IC reacts to Hong Kong protests

Some locals question pro-democracy protests in Hong Kong.

By ALEKSANDRA VUJICIC
aleksandra-vujicic@uiowa.edu

Protesters have been occupying the streets of Hong Kong since September, joined by a common cause: democracy.

The protesters, many of them students, want universal suffrage rights. In other words, they want to be able to vote for their chief executive directly in the 2017 election, and they aren’t willing to settle for a list of candidates approved by a 1,200-person committee.

UI study backs clickers

Clickers are effective tools for students and teachers, according to a new University of Iowa study.

By AARON WALKER
aaron-walker-1@uiowa.edu

Students shouldn’t sweat the dreaded clicker question in lectures. A new University of Iowa study shows using clickers in class helps students both pay attention and attend the class.

The study was undertaken by Wil...
HONG KONG CONTINUED FROM FRONT PAGE

liam Hedgcock, a University of Iowa assistant professor of English and St. Andrews Assistant Professor of English, said Robert Rouwenhorst, a former UI lecturer in English, is a native of Britain that was returned to him.

Fang said he was surprised that Glueck, a Chinese author, had written about China in the same year; it organizes international relationships with countries all over the world from Russia to Malaysia to Taiwan.

The opening date is to be determined. The project has very recently run into problems with students and community leaders involved with bringing a group over to China in 2016.

At the moment however, Ganim said, the university may open a center in Hebei, China in 1997.

In an agreement between the UI, the Chinese university, Chinese embassies, and the Chinese government, the University of Illinois was awarded the $100,000 grant as part of its effort to develop better U.S.-Chinese relationships.

It would also be a counterpart to the Confucius Institute, a Chinese nonprofit institute whose aim is to promote Chinese language and culture internationally.

At the moment however, Ganim said, the project has very recently run into problems with students and community leaders involved with bringing a group over to China in 2016.

The second part of the proposal would involve the exchange of music and dance, and the third component of the proposal involves the American Cultural Center.

Leung said Hong Kong has gained several Western val-

said he is particularly excited about the administrative director of Iowa Sister States.

Russell Ganim, the director of the Institute of International Relations.

Russell Ganim, the director of the Institute of International Relations, and the dean of International Programs, said the U.S. State Depart-

ment approved three main programs: the American Cultural Center, which involves RAGBRAI.

Korean studies, one of its effort to develop better U.S.-Chinese relations.

It is the first of its kind for the university.

Hedgcock said. "For example, if you say we have some organizational issues, the connection why they are still fighting is not unusual for us, and it's something we take for granted that our educational institutions and businesses can make these connections, and that's just not the case elsewhere."
London's expensive life

Ernst struck to issues, not catch phrases

The Iowan Senate race has tightened. A new Iow-
aw pull revealed this weekend shows that Ernst is
only now starting to pull away. The latest Publica-
tives average shows Ernst leading by only .8 points,
but the poll also suggests that if the election were
held today, Ernst will be the independent and undecided voters who
will be the deciding factor.

A science teacher at the beginning of the debate
applied a new catch phrase for one of the candidates:
"I think it is important that voters be allowed to choose
their candidate based on direct information rather than
"mockingErst as someone who will not keep her
promise to the American people. This is where she
can make a difference. However, when both of them explained their
positions further, there wasn't much of a difference
between them. Both agree that Social Security is a
critical component of our social safety net and that increasing
taxes is an option to help fund it. They both agree that the
candidates when moderator Ron Steele brought
up the funding of Medicare, the two candidates again — minimizing a

Venture School expands

By KAITLIN DEWULF
kaitlin-dewulf@uiowa.edu

More Iowans will soon have access to a prestigious University of Iowa business-training program.

The UI is expanding the Venture School program through the Pappajohn Entrepreneurial Center to include Council Bluffs and the Quad-Cities.

The program will expand in those cities by March 2015.

The Venture School is a six-week training program designed to accelerate the start-up process of a business while increasing the chance of success for entrepreneurs.

Currently, Venture School programs exist in Des Moines, Iowa City, and Cedar Falls.

“The Venture School is important on so many levels,” said Kurt Heiar, lead instructor for the UI Venture School.

He said by reaching out across Iowa, the program is meeting a major need that entrepreneurs have, which includes understanding how start-ups can use iterative processes to de-risk themselves.

The Venture School in Iowa was created at the UI in the fall of 2013, and the National Science Foundation at Stanford University and the University of California-Berkeley developed its curriculum.

The program requires a minimum team of three people, including a mentor.

The curriculum focuses on customer discovery, which involves at least 100 in-person or Skype interviews.

The interviews are used to provide new, solutions, and business processes using “real-time agile development that changes as customer insight is gained,” Heiar said.

He said the expansion is in response to a demand the program has been seeing.

