Loebsack to shun Netanyahu speech

Iowa Rep. Dave Loebsack won’t attend Israeli Prime Minister Benjamin Netanyahu’s address to Congress today.

By AARON WALKER
adearivker@uiowa.edu

Israeli Prime Minister Benjamin Netanyahu will address a joint session of Congress today in which he is expected to speak about the threat a nuclear Iran would pose to the United States and the Middle East. And while most Americans are in agreement that a nuclear Iran would pose a significant threat to national security and global pre-emption, many Democratic lawmakers are skipsing out on the speech.

Some lawmakers see the speech as an effort to work with the United States, while others view it as a political gesture to rally support for Netanyahu’s reelection vote amid mounting concerns about the political nature and bungling of the speech. Rick Kliet, the associate athletic director for external relations, wrote in an email.

He said the decision to provide a discount on student football ticket prices was a response to the decline in student attendance. According to the Athletics Department, around 6,400 student tickets were sold for 2014, which was a decline from 7,300 the previous year. Student season football tickets this fall will cost $50 less than last year’s price of $175, if ordered by May 15.

The goal, of course, is to increase participation by our students at our home football games by making it more affordable, the Athletics Department wrote in an email. 

The University of Iowa Athletics Department is chopping $50 off the price of student football ticket prices in an effort to increase attendance. This coming season, student season tickets will cost $125, which will save them $50 from last year’s price of $175, if ordered by May 15.

“Loebsack has significant concerns about the political nature and bungling of the invitation by Speaker Boehner,” Hand said in a statement. “He also doesn’t believe that this speech will move us towards the common goal that is shared by everyone, which is ensuring Iran doesn’t achieve nuclear-weapons capability.”

Both Iowa Sens. Chuck Grassley and Joni Ernst plan on attending the speech. Ernst and Grassley were two of many Republican

By CAREY MATTHEW

The University of Iowa at Iowa City and the College of Graduate Students reached an agreement after months of negotiations. The agreement includes a raise for graduate students and improved benefits.

The agreement, which was reached on March 16, 2023, includes a $1 per hour increase for graduate students, up to a maximum of $20 per hour. The agreement also includes improvements to health and dental benefits, as well as increased access to professional development opportunities.

The agreement was reached after months of negotiation between the University of Iowa and the College of Graduate Students. The negotiations were led by Caretta Matthews, who was appointed to the role in 2022.

"It's surprising how difficult it is to get these things," Caretta Matthews said. "It was very hard to get the agreement, but it was a very good agreement. The students were very happy with it.

"It was a long process, but it was worth it. The students have been working very hard on this issue for a long time. It's great to see that it paid off."
The Daily Iowan previously reported the 10,000 tickets allotted for students at football games had sold out in previous years. Klatt said he hasn’t put a number on the boost the department would like to see, but things are looking up.

“We are optimistic based on our research and the response we’ve received directly from UI students, that by making season ticket sales more affordable, we are addressing one of the primary reasons students told us they didn’t renew or purchase season tickets,” Klatt said.

Despite the decreases in cost, some UI students are questioning if football is still going to keep them from purchaseing student tickets. “I think it’s more season ticket because tailgates are more interesting than seeing before-aver-nage football games,” UI junior Trevor Heimke said.

“The tailgate culture was a common reason UI students said they rather be outside in gameday,” Klatt said.

“I would have just as much fun at it if I wasn’t at the game,” UI freshman Nick Ackerman said.

He said although he supported the season ticket purchase, it could have an affect on other students. “I believe $50 in reduction is a large re-duction that students will like the tickets,” Ack-

Klatt said in a release Monday around 4,000 students aren’t where the department wants to be, but many students have to balance academic de-

**EDITORIAL

**WINTERING ON (AND ON)**

The newest development in a string of policy struggles between the presidential administration and Congress has shut down the Department of Homeland Security from lack of funding.

The key player in this fiasco is Speaker of the House Boehner, who has left the stocks but is still inflicting serious damage on the executive branch.

In this most recent debacle, Boehner planned to use cuts to the Department of Homeland Security as leverage against Obama's executive action on immigration. He failed but he is trying to execute this plan because of conflict of interest in his own party. The idea has been averted for a week, but the predicament remains pressing concerns.

