Dorm construction to be regulated

By JOE HITCHON
joe.hitchon@gmail.com

Construction has begun for the first new residence hall built on the UI campus in 44 years. It will be located on the West Campus, at the intersection of Grand Avenue and Byington Road. Construction on a 10-floor, $53 million dorm is expected to be completed by the summer of 2015.

"One of the stipulations of the contract is not to allow work early in the morning, so that during the school year, students will not hear any construction equipment at 7 a.m.," he said. "We also try to make sure that the construction ends each day at a reasonable time. This slows down the construction schedule a little bit, but we've incorporated that into the timeline for getting this project completed."

The new residence hall will be located near the intersection of Grand Avenue and Byington Road. Because the construction project is scheduled to continue for a prolonged period of time, steps have been taken to minimize the disturbance posed to students and UI happy with job statistics

University of Iowa officials are confident with the accuracy of job placements statistics reporting.

By NICHOLAS MILLER

Iowa City and UI police officials say their respective departments make accommodations to combat the possibility of poor job performance and health-related issues that may arise with those working night shifts.

A police officer checks his computer while parked downtown on Sunday. A recent study from the UI shows that police working night shifts have higher risk for health issues. (The Daily Iowan/Juan Carlos Herrera)

"The primary way is self-reporting," said Garry Klein, the assistant director of academic programs and assessments at the Pomerantz Career Center. "If at any point the students find that they have not been given the appropriate breaks, or they're being exposed to a risk that they have not been informed of, they have the right to report that to us."

"The primary way is self-reporting," he said. "But we're doing our best to make sure that we're following the appropriate safety regulations and that we're providing the appropriate training to our workers."
New medical dean aims high

Debra Schum was announced as the next dean of the Carver College of Medicine July 19.

By AMMA ELDRETH

Debra Schum was named the first female dean of the Carver College of Medicine in a move that will be watched by other medical schools across the country.

"This is an absolutely significant hire," said University President J. Roy Henrichs. "Debra Schum is a leader who has demonstrated the ability to move the national debate on interprofessional health training," he said.

Following Schum’s departure, Denise Ham- mond took over temporarily as dean on July 1. Hammond joined the college in 2000 as a provost and until April 2013 she led the Interprofessional Health Training Department.

"Debra Schum is an inspirational leader who brings to the position a broad range of academic and practical experience," said Hammond. "She is a true leader in the medical school’s mission to prepare future physicians and health professionals."}

Debra Schum, a candidate to become dean of the medical school, spoke at a public forum June 26. The event announced the final round of the Carver College of Medicine, Schum has been speaking about her vision for the college since she joined the school in 2000.

"We are very pleased to announce that Debra Schum has been selected as our next dean," said Henrichs. "Debra Schum has demonstrated a strong commitment to medical education and has been a leader in the development of new models for health care delivery. She brings a wealth of experience to the position and I am confident that she will be a wonderful leader for our college."

New Dean of Carver College of Medicine

The new dean is the first woman for the University of Iowa Carver College of Medicine.

"We are thrilled to welcome Dr. Schum to our team," said Henrichs. "She brings a fresh perspective and new ideas to our college. We look forward to working with her to ensure that the college continues to be a leader in medical education and research."

Deborah Yee, the current dean of the Carver College of Medicine, will remain in her position until Schum takes over on July 1.

Yee has been dean of the college since 2011 and was previously the associate dean for academic affairs. She is a leading expert in the field of medical education and has been involved in numerous initiatives to improve the training of future physicians.

"I am very grateful to Deborah Yee for her service as dean," said Henrichs. "She has been a tremendous leader and I am confident that she will continue to be a valuable asset to our college as an associate dean."
off the night shift at around 7:30 a.m. but they have to be back at 11 a.m. for a court appearance.

According to a UI press release about the study, 83 percent of police on the evening or night shifts reported having to report to duty early the next morning.

“Court appearances absolutely keep officers from sleeping,” Akers said.

“Nobody’s fault—it’s just how it is. It really does make their life a little more difficult,” Akers said.

Akers said officers try their best to make sure officers who have an early court appearance are able to sleep. He said instead of getting off at 7 a.m. they sometimes get off at 3 a.m. to go home and sleep before having to be at court in the morning.

“We make accommoda- tions,” he said. “We try to help facilitate so that it’s easier on us as people.”

The UI police make accommodations by rotating officers every six months between overnight shifts and day shifts.

UI police Lt. Eric Wer- sing said his last rotation included: officers working the 11 a.m. to 7 a.m. shift; a group of officers working the 7 a.m. to 3 a.m. shift; and officers working the 3 a.m. to 7 a.m. shift.

“I know it’s not a lot of sleep for them,” Wersing said.

