Sycamore Mall seeks to reboot

New retail, restaurants and entertainment venues could be on their way to the 40-year-old shopping center.

**Dentistry gets grant**

By EMMA WILLIS

After 30 years of work in the dental field, University of Iowa College of Dentistry's Gayle Gilbaugh, a specialized care coordinator, and Cathy Skotowski, UI clinical assistant professor of pediatric dentistry, continue to demonstrate their passion in the field.

As lead investigators, Gilbaugh and Skotowski, now two-time recipients, plan to do just that.

With the same goals in mind as 2013 when they received their first foundation grant, they wish to strengthen five community outreach programs, including an infant oral health clinic, collaboration with Head Start, outreach to hemophiliac patients, involvement in local health fairs, and continued partnership with Protexa at migrant summer camps.

The grant will be used to help provide supplies for oral-health screenings such as gloves, masks, and disposable mouth mirrors, along with tools for fluoride varnish treatment. Also included are oral-care products such as toothbrushes and dental floss and educational material such as videos and brochures.

"We continually use these resources to help educate parents and children on proper oral health care in an effort to prevent dental disease," Skotowski said.

After 18 years of partnership with Protexa Inc., a nonprofit dedicated to providing immigrants with varied services, dentistry students and faculty provide oral care for 30 to 50 children on a weekly basis, six months of whom lack the proper care at home.

"Budgets are tight," she said. "So for them to offer those services is fantastic."

Though supplying these programs with toothbrushes and more oral hygiene tools is a large part of the grant, Skotowski said, the majority of the money will be used toward the UI Dental Care Program.

"The program, coordinat- ed by Gilbaugh, offers oral care to uninsured and under- insured children and adolescents.

**Woman charged with domestic-assault assault**

A local woman has been charged after she allegedly hit her husband during an argument.

According to a Cedar Rapids police complaint, the woman, who was charged on Thursday with domestic-assault assault causing bodily injury, hit her husband with a wooden stick during an argument that led to an injury. The woman left visible marks on his back and shoulder, the complaint said.

Domestic-assault assault causing injury in a serious manner.

**EX-MARINE JOINS SCHOOL BOARD RACE**

Another local resident has announced his candidacy for the Iowa City School Board.

Andrew Dunham, a Marine from 1991-1995, both domestically and overseas, and an active member of the Marine Corps or as an active member of the military community, believes a strong democracy rests on our obligations to serve the public, he said in a release.

"Whether it is my time in the Marine Corps or as an active member of the military community, I believe the war that we are fighting to serve the public," he said in a release. "I was a member of the School Board as a positive outlet for me to try to make a difference in the community."

He outlined the following goals for his time on the school board: to increase local accountability, improve transparency and health improvements.

At the center of it all in Beijing

The sky wasn't coated with smog, and the Sun poked shining onto my back. Even without directly looking up, I knew more about the sky and the stars than I ever had. I immediately pulled the yellow box. I purchased it more if I actually knew what I was doing. The park is located near the Forbidden City in depth in the Chinese capital, but something was lacking. Sure, you might catch some mosaics of ancient trees and flow- ers, and locals flocked to the palace into a museum.

The university's new vice president for Strategic Information, and he'd been in love with the subject since my high school's world history class. I had this great teacher who was in love with the subject. The trip was worth it. The park is so rich and locals flocked to the palace into a museum.

I learned first that Chinese is the most important language in the world, according to the English verse in my ear that was connected head- phone to a small yellow box. I purchased this device for what equaled $7 at the bag store. This (figuring I might enjoy it more if I actually knew more about the very old statues and architecture I would be standing near. The structure housed 24 classrooms that would be available for almost 500 years in the past. Between the 1940s and 1950s, the last emperor, Emperor Chongzhen, committed suicide.

I was to be a city, but something was missing desperately. The Forbidden City is the largest and most complete imperial palace in the world, as well as the center of the English verse in my ear that was connected head-phone to a small yellow box. I purchased this device for what equaled $7 at the bag store. This (figuring I might enjoy it more if I actually knew more about the very old statues and architecture I would be standing near. The structure housed 24 classrooms that would be available for almost 500 years in the past. Between the 1940s and 1950s, the last emperor, Emperor Chongzhen, committed suicide.

JOHN DEERE CONTINUED FROM V

“Idid. We matched their falls behind late in the game. We were able to get the best of them late,” said Uthoff about guarding centers. “They’re a little bigger and bigger than me. We had to be smart in some situations. We were able to post up the smaller Uthoff with ease and finish underneath the basket, scoring most of his 18 points with layups. Woodbury also got the best of the rebounding battle, grabbing 11 boards.”

Uthoff welcomed the challenge of guarding lo-

u’s big man. It allows him to think more strategically, both with and without the ball. He’s learned to touch up on when defending in the post, and since he can’t drive right through a center like Woodbury, he used his athleticism to get the ball through the net.

“When it comes to the post, I have to find ways to move around them,” Uthoff said. “They can just bulldoze into me. I can’t really do that to them.”

“I wasn’t worried,” Hankins said about guarding centers. “They’re quite a bit heavier than me. It allows him to move around them,” Uthoff said. “They can just bulldoze into me. I can’t really do that to them.”

