work.

"We have had consistent price declines up until recently regarding wind-energy transmission," he said. "Yet Iowa's federal production tax credit will expire in December, he said, and the state's wind industry growth, even if the incentive continues, would be hard to obtain for wind.

"We're very confident it will," he said. "Congress understands that there will be a significant loss of jobs if the wind industry is frozen."

Mineck also said more transmission lines are being developed. Close Line Energy Co. will construct high-voltage transmission lines in the central region of the United States. The project should be completed in 2010.

"This has been a very tough period for the wind industry," he said. "But when Congress passes the stimulation act, it will really help the wind industry."
MEN: A marriage proposal will motivate you and inspire a creative approach to what you are trying to accomplish. Revisit an old project, and you will find a way to resurrect it. Profits can be made if you express what you want. Keep a low profile, but do your best to make improvements at home that will benefit everyone around you.

WOMEN: You will do better if you take your time and look at all the possibilities before you make a commitment to anything. You may be trying to develop or promises that won’t be kept. Challenges will add excitement to your life. You can gain power if you pick up additional skills or knowledge. Challenges will add excitement to your life. You will gain power if you pick up additional skills or knowledge. Challenges will add excitement to your life. You will gain power if you pick up additional skills or knowledge. "The credit union provides education to young adults, which is something they need when shopping." — Kelley

Some parents applauded the School Board and administration for their efforts.

"Administrators made the attempt to do the big redistricting thing," said Sue Barron, a Wood parent. "I think that plan was torpedoed by people who are afraid of change."

At the forum, Barron told administrators to continue in this face of opposition. "Stop listening to parents, who are always going to be to force advocates for their children," she said. "You're bigger than that. Your job is to make the best decision for all of the kids regardless of whether it's a popular choice, but because it's the right thing to do!"

"This plan gives education to young adults," said Brent Bor-.....

HAWKEYE SPORTS

3 men's gymnasts advance

Iowa's men's gymnastics team finished third out of 11 at Friday's NCAA Regional at the NCAA Colonel, but three Hawkeyes earned their bid to the NCAA championships. The Hawkeyes posted a team score of 339.5, the highest score in Iowa's history. By MOLLY IRENE OLMSTEAD

The Hawkeyes will compete at 7 p.m. Saturday in the all-around and team finals. A 9 p.m.伊利克 in an event will be determined by Sunday's competition, where the top eight athletes in each event are awarded spots.

"In Davenport this year, she has done a lot of things different as far as her role on the team and it's helped a lot. She's been more of a leadoff hitter, put a lot of pressure on the pitcher and you can see there are some changes and see how they're helping the team, " Keim said.

"I'm so glad she's here to win — to see a little bit more of Iowa's offense. And that's a change from last year to .330 in 2012, an additional .020 improvement in her on-base percentage," Maliszewski said. "Last season, Kate was just trying to figure out what it looks like for her to be suc-

In the NCAA championships for the second straight year, Balboa, Storlenga, and Gryshayev will compete today in the all-around and team finals. A 9 p.m. Ellison in an event will be determined by Sunday's competition, where the top eight athletes in each event are awarded spots.

The Hawkeyes are a top-flight pro football team, having won numerous championships. The 2023 Super Bowl would be a big victory for the team, as they have struggled in recent years.

In the world of sports, it's not uncommon for teams to face challenges and setbacks. However, with hard work and dedication, the Hawkeyes are determined to achieve greatness on the football field.

HAWKEYE GOLF
Men’s golf heads to West Lafayette
The Iowa men’s golf team will be in action this weekend at the Eilerman Invitational at the Kampen Course at Purdue. The 11-team field will feature some of the nation’s best golfers.

Iowa head coach Mike Hartley said the tournament will allow the Hawkeyes to play a different kind of golf than they have in the past.

“It looks like a golf course that will test you in different ways,” Hartley said. “It looks like a course that will test you physically and mentally.”

The Hawkeyes will face a field with five ranked teams — Nebraska, Illinois, Michigan, Ohio State and Purdue.