A study conducted by a UI professor and police officers revealed police officers rotate their shifts and have trouble getting enough sleep.

University of Iowa police reported they worked more than six months without a consistent time frame, he said. In one survey, only 13 percent of officers reported having a consistent time frame, he said.

A study conducted by a UI professor and police officers revealed police officers rotate their shifts and have trouble getting enough sleep. The study is the first of its kind.

The reconstruction of the T. Anne Cleary Walkway has been going on for over a year, including reducing space for exams and headed outdoors, or for the students who go to class, drink coffee, and eat. The project is estimated to cost $242,000 with $125,000 coming from student fees and $115,000 coming from the Iowa City Council. The project will be finished by May 12, with students and faculty working on the project as needed. The walkway is expected to be fully operational by May 15.

The project involves the removal of planter boxes and the addition of new planters along the walkway. The planters are being removed because they are too close to sidewalks and do not provide enough space for students to walk through.

The walkway has been closed to traffic and pedestrians for the past few weeks, with the New Council Iowan reporting that the students were forced to walk in the road. The Iowa City Council has approved the project, and the walkway is scheduled to reopen in late May or early June. The reconstruction of the walkway is expected to be completed in June.

In an interview that the Cleary Walkway was discussed, a student said, "It is frustrating to see such a large project being done without proper notification to the students. We were not even aware of the plans until we received a notice on our phone." Another student said, "I think the university should have done a better job of communicating with the students about the project. We were caught off guard by the sudden closure of the walkway."
**Sure-Fire Dating Tips for Men:**

- Want to ask out your crush this Saturday? After a funny dinner, just “happily” drop your ‘ball’ and say “what’s cookin’, cutie.”

- **Ball Out:** Before you make a purchase, do your research and wear something low-cut. Anyone who talks like your date, “I’ll hit you back and wear something low-cut.”

- **40 Out:** If you are looking for instant gratification, you’ve come to the right place. Don’t defer; voice your opinion. You can get your peace and prosperity all at once.

- **8 Out:** If you are looking for better luck in your love life, you should rigidly control your motives. The vendor may be misleading you, or you may be trying to impress someone with what you have. Focus on what you have, and keep an open mind.

- **16 Out:** If you are looking for better luck in your love life, you should rigidly control your motives. The vendor may be misleading you, or you may be trying to impress someone with what you have. Focus on what you have, and keep an open mind.

- **24 Out:** A partnership may terminate if you don’t compromise or at least listen to complaints. This is a good day to sign contracts, formulate deals, or move forward with a self-improvement project that will make your life better. Property deals or making a move will be beneficial.

- **32 Out:** Listen carefully, and size up a situation before you retaliate. It’ll be best to let your anger out at home and not to bring it to work. At home, you can express yourself without fear of being penalized.

- **40 Out:** Don’t be too quick to make changes at home that may be costly. Use common sense, or you may end up stuck with something that doesn’t fit your lifestyle or your plans for the future. Good fortune will appear here and now.

- **48 Out:** Don’t make promises you cannot keep. Someone will try to coerce you into doing something that doesn’t really suit your skills. Contain your temper, and don’t vent your frustration on loved ones.

- **56 Out:** If you feel up to it will be your loss. Seize the moment; embrace whatever is being offered. Partnerships, progress, and a new understanding will be possible.

- **64 Out:** After a fancy dinner, just “happily” drop your ‘ball’ and say “what’s cookin’, cutie.”

- **72 Out:** 10:45 a.m., Home Ec Workshop, 207 N. Linn St.

- **80 Out:** 9:30 a.m., Johnson County Fairgrounds, Coralville.

- **88 Out:** 10:30 a.m., Iowa City Public Library, 123 S. Linn St.

- **96 Out:** 11 a.m., Coralville City Hall, Coralville.

Iowa hires Pritzker to head rowing

Steve Pritzker has been named the head of the Hawkeye rowing program, replacing former head coach Randi Kowal, who resigned from the Iowa coaching staff in May. Pritzker has coached at Virginia for nine seasons, most recently as associate head coach since 2009.

Pritzker led the Cavaliers to two NCAA team titles in 2007 and his men’s rowing program has both finished in the top five of national competitions and is a consistent qualifier for the NCAA championships.

In his 12 years coaching in the NCAA Division I, he has coached 18 athletes that have qualified for the NCAA championships in the fall and spring. His Cavaliers have also produced a national champion.

“I’m excited to work with the current student-athletes and lead a program that competes for championships and is a national presence on a consistent basis,” he said.

Pritzker is a native of Paragon Gymnastics in Fredericksburg, Va., and the girls are great, and they are dedicated,” he said. “It was a great job, and I will miss the athletes who I’ve had the chance to work with over the years.”