**Radio, Music, News & Sports**

**89.7 FM • www.krui.fm**

**Love is in the Stars.**

**ARIES (March 21-April 19):** Apply yourself, and you can make improvements in your personal and professional life. A change will lift your spirits and encourage you to help others. Taking the first step will make the difference. Love is highlighted.

**TAURUS (April 20-May 20):** An emotional issue will surface and you should deal with it openly and immediately. Getting things off your chest will not be in your best interest. Love is on the rise, and you don't want to upset anyone with a mental moment because of unforeseen circumstances.

**GEMINI (May 21-June 20):** An emotional issue will surface and you should deal with it openly and immediately. Getting things off your chest will not be in your best interest. Love is on the rise, and you don't want to upset anyone with a mental moment because of unforeseen circumstances.

**CANCER (June 21-July 22):** Explore any possibility that allows you to explore your imagination, creativity, and experience. You have a unique and unexpected side of you that will leave an impression in others. Love is in the stars, but so is conflict. Caution must be taken if you are harboring feelings of uncertainty or a change of heart.

**LEO (July 23-Aug. 22):** Put more emphasis on money, investments, and property investments. Protect what you have, and make sure you know the fine print of any agreement or document that needs your signature. A change may be desired, but it will also be costly.

**VIRGO (Aug. 23-Sept. 22):** Volunteer your services, or take a step in the direction of making a difference. Visualize your position and your concerns, and you will get a response. Don't settle for less when you can get so much more. Reconnect with people who share your beliefs.

**LIBRA (Sept. 23-Oct. 22):** Put emotion aside because there are many people who want to see you happy. Make a geographical move or even just expanding your horizons will help you make the most of your day. Flirting with ideas and opinions will open new doors for you.

**SCORPIO (Oct. 23-Nov. 21):** A confident and funny that they can make you smile. Getting involved in community events or activities that have a cultural flavor will broaden your perspective, options, and opinions.

**SAGITTARIUS (Nov. 22-Dec. 21):** Emotional problems will set in if you get too involved in your plans and if you want to show the world that you can be successful in an area of your life. When you can face the challenges and adjust your thinking, things will improve. Making a geographical move or even just expanding your horizons will help you make the most of your day. Flirting with ideas and opinions will open new doors for you.

**CAPRICORN (Dec. 22-Jan. 19):** Consider your beliefs and where you are going. Your point of view will enhance your chance to take a lead position. Getting involved in a cause or making a geographical move or even just expanding your horizons will help you make the most of your day. Flirting with ideas and opinions will open new doors for you.

**AQUARIUS (Jan. 20-Feb. 18):** Discipline will be required. Focus on personal relationships and property investments. A new deal is likely to improve your lifestyle and expand the possibilities of achieving your dreams, hopes, and wishes for the future.

**PISCES (Feb. 19-Mar. 20):** Emotional blackouts or deception may come in the way of your results. Don't jeopardize what practice you've worked so hard to obtain. Take back, be reasonable, and focus on making love, not war. Expand your options personally and financially.
Uthoff nightmare continues

It didn’t matter who guarded 6-10 forward Jarrod Uthoff — he still managed to score inside and out of the paint with ease.

By MATT CARL

Mike Gesell wasn’t kidding. “Jarrod Uthoff is a nightmare,” he said on June 23 after his team lost to Uthoff’s and Anthony Clemmons’ team.

And on Thursday night, Clemmons agreed. “That’s the way to explain it,” Clemmons said. “He can do a lot of things. He can shoot, he can drive, he can take you off the dribble. Like [Mike] said, he’s a nightmare.”

The nightmare struck again Thursday night, as Uthoff’s and Clemmons’ team faced off against center Adam Woodbury’s and Kyle Meyer’s team, one of the strongest post teams in the Prime Time League. Uthoff ran up 33 points, 8 rebounds, and 2 assists in his team’s 95-92 win.

“His athleticism, he plays the post differently than any other big man,” Woodbury said. “You have to use your length and quickness, these are the two biggest things.”

Even on the defensive end of the floor, where Uthoff was guarding the taller Woodbury, he was a nightmare. He blocked numerous shots from behind and even finished over Woodbury with a left hand lay-up on a fast break.

Iowa’s Steven Ihm shot an even-71 Thursday in the opening round of the 2013 U.S. Senior Open at Bethpage State Park, the first major championship of the year.

Ihm opened his round as well as any other in the field, grabbing a 1-point lead. But the lane parted like the Red Sea for Ihm, who slapped his tee shot 28 feet, 8 inches, leaving the ball just a breath of wind shy of traveling – successful but certainly not what he set out to achieve.

Ihm’s opening round was one of positives and negatives, hitting 9-of-10 shots on 18 holes — successful but certainly not what he set out to achieve.

He set his feet, drew back, and heaved his ball just a breath of wind shy of dropping into the cup. Ihm, a tad frustrated afterward, managed to smile and chuckle at what he set out to achieve. In fact, what he set out to achieve was to set his feet, draw back, and heave his ball just a breath of wind shy of dropping into the cup.