Additionally, he said, the increasing focus on entrepreneurship — acting as an entrepreneur in a large corporation — is creating new opportunities, as the Venture School allows graduates to bring a set of skills to that ecosystem.

“Our goal is to provide resources for entrepreneurs across Iowa to help them be more successful building their start-ups,” said Jennifer Ott, the Pappajohn Entrepreneurial Center training and engagement liaison.

She said program officials were asked by the Iowa Economic Development Authority to help spur innovation and entrepreneurship across the state by utilizing UI resources and expertise.

Ott said the program is doing this through partnerships with local educational institutions, so the entrepreneurs have a connection to both the UI and their other resources.

So far, the Venture School has partnered with Drake University, Simpson College, the University of Northern Iowa, North Iowa Community College, East Central Community College, and Iowa Western Community College. The program is also working closely with local Small Business Development Centers.

David Hensley, Pappajohn Entrepreneurial Center executive director and associate vice president for economic development, said the program’s growth will allow more Iowans entrepreneurs to access UI resources as they develop their technologies and launch companies.

These resources include faculty and research centers for technology development and testing, UI PrintLAB for assistance in creating prototypes, and the Pappajohn Entrepreneurial Center for planning business strategy and obtaining assistance.

“We want to increase the number of successful Iowa start-ups, see more high-quality jobs created for Iowans and students, and bring life-improving products and services to the market,” Hensley said.

By the Numbers

Prime Plays

Down 21-0 near the end of the first quarter, the Hoosiers lined up at their own 17-yard line. Running back Tevin Coleman, on just his seventh carry of the game, went 83 yards for Indiana’s first touchdown of the game. The revival didn’t last long, because...

On the next play from scrimmage, Iowa lined up on its own 40-yard line. Jonathan Parker moved from the slot toward the backfield and took a jet sweep 60 yards to the house to give the Hawkeyes a 28-7 lead. It was Parker’s first career touchdown and the longest rush of his young career.

IOWA GAME BALL

JAKE RUDOCK

This could’ve gone to any number of Hawkeyes, but they extremely well after reversing the last six quarters with an average of 7 points for 210 yards and 2 touchdowns and put to rest any notion that he might lose his job to backup C.J. Beathard.

This was a given. Coleman ran for 219 yards on just 15 carries, good for a cool 14.6 yards per carry average. He also scored 3 touchdowns, which spanned 83, 45 and 69 yards. After his final touchdown, head coach Kevin Wilson pulled him from the game.

INDIANA GAME BALL

TEVIN COLEMAN

The wide receiver Coleman ran for 219 yards on just 15 carries, good carry average. He also scored 3 touchdowns, which spanned 83, 45 and 69 yards. After his final touchdown, head coach Kevin Wilson pulled him from the game.

IOWA 45, INDIANA 29

This could’ve gone to any number of Hawkeyes, but the junior quarterback played extremely well after missing the last six quarters with an injury. Rudock completed 19-of-27 passes for 210 yards and 2 touchdowns and put to rest any notion that he might lose his job to backup C.J. Beathard.

This was a given. Coleman ran for 219 yards on just 15 carries, good for a cool 14.6 yards per carry average. He also scored 3 touchdowns, which spanned 83, 45 and 69 yards. After his final touchdown, head coach Kevin Wilson pulled him from the game. Probably didn’t want to risk injury.

THUMBS UP

- Total Offense: The Hawkeyes posted their best offensive performance of 2014 against Indiana. Iowa managed 426 total yards of offense — 207 rushing and 219 passing — and practically scored at will, especially in that first quarter.

- Iowa will head east next weekend to play Maryland. It will be the first time the programs have ever met. The Terrapins are no slouches, though, as they are 4-2 (1-1 in Big Ten). Maryland had a bye this week, giving it an extra week to prepare for the surging Hawkeyes.

THUMBS DOWN

- Run Defense: Coleman ran wild against Iowa’s run defense — which, entering Oct. 11, was one of the best in the country. In all, Indiana ran for 316 yards and 3 touchdowns on 39 attempts, good for an 8.1 yards per carry average.

‘Mystery’ highlights swimming intrasquad

By IAN MURPHY
ian-murphy@uiowa.edu

Touchpads fail in swimming, and when they do, it comes down to the backup button linked to the computer. When that button doesn't get pushed, it creates problems.

That's exactly what happened at the Hawkeye swimming Black and Gold intrasquad meet on Oct. 11.

The meet was separated by just 6 points, with the Black team holding an 82-76 lead heading into the last two events, a pair of 200-freestyle relays remained for the men and women. The problems started in the women's relay.

The time pad for the Black team's "A" relay did not fire, resulting in two official reviews, a protest from the Black team, and a video review that was inconclusive of who won.

"A controversial finish," Long said about the relay. "Yes, absolutely."

The score heading into the men's relay was 85.5 for the Gold and 79.5 for the Black, meaning the men's heat of the relay would be the deciding factor, the winner taking all seven points.

