The number of bus trips has steadily increased by 10,000 rides each year for the past five years. Bruce Rastetter outlined plans for the State Board of Regents to expand the Iowa Statewide Voluntary Preschool Program — created in 2007 to fund preschools for 4-year-olds — to increase participation in schools across the state and decrease waiting lists. After compiling third grade reading proficiency levels, Quarmbach said, the students who participated in the program had a significant difference between those who did not attend preschool.

“We need to get more participation from low-income families and racial minorities,” he said. “Those groups are the ones that gain the most from these programs.” He said about 10 percent of the districts that do not participate in the voluntary program — a statistic Quarmbach wants to change.

SEATS ridership increasing

SEATS bus service has seen a steady increase in riders over the past five years and now looks to expand the numbers in its fleet.

By CARTER GRANBERG

After years of chauffeuring one local flight of white buses to locations to expand its reach, SEATS Paratransit, Johnson County’s primary bus service for the elderly and disabled, revealed during a recent Board of Supervisors meeting Thursday it has experienced continuous growth in the number of riders over the past four years.

As a result of this increase, SEATS wants to replace four old vehicles and acquire an additional two new ones for Iowa City to better accommodate the riders. The additions are expected to be in April.

SEATS Director Tom Brase spoke about the financial strain the old vehicles have been causing.

“The vehicles keep breaking down and needing repair, which is hurting the taxpayers in Johnson County,” he said. “So we are really in need of new and more buses.”

In addition to the four replacements, SEATS would like to acquire two new buses to help assist with its ever-growing ride demand.

The number of bus trips has steadily increased by 10,000 rides each year for the past five years. Bruce Rastetter announced their choice to lead the new initiative.

WASHINGTON — Attorney General Eric Hold-
er was talking about points of control, to try to change the way the Justice Depart-
ment views the crimes that matter. Those convictions — and the review that is needed —
should have their rights." He said.

If Holder has been on an aggressive streak, it’s by design. On Tuesday, the attor-
ney general ordered the Justice Depart-
mint to review its policies on drug en-
forcement, including where the feds should and shouldn’t go.

The Justice Department is facing a second major crisis: Only 8,000 people —
about 3% of the population — are serving time for serious violent crimes.

That’s a problem because state and local governments have been
forced to release inmates in order to keep their budgets in check.

Inmates who were convicted of violent crimes are being released early,
and many are being released with new sentences that carry manda-
tory minimum terms. That means offenders who would have been
sentenced to life are now getting mandatory sentences of 20 to 30 years.

Holder has said he’s willing to make changes to fix that broken system.

But that will be a hard sell for state attorneys general, who are resis-
tant to give up control of their prisons.

"The issue is how to provide states with reasonable guidance on the
role the Department of Justice can play," Holder said.

Holder said he’s trying to work with state attorneys general on a plan
to try terrorists, including those who are accused of plotting attacks in the U.S.

Holder said his plan is to try those cases in federal court, but he wouldn’t
give specifics on how that would work.

"I’m talking to the governors of those states," Holder said. "I’m talking
to the heads of the justice departments and I’m going to try to work out
something that is going to work for them."
The best tests of astronomic principles, the type that simply cannot be compromised, are whether...
Atlanta tries to brave new winter storm

By CHRISTINA A. CASSIDY

ATLANTA — The city dodged the first punch of a dangerous winter storm Tuesday, but forecasters warned of a potentially "catastrophic" second blow in a thick layer of ice that threatens to bring hundreds of thousands of power outages and leave people in their cold, dark homes for days.

The streets and highways in metro Atlanta were largely deserted as people in the South's business hub heeded advice from officials to hunker down at home, especially after the snow jam two weeks ago saw thousands of people stranded on icy, gridlocked roads for hours in a blanket of snowfall.

"Last time, I was totally unprepared. I was completely blindsided," said Lisa Nadir of Acworth, who sat in traffic for hours when 2 inches of snow fell.

"I'm going to be prepared this time," she said. "It's to be expected." Nadir was telecommuting from home Tuesday, and she had kitty litter in her trunk in case she needed to put it down on icy roads for extra traction.

The forecast drew comparisons with an ice storm in the Atlanta area in 2000 that left more than 500,000 homes and businesses without power and an epic storm in 1973 that caused an estimated 200,000 outages for several days. In 2000, damage estimates topped $13 million.

Eli Jacks, a meteorologist with National Weather Service, said forecasters employ words such as "catastrophic" sparingly.