As troubling as it is that funding that would directly contribute to the continued protection of the American people is being used as a bargaining chip against the elected leader of the country, this would not be the first time political agendas have taken priority over the needs of the nation. The notable difference in this scenario is that the facts being done the fighting in this instance are splitting, blaming the lines between party allegiance and indifference.

Boehner's plan focused because members of his own party voted to cut funding for the administration's Olympic of Democrats to extend Homeland Security funding.

The perceptive measure did not come without the conventional that Bush try to pass a bill without terms that would counter Obama's executive orders.

And, of course, conspiracy theories. Such as, the assassination sparked outgunned down on the Great Exburb of Iowa City.

True winter seems to happen in Russia, for instance, and we're not talking about that here. Or actually, maybe we are.

Born Newton, a former Russian official classified critic of Russian Presse, has penned a piece that has guided down on the Great Exburb of Iowa City and Moscow last week. The Associated Press has released a huge in Moscow (and tons of the same) and several more tons were released at the Kremlin and Putin.

So, why are we speaking of Russian theory? Such as, the Communist theory, the theory of the Newmeister in order to talk about the theories in Putin's government. I'm not sure that Putin would be enough to handle that partisan... Meanwhile, back in Moscow, a particular area of Moscow in Moscow. The Moscow region has been filled with video evidence of the KGB's elite forces. NIP, what's notpare to forget the media in Russia, the bridge game, the killing..." the end." What a perfect day it is to have a reason to not turn on.

Eric Holder was the first African American to be appointed to the position of US Attorney General. This choice was preceded by a history of America that has brought triumph to the proceedings of civil rights relations in America. Mr. Holder or Holder is prved that if you are not white, you are not a part of the narrative. In no way do you even come to the game of theory. It would not be for your fight your area. You are not even a part of the game. And that's why holder was named the Attorney General of the United States and chosen to lead the Department of Justice.

Martin Luther King's "I Have a Dream" speech made it clear that equality in the world. This was the first step in the fight for civil rights and justice. The dream of a world in which all would be welcome to join hands with their black brothers, especially and black girls as sisters, a world in which all would be welcomed in a world of which all would be welcomed.

While on his way to his home, Holder is stayed in an interview by President Obama. Holder believes that those that do not work with the American people or the American people do not deserve to be a part of the American people's dreams. It is not a dream that comes on the way out of the schedule confirming his replacement. Loreta Lynch, who is an African-American woman.

In 2011, Holder was involved in a controversy over whether the country's future is in danger if the political right, I like what he said.

Learn from history. We have a country that will not forget the consequences of our ancestors' sins. By doing so, we can make our country better people, a better nation if we as a country refuse to acknowledge our past faults/failures? By doing so, we can become a country that appreciates our nation's flawed legacy and former president.

Our country's future is in danger if we do not continue to do our history after other countries.

Can we survive? Climate change is a major problem requiring massive action, but we must also prevent millions of future climate refugees from facing an existing quality of life in the future. What would it mean to reduce the warming of the atmosphere? Can humans be climate refugees? If so, will we be able to stay on Earth? If the answer to both questions is yes, then what can we do to prevent millions of future climate refugees from facing an existing quality of life in the future? What would it mean to reduce the warming of the atmosphere? Can humans be climate refugees? If so, will we be able to stay on Earth? If the answer to both questions is yes, then what can we do to prevent millions of future climate refugees from facing an existing quality of life in the future?
Let Me Answer Your Stupid Questions About My Colorblindness

• NO, I don’t care if you have colorblindness. It’s very personal
• NO, I do not understand the word “aeon” and “plain” and “paintless” — and neither do I
• NO, I do not have trouble shopping for clothes. Shopaholics are pretty understanding, just as one is pretty easy to notice when one is pretty radiant at telling one’s own secrets.
• YES, I’m offended when you haven’t learned to associate an ability to differentiate colors to which you are colorblind.
• NO, I don’t have trouble following the rules of a party — except those rare far-far-away days when Alcohol plays Bonging Green.
• NO, I don’t understand when people give me their yellow Shrekish purple Whiskers, and Hack Alley Bells. I’m doubly un-thankful.
• NO, I do not see car: “I have a dog tail” — and NO, I will not stop hanging your bag. • NO, I don’t see car: all 50 shades of gray but that’s more a standard than a medical condition.
• YES, I can tell the difference between red wine and white wine, though it has taken many years of dedication — practice.

Andrew R. Askren knows there's a curse on your pants, and atrophy.