The Black team of junior Charles Holliday, sophomore Joseph Halsmer, Roman Trussov, and senior Grant Betulius took the men's side of the relay in 1:23.14 to 1:23.90 from the Gold team, and the victory by a final score of 86.5-85.5.

Betulius, the captain of the Black team, said this was the most intense and closest intrasquad meet he's been apart of in his five seasons on the Iowa swimming team. However, he said, he wouldn't call the finish controversial.

"I feel like all of us are extremely competitive — I wouldn't call it a controversy, but it was definitely intense," Betulius said.

Redshirt junior and Gold team captain Brian Donatelli agreed.

"Overall, I thought it was a good racing atmosphere," Donatelli said. "I know the coaches got really into it, and everyone else got really into it."

As for the ending, neither Betulius nor Donatelli was upset about the score. Both were excited about the way the team competed.

Betulius said he thought both teams thought they won the women's relay, but no one would be upset. Donatelli had a similar belief.

"You know, whatever happens," Donatelli said. "But overall, it was awesome racing; there was a lot sparks from a lot of people." Still though, the result of the meet is a mystery.

"I kind of wished the pad had registered," Betulius said. "We'll probably never know."

Backup center steps right in for football Hawks

By Cody Goodwin

Tommyrnny in his name, next man in, I'd trust him," Ferentz said. "Tommy played the rest of the game and we finished the game 480 yards of offense. It was a really meaningful playing time — a lot more so than most games." De Montes olive native had only seen action in three games.

Head coach Kirk Ferentz couldn’t believe it himself. "Other than telling me the story, he hasn’t heard from anyone since," Ferentz said. "He seems like a normal guy who you call on to help fill the void when needed."

And Jordan Ferriolos, Weisman’s former high school teammate and Gold uniform. He has stepped in at center.

Hugan reaches semifinals

Hugan is aiming to get into the semifinals of the Big Ten men's tennis Regional Championship. The senior, who won a doubles player at the Oklahoma State Invitational in Stillwater, shot up to No. 77 in the nation.

“I’ve been working hard practice-wise and mentally to get to semis,” Hugan said.

Nate Yankovich, a freshman, also advanced to the semifinals of the singles tournament.

Men's golf finishes tied for seventh

The Iowa men's golf team finished seventh among 14 teams at the Rod Myers Invitational on Sunday after extensive lightning delays in The Rock in Apalachee, Florida, on Sunday.

Sophomores Raymond Knoll and Stephane Vanderstraeten each shooting 144 in the opening round.

Sophomore Hakan Hakanoglu finished 145, tied for 54th, and the Hawkeyes tied for 54th.

Vanderstraeten, who isn’t listed on the official roster, sprained his ankle with Michigan State Saturday and cannot travel to the NCAA regionals. The Hawkeyes finished 17 strokes behind Oklahoma State.

“I think there were some issues with the course today,” interim head coach Ross Wilson said after the tournament.

“I think we need to think about what we did wrong and what we did right so we can improve before we play again in two weeks.”

Jim Foster, the founder of the Arena Football League, was born in Iowa City and graduated from the University of Iowa. If he had been in the stands for the Hawkeyes' Homecoming game against Indiana on Oct. 11, he would have seen a first half that looked like it belonged in a high school.

At halftime the score was 38-23 for Iowa, an uncharacteristically good offensive showing. — the Hawkeyes had failed to score more than 35 points in any game of the entire course of an entire game heading into the Oct. 11 contest.

“Basketball or arena ball, I couldn’t make up my mind,” Iowa head coach Rick Forrester said.

In the first half, Iowa had 21-for-34 passing for 289 yards, 3 of 4 scoring from the field for 17, and added one more for 18. Powell caught a touchdown from Jake Rudock. Jon" enhanced their .701 winning percentage. Rudock gets the Montana defense a few points.

Pretty it was not, but thankfully for the Iowa field hockey team, the NCAA doesn't get to grade styles points.

After being down two-straight Big Ten games at home, the Black and Gold finally managed to stop the bleeding and pieces together a 5-2 win over MAC opponent Miami (Ohio).

"We needed to get to a W when we went out today," interim head coach Lisa Cellucci said. "It definitely was not pretty, but we got the result, and we got some of our confidence back, and that's all we were worried about today.

With the team stabilized, the Hawkeyes can go back to the drawing board and gain their previous dominant form.

"I think we've definitely been in a bit of a rut, but we got the win today at home and we were able to keep possession for longer periods of time and build an attack, which was good to see," Norlander said.

While the team needed just one goal, Iowa's overall team defense still leaves a lot to be desired.

Budweiser, putting back-to-back goals to put the game out of reach for Miami. "They just gave us a little room, and we were able to keep possession for longer periods of time and build an attack, which was good to see," Norlander said.