"Sometimes we want to tell them, Hey, listen, this warning is different. This is really extremely dangerous and it doesn't happen very often," Jacks said.

This kind of language was first used in May 1999 for a tornado in northeastern Missouri, Okla. Forecasters called it a "tornado emergency" to make sure the public knew it was not a typical tornado.

"I think three-quarters of an inch of ice anywhere would be catastrophic," Jacks said.

But the Atlanta area is far from the only part of the South that is particularly vulnerable because there are so many trees and hanging ice that can tear power lines. When the ice builds up on them, limbs snap and fall, knocking power out.

"There is no doubt that this is one of Mother Nature's worst kinds of storms that can be inflicted on the South, and that is ice. It is our biggest enemy," Georgia Gov. Nathan Deal said.

While only light rain fell in Atlanta on Tuesday, cities 40 miles north-west saw 2 to 3 inches of snow. The storm was expected to turn into sleet and freezing rain overnight.

More than 200 utility vehicles from Florida, North Carolina, and other Southern states gathered in a parking lot near one of the grandstands at Atlanta Motor Speedway. The state had more than 22,000 tons of sand and salt and more than 28,000 tons of salt and sand.

Hundred of Georgia National Guard trucks were on standby in case of a crisis and were deployed to hospitals or nursing homes, and more than 70 shelters were set to open. President Obama declared a state of emergency in Georgia, ordering federal agencies to help the state and local response during the storm. Deal said a generosity for that request was generators.

Metro Atlanta, the economic engine of the South, was largely deserted as people in the South's business hub heeded advice from officials to stay home. The city's medical center resembled a ghost town. Schools were closed, and grocery store shelves were bare of milk and bread.

State and local officials warned that some roads were slippery and could be challenging to drive.

"There is no doubt that this is one of Mother Nature's worst kinds of storms that can be inflicted on the South, and that is ice. It is our biggest enemy," Georgia Gov. Nathan Deal said.

Minimum-wage debate rages on

Economists disagree about raising the wage despite politicians zeroing in on the issue.

By Kristen Forristall

Raising the minimum wage remains one of the key issues for Democrats in 2014, but the push spearred by President Obama’s allies and the State of the Union address earlier this month has stalled in Washington and will most likely suffer the same fate as Iowa lawmakers in Des Moines.

Even the issue itself remains hotly contested on both sides of the aisle. Economists continue to debate what the impact would mean. As of now, proposals to lift the federal minimum wage are in limbo.

Indiana Sen. Tom Harkin, D-Ind., who is leading the charge to raise the minimum wage, told The Daily Iowan Monday night that raising the minimum wage will not have a big economic impact.

“If you’re working fulltime you shouldn’t be un- thought to include mainly restaurant work- fallen below the federal poverty line, adding ers there are actually quite a few profes- to $10.25 by July 1, 2015. Iowa last had an increase in 2007, when then Democratic Gov. Tom Vilsack signed a law raising the minimum wage to $7.25 in two steps before it became federal law. Iowa had last increased in 2007, when then Democratic Gov. Tom Vilsack signed a bill that would increase the state minimum wage to $7.25 by 2016.

Democrats have previously introduced such legislation every year until liberal and conservative authors. The fee is $15.

Kirkland has previously reported.

House passes debt-limit bill

The House approved a bill to lift the federal debt limit Wednesday that ensures the government will be able to pay its bills through Feb. 28.

The $1.4 trillion measure passes the House with a 227-188 vote. It now goes to the Senate, where it is expected to pass.

The bill is designed to avoid a default on the federal government’s debts. It would allow the Treasury Department to continue borrowing money to pay its bills through Feb. 28, 2015. The Treasury Department estimates the country will reach its borrowing limit on Feb. 28, 2015.

The bill would give the Treasury Department the authority to raise its borrowing limit to $16.4 trillion, which is $1 trillion higher than the current limit. The bill would also extend the federal government’s borrowing authority through mid-2015.

The bill passed on the floor in a 227-188 vote. Both Democrats and Republicans voted for the bill, with the exception of Senator Rand Paul from Kentucky. Paul, who is a strong opponent of the debt limit increase, was the only Republican to vote against the bill.

The bill would allow the Treasury Department to continue borrowing money to pay its bills through Feb. 28, 2015. The Treasury Department estimates the country will reach its borrowing limit on Feb. 28, 2015.

Want to see your special event appear here? Simply submit the details at: dailyiowan.com/pages/calendarsubmit.html

**Today's Horoscopes**

**ARIES** (March 21-April 19): Emotional upset and anger will not solve any personal problem that arises. Take the quiet, observed approach, and document anything that is bothering you. Impulsive action will lead to an unfavorable situation and potential loss. Bide your time.