We seem to have forgotten that the expression “a liberal education” originally meant among the Romans one worthy of free men, while the leaning of trades and professions by which to get your livelihood merely was considered worthy of slaves only.

—Henry David Thoreau

horoscopes

Tues, March 3, 2015

ARIES (March 21-April 19): Must a to-do list, and don’t stop until it has been completed. The satisfaction and confidence you get from taking care of your responsibilities will make you feel like having fun with someone whose company you enjoy. Romance is encouraged.

TAURUS (April 20-May 20): Refresh from bringing up emotional matters until you feel you can handle the consequences. Focus more on work and the contributions you can make that will make a difference to your peers, community, and future prospects.

GEMINI (May 21-June 20): Make changes because you want to, not because you feel you have to. A fresh approach will enable you to see a much better handle on what you want to see happen than an onlooker has. A love relationship will improve so you can stop putting up for blessings.

CANCER (June 21-July 22): Expect to meet with opposition. You may not like change but if it will bring about a favorable new lifestyle. Don’t fight the inevitable. Make do with what you are given. Accept, move forward, and you will get positive result.

LEO (July 23-Aug. 22): Step up, and take on a position of leadership. Do what is necessary, pull your plans into motion, and leave time for a little romantic fun. Short trips will lead to a bargain in a way or with an old friend.

VIRGO (Aug. 23-Sept. 22): Money, health, and legal matters will be prominent, so do your best to take care of your responsibilities at home. Personal papers are best dealt with sooner rather than later. Don’t get angry, just moving.

LIBRA (Sept. 23-Oct. 22): Size up your situation and your current position. Partnerships are beneficial and will help you increase your momentum as well as your reputation and confidence. Don’t let someone hold you back. Pick yourself up and move forward.

SCORPIO (Oct. 23-Nov. 21): Explore different ways of doing things. A break from here and there to the way you’ve conducted your life will help you appreciate what you have. An offer is heading your way and must be accepted, and enjoy the recognition you receive. Romance is encouraged.

SAGITTARIUS (Nov. 22-Dec. 21): Try to ease loose ends, and make plans to travel or get involved in a home-improvement project that will help stabilize your future. Realistic plans coupled with hands-on work will help you see what you want to see happen than an onlooker has. A love relationship will improve so you can stop putting up for blessings.

CAPRICORN (Dec. 22-Jan. 19): Avoid travel, communication, or unproductive people. Refuse on your values and your service to help make good decisions now. An exalted joint venture will entice you. You are better to take precautions and use facts, not hopes, to help make decisions.

AQUARIUS (Jan. 20-Feb. 18): You’ve got the right mindset and moves to make your dreams come true. A money-making opportunity is within reach, along with a partner that can help you expand. Present, promote, and enjoy the recognition you receive. Romance is encouraged.

PISCES (Feb. 19-March 20): A colleague, superior, or peer will have a hidden agenda. Take your time, and make sure whatever you get is realistic a project or joint venture is. Be smart, not sorry.

As the world is not a story of the effect on the author and not the DI Editorial Board, the Publisher, Student Publications, or the University of Iowa.
Officials await fate of bar-entry bill

By GRACE PATERAS and REBECCA MORIN
daily-iowan@uiowa.edu

State and local officials are holding their breath until Friday over potential legislation regarding bars' entrance age, which could reverse Iowa City's 21-ordinance.

Senate File 208 — introduced by Sen. Wally Horn, D-Cedar Rapids, and Sen. Rick Bertrand, R-Sioux City — aims to eliminate ordinances that do not allow 19-year-olds in wine-, beer-, and liquor-licensed establishments. If approved, the law would call for all patrons 19 years or older to be allowed into any establishments selling alcohol after 10 p.m.

This Friday is the first "funnel" deadline, when bills are killed if they do not meet certain procedural requirements in the Legislature.

Bertrand previously told The Daily Iowan he didn’t believe the bill would move forward in the process, but he wanted to create an open dialogue about the issue.

Many groups across the state have been opposed to the idea of having underage people legally in bars. The Iowa League of Cities is one of several organizations lobbying against the bill.

"There are pressures on the underage person to look and try to fit into the environment by taking alcohol, and pressure to the over-age patrons to buy alcohol for the underage patrons, so it's just not a good idea," said Matt Walsh, the president-elect of Iowa League of Cities.

The Iowa Restaurant Association, the city of Des Moines, and the Iowa Medical Society have also voiced opposition to the bill.

