The Iowa City City Council will hold a special meeting today to vote on the necessity of public hearing concerning three potentially historic properties.

The fate of three properties on South Dubuque Street will be in the hands of Iowa City councilors today, as they will decide during a special meeting whether to hold a public hearing on the matter.

If a public hearing is held, it will be on Jan. 6, and it would prevent the building from being demolished for possibly up to 60 days. Councilor Susan Mims said the meeting today would feature a rundown of partners from both sides of the debate.

“We will get input from those who want a public meeting, in terms of looking at those properties from a historic perspective, and I assume that we will hear from the property owner and maybe others why fact that we should not,” she said.

John Yapp of the Development Services Department said the city has received applications for rezoning, historic preservation, and demolition for the three properties.

“There was a resurfacing application for the properties several months ago, and our department processed that application, which has been withdrawn,” he said. “Our department has received a historic—landmark application for the properties, and the property owner has also submitted a demolition permit for the structures.”

Alicia Trimble, the executive director of the Friends of Historic Preservation, contacted Emma Duggan of Morning Star Studio on Nov. 24 in a second analysis of the properties. “Planning and Zoning also thought a second opinion would be a good idea, and once the city is usually cash-strapped, they asked Friends of Historic Preservation to go ahead and fund that structural engineer,” Trimble said.

Trimble said the second report deemed the properties historic—landmark. For a community members shared their traumatic experiences and troubling interpretations of a 7-foot Ku Klux Klan display that was placed by Visiting Assistant Professor Serhat Tanyolacar on the Pentacrest on Dec. 5. “When it’s in the same spot where we had the protest the night before, it was scary to wake up and see that,” said Brittany Reed, a University of Iowa junior and NAACP president on campus.

The UI asked Tanyolacar to take down the display after several hours because he did not have a permit and did not ask university officials for permission to erect the statue.

Kayla Wheeler, a UI graduate student, said the display “ignites free-speech debate The University of Iowa officials’ removal of a display from the Pentacrest on Dec. 5 raised First Amendment concerns among some faculty and students.

A heated debate at the University of Iowa has grown over a 7-foot tall Ku Klux Klan figure that stood on the Pentacrest Dec. 5 for nearly four hours. The display, portraying newspaper articles depicting coverage of racist terror, riots, and killings dating from 1908 to 2015, was removed after UI officials deemed it “deeply offensive” to members of the community.

In a statement issued to the students, staff, and faculty the university wrote, “The University of Iowa considers all forms of racism abhorrent and a daily commitment to the principles of inclusion and acceptance.”

As a result, the Ku Klux Klan is a symbol of racism and oppression that may not practice viewpoint discrimination. Viewpoint discrimination occurs when officials discriminate against speakers.

Ninth sexual misconduct reported

By LILY ABROMEIT

On Monday afternoon, the University of Iowa Police issued a warning to students, faculty, and staff following a reported act of sexual misconduct.

According to the alert, UI police received a report on Dec. 6 that a student had been sexually assaulted by an unknown perpetrator. The student reported the rape in a residence hall on Dec. 5 late at night when she was confronted by the perpetrator.

This is the ninth sexual misconduct reported this academic year.

Tears were shed and voices were hoarse among the African American community, as community members during a two-hour discussion on Monday night about the Dec. 5 Ku Klux Klan display. UI receives preservation grants

Two University of Iowa departments have received statewide grants for historic preservation.

By Ken Marks

With the help of some recently awarded grant funds, two University of Iowa departments will now be able to preserve important aspects of history.

On Dec. 4, the Iowa Department of Cultural Affairs announced more than $19,000 in grants allocated to 16 different projects in 13 Iowa communities, including Iowa City, for the purpose of historic preservation.

The UI Museum of Natural History and the Office of the Office of Archaeology were two recipients that received some of the money.

"These grants help communities and organizations preserve our state's history and make it more accessible to today's Iowa's Cultural Affairs Director, Dr. Karen Savery, said.

"That's important because the preservation of our historical artifacts connects us to the people, places and past that define our state."

Savery said the State Archaeologist's Office and the museum received money through the State Historic Preservation Program of the Iowa Department of Archaeology, a division of the Cultural Affairs Department.

Statewide, the museum and the office received a total of $19,036.

The grants awarded to the museum included funding for a preservation, including funding from the University of Northern Iowa and the City of Iowa City.

The UI Museum of Natural History, which houses a significant collection of natural history specimens, received a grant to help preserve and provide educational opportunities for the university's collections.

"These grants are an important step in preserving our state's history and making it more accessible to everyone," Savery said.

In the Dec. 3 story, "The GPSP has created a Student Safety Chair," The Daily Iowan implied the new Student Safety Chair for Graduate and Professional Student Government is directly tied to the UI On Us campaign.

In fact, the Student Safety Chair and the UI On Us campaign are separate articles. The article also implied that the Student Advisory Committee works with the Student Safety Chair, but all three are separate entities in GPSP. The chair, however, may deal with issues regarding sexual misconduct.

Also in the article, GPSP President Alyssa Billmeyer was misquoted as saying, "It's very easy for graduate students to reach out to undergraduates," she said. "We're both in different stages in life but not by much. It's easier for us to relate to the others." That quote does not accurately reflect sentiments made during the meeting. Kira Pasque was also misquoted as saying, "These poor people choose friends, family members, and even professionals to help them get through this difficult experience," she said. "That initial moment where the victim sees support is that most important." This does not accurately reflect the meaning of what was said. The DI regrets the errors.

The term ‘practice makes perfect’ is in vogue among Iowa’s men’s basketball team, at least as far as free throws are concerned.

Head coach Fran McCaffery has made it an obsession in his seven years with the Hawkeyes to work on improving the team’s shooting. McCaffery said on Dec. 1, “I think there’s a lot of things that are getting good looks. The players are shooting a lot more than they had in the past. I don’t think they’re going to be perfect. They’re going to miss some shots down the stretch to pull out the victory. Woodbury made enough for the Hawkeyes to hold off the Boilermakers and pull out the win for the fourth straight year. In 2010, Iowa hosted Northwestern in the 2010 Insight Bowl.