**TAURUS** (April 20-May 20): Make plans to get together with friends, or delve into a hobby or activity that brings out your personality best. Keep things in order, and be prepared to discuss whatever needs to be done so you can make the right decisions. Pay attention to your finances, as you may be involved in a financial, legal, or medical matter. Get your personal papers in order, and refuse to let anyone push you off course. The changes you enforce will help to stabilize your life.

**GEMINI** (May 21-June 20): Do your best to please those who are counting on you. You have a responsibility to be kind, gentle, and sensitive to others’ feelings. Handle whatever you are given with precision, and you will be rewarded. Love and romance are highlighted; they should be incorporated into whatever plans you make. Let your intellectual wit and keen intuition lead the way.

**CANCER** (June 21-July 22): Lighten up, and let your imagination take you on a journey. Keep an open mind, and expect to see what’s available for your personal needs. Settle the details at:

**LION** (July 23-Aug. 22): Last-minute changes will take you by surprise. Stay on top of any joint investments. Don’t let an emotional relationship cost you. Learn to relax, and be prepared to discuss whatever needs to be done so you can make the right decisions. Keep an open mind, and be prepared to adjust your plans. Go with the flow, and you will be rewarded.

**VIRGO** (Aug. 23-Sept. 22): Ease into whatever you do. Expect to face opposition. Keep your eyes on the prize, and you will gain control and respect. Once you are in the driver’s seat, you can make the changes necessary. Be patient, and you will be rewarded.

**LIBRA** (Sept. 23-Oct. 22): Travel and dealing with people from different backgrounds will lead you on an adventure. Love and romance are highlighted; they should be incorporated into whatever plans you make. Let your intellectual wit and keen intuition lead the way.

**SCORPIO** (Oct. 23-Nov. 21): Travel and dealing with people from different backgrounds will lead you on an adventure. Love and romance are highlighted; they should be incorporated into whatever plans you make. Let your intellectual wit and keen intuition lead the way.

**SAGITTARIUS** (Nov. 22-Dec. 21): Don’t slow down when there is so much to do. Make adjustments, and you will be rewarded. The adjustments that you make will help you to succeed. The changes you make will help you to achieve your goals.

**CAPRICORN** (Dec. 22-Jan. 19): Question motives, take a step back, and re-evaluate your situation and your friends’ and family members’ feelings. Ask important questions, and make important decisions. Avoid leaving questions unanswered; you will be rewarded.

**aquarius** (Jan. 20-Feb. 19): Whatever you do, don’t slow down when there is so much to do. Keep your focus, and you will be rewarded. Keep your eye on the prize, and you will be rewarded. Keep your eye on the prize, and you will be rewarded.

**PISCES** (Feb. 20-Mar. 20): Care for your needs. Pampering or socializing with the people you enjoy will bring you a lot of happiness. Take care of yourself, and you will be rewarded. Keep your eye on the prize, and you will be rewarded.
The Iowa men's tennis record an impressive win over Missouri-Kansas City.

By JORDAN BUCHER

The Iowa men's tennis team hosted yet another sweep on Tuesday against Missouri-Kansas City, the Hawkeyes' latest victim at the Hawkeye Tennis & Recreation Complex.

The Hawkeyes opened the 2014 season on Feb. 1 with a pair of 7-0 victories in a double-header against Illinois State University and Western Illinois. Iowa's No. 6, 9, 10, 12 and No. 12 doubles matches had won for the Hawkeyes.

"It was really good that we kept playing, because that's what we were not playing well at the start and it felt good to come back," White said. "The past two matches we've played (this season) were pretty easy as it was good to have a challenge."

In singles play, four of the six matches were decided in straight sets. Janie Matt Hagan, coming back from an injury, posted the Hawkeyes' first singles victory of the day with a decisive victory over the Kangaroos' Mike Pearsea and Ramon Patena.

Playing in the No. 2 spot, seniors Jonas Dierckx and Lars Estenssoro posted a decisive victory. Estenssoro (6-3, 6-4), and sophomores Dominic Patrick (6-2, 6-4) and Michael Swank led our way in the No. 1 spot. Jonas Dierckx (6-3, 6-3), Estenssoro (6-3, 6-4), and senior Jo-13

"We know [Northern Illinois and Minnesota] is going to be tough, and we know what we have to do," Dierckx said. "The weather gives us game plans, and that's what we're going to work on."