"If [smaller towns] don’t have alternative places for them, then they should develop those types of things," said Victoria Sharp, the immediate past president of the Iowa Medical Society.

University of Iowa President Sally Mason said she has seen the city prior to the 21-ordinance, and it “wasn’t pretty.” Because of the ordinance, she said she has seen a safer environment for university students and those visiting from out of town.

"When people are coming miles and miles away to come to Iowa City just because on the weekends they knew there would be 19- and 20-year-olds in the bars, I often described it as people coming to Iowa City to prey on the co-eds who would go to the bars on the weekends because they could," Mason said in an interview with the DI on Feb. 23.

"It’s not that way now. I think it’s much more healthy and safer than it’s been in a long, long time," she said. "It would be a shame to go backwards."

However, George Etre, the president of the Iowa City Downtown District and business owner, said he sees no reason to believe that, if passed, the law would affect Iowa City in a detrimental way.

Before the 21-ordinance was passed in 2010, Etre said, there were more bars in the town and fewer other types of licensed businesses. It used to be a bar scene only he said. "Since it’s gone 21, it’s given the city time to showcase other things, like FilmScene and retail. There are so many other things going on downtown that bars aren’t as big as it used to be to ISU change things for students, but downtown is already vibrant enough without the bars."

In Ames, no one under the age of 21 is allowed in bars because of a city ordinance, said Assistant City Manager Bob Kindred. "It's simple in Ames; if you're 21 you're in, and if you're not 21, you're out," he said.

If the legislation passes, he said, the city would have to rely on the bars and police officers to ensure there is no underage drinking occurring.

In Iowa City, Mayor Pro Tem Susan Mims said the council’s focus on community safety is its biggest concern. Comparatively, she said, Iowa City’s ordinance is more compliant for students in comparison with other university towns.

"When you look across the country, a lot of college towns have an ordinance of some sort," Mims said. "A lot of them don’t allow underage people in bars at all, like before 10 p.m. so we do."
Gymnasts notch high score, but lose

The Iowa men's gymnastics team posted a season-high score in a loss at Penn State Feb. 27.

By CHARLIE GREEN

The No. 6 ranked Iowa men's gymnastics team may have lost to second-ranked Penn State on Feb. 27, but all things considered, it was the team's best performance of the season.

For starters, last week's inclement weather made the trip to University Park a challenge in itself. Rather than arriving for the meet around 24 hours beforehand as planned, the team changed its itinerary: Delays in flights out of Chicago followed by a flight to Philadelphia, where it arrived in the early hours of Feb. 27. After a few hours of sleep, the Hawkeyes drove three-and-a-half hours to University Park a challenge in itself.

The trip to University Park is usually a difficult thing to handle, as JD Reive said. "That's why we usually a difficult thing when you go out, no matter where it is. And we handled it really well."

A couple of mishaps proved costly for the Hawkeyes with the change in scoring. Januar Del Vecchio Orozco scored a team-low 13.400 on the pommel horse, and 15.000 for the Hawks. His lowest score of the night was a 14.550 on the parallel bars. Similar- ly, junior Jack Boyle posted four scores between 14.600 and 15.000 for the Hawks.

High on their horse

Despite Orozco's fall in the second routine of the night, the Hawkeyes rebounded into more consistent, higher scores. "It's the time of the season when a team's depth is challenged, as well as its ability to perform under pressure," Orozco said. "That's usually a difficult thing when you go out, no matter where it is. And we handled it really well."

Despite Orozco's fall in the second routine of the night, the Hawkeyes rebounded into more consistent, higher scores. "It's the time of the season when a team's depth is challenged, as well as its ability to perform under pressure," Orozco said. "That's usually a difficult thing when you go out, no matter where it is. And we handled it really well."

A couple of mishaps proved costly for the Hawkeyes with the change in scoring. Januar Del Vecchio Orozco scored a team-low 13.400 on the pommel horse, and 15.000 for the Hawks. His lowest score of the night was a 14.550 on the parallel bars. Similar- ly, junior Jack Boyle posted four scores between 14.600 and 15.000 for the Hawks.

High on their horse

Caffery said, takes a variety of ball movement and behind conference-leader season with 14.2 per game, the Big Ten in assists this Indiana is tied for sixth in lot of guys who can shoot. the fact that they've got a sometimes we overanalyze es teleconference. "I think CONTINUED FROM 10 Purdue.

Connor of Indiana and those amazing competi- be in the finals with all tion final.

Boschult, the school re- junior Addison Boschult. CONTINUED FROM 10 win the first set. You get all what good point guards do.” Luckily for the Hawkeyes, there was enough to slow guards towers. Petagno of Nebraska shot 50-55 against Edgar Lopez. The against Edgar Lopez. The earned the Hawks their singles, was in a position to clinch for the Hawkeyes against Edgar Lopez. The freshman made quick work of Lopez in the first set (6-2). In the second set, The sophomore served a perfectly ball to go up Ad-40 while having 13, 2)

"To go up to tower, 33 feet high, and start not to dive for a second event. Boschult competed in the consolation final. He placed ball to go up Ad-40 (2)."

"I felt like we competed well and pumped it up with a lot of energy for a Monday morning," Patrick said.

"I think the biggest difference of today versus when we played Drake was that we responded well coming off a loss." — Junior Domi- nic Patrick. "I think that we showed that we have more than we may have of the most."

The dual started with single-heat rounds of onto the courts, caught fire, and won all six of the first set.

"Every single court, through six," head coach Buch. "It’s a huge home court and you come out and win the first set.

"You get all the momentum."

Going into the second sets, it was clear that Iowa wasn’t going to let off the throttle.

"The guys kept up their energy, and we broke four points in total in the second sets. That was key," Wilson said.

"We were able to stay ahead and finish matches.

Josh Silverstein was the first to finish his match. He defeated James Blackmon Jr., a senior, giving Iowa a 1-0 lead.

The freshman played at No. 5 and shot his opponent out (6-4, 6-3).

"It was a really good team effort," head coach Buch. ""For us, a team effort was a really big deal for the program.""
Big Ten honors White

Iowa forward Aaron White was named Big Ten Player of the Week by the Big Ten on Monday. The honors are the first of his career's nine over Illinois and Penn State, he averaged a double-double for the Hawkeyes with 20 points and 11 rebounds. White shot 10.6 percent from the floor and went 12-for-14 from the free throw line in those two victories.

White is the second Iowa men’s freshman to receive Big Ten honors, and he joins 11-10 Illinois, 8-11 Iowa in the Big Ten. The Hawkeyes are scheduled to face Indiana's Hoosiers in Bloomington, Indiana, tomorrow night. The conference home game is scheduled for 7:15 Saturday against the 21st-ranked Hoosiers.

Big Ten, ESPN honor Logic

Sam Logic, named Big Ten, ESPN National Player of the Week.

For her efforts in victories against Wisconsin and Wisconsin last week, Iowa point guard Sam Logic has been named Player of the Week, the Big Ten announced Monday.

Logic has played incredibly well in recent weeks, compiling with two near triple-doubles to thus far, the regular season. She had 20 points, 13 assists, and 5 assists against Wisconsin on Feb. 26 and followed that with 24 points, 15 assists, and 6 rebounds against the Gophers on Sunday night. Her 22-point, 13-assist, 8-rebound evening earned her Player of the Week honor not only for the Big Ten but also ESPN Player of the Week.

The Hawkeye is one of only two players in the nation to average 11 points, 7 assists and 16 rebounds in 2014.

She was also named an Academic All-American last week and is a finalist for numerous addi- tional honors, including the Wooden Award. Iowa is in the unique position that it has a player of the week in every week and on the Big Ten Player of the Week — Senior White and Freshwoman Logic.

Iowa men's basketball team managed to find victories at home this season? By RYAN RODRIGUEZ

Saturday night was a memorable one for the Iowa women's basketball team.

Not only did the Black and Gold honor senior Sam Logic, Melissa Dixon, Bethany Dow- little, and Kathryn Reegsby with a postgame ceremony they deserved of their massive contribu- tions to the program, the Hawkeyes also welcomed them into the history books by becoming the only team to go 16-0 at Carver-Hawk- eye in recent weeks.

The record is one of only two teams in the nation to average 11 points, 7 assists and 16 rebounds in 2014.

That holds true on the defensive side of the court as well, including in wins over Illinois and Penn State.

The first half of games this year, Iowa has been prone to big swings by the opposition in putting up points in both conference opponents this season, they took

Iowa is 19-10 overall, 10-6 in the Big Ten, 56.5-percent from the floor and 11.5 rebounds. White shot 40-plus percent 3-point shoot-
